

It is pleasant to think, just under the snow,
That stretches so bleak and blank and cold
Are beauty and warmth that we can not know,
Green fields and leaves and blossoms of gold.—Hempstead.

We find plenty of people who are insane over making money. There are thousands of folks who are bug-house over the idea of getting into higher saw-ciety and the lime light. Then quite a sprinkling—a heap too many—are religious fanatics and crazy infidels. The army of lunatics over love is immense. Everybody (except you and I) are a little cracked on some subject.

A group of scientists come to Texas to look for three toed horses said to have existed on this hemisphere some five or six million years ago. At Cameron as well as elsewhere in Texas bones of pre-historic animals have been unearthed. Texas is young, the geologist tells us, in fact too young to give much evidence of what lives underneath its surface. This is especially true of the southern part. The theologian has figured out and put on the margins of the Bibles that the earth is only six thousand years old. One of the really startling things is to learn that this portion of the earth is really young, five or six million years not having been a sufficient lapse of time to make geology anything like a certainty.

February 12 is the birth date of Abraham Lincoln of whom H. G. Wells says is one of the seven greatest men of the race. Unfortunately men are emphasized in times of great national stress. Lincoln knew the Civil War, Woodrow Wilson the World War. The sword has been the measure of greatness says the verdict of history but the future will discard it. Here is a letter Lincoln wrote to a mother who gave five sons to die for the country: Dear Madam: "I have been shown in the files of the War Department a statement of the Adjutant-General of Massachusetts, that you are the mother of five sons who have died gloriously on the field of battle. I feel how weak and fruitless must be any words of mine which should attempt to beguile you from the grief of a loss so overwhelming. But I can not refrain from tendering to you the consolation that may be found in the thanks of the Republic they died to save. I pray that our Heavenly Father may assuage the anguish of your bereavement, and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom.—Abraham Lincoln.

"Under the spreading chestnut tree," nearly every reader of these lines can remember when the blacksmith shop was the nucleus of the town. But the town progressed—the candles gave way to oil lamps and the oil lamps to electric lights, the garage and the filling station came in place of the blacksmith shop and the livery stable and the town moved up into the class of a modern city with pavement water and sewer and the things that go to make a modern American city.

All this did not just happen. It came about because there existed in the community a desire for something better—for more comforts, for progress and development. The present age demands even more development if Cameron is to hold its place and keep pace with the cities about us. It demands greater co-operation and concentration of effort and resource. Towns can no longer drift with the tide. They must make an aggressive fight against the current that would drag them down to the commonplace level.

Cameron has the energy, and the resource to make of herself anything she desires. Let's unite and work and plan and study for a better and a bigger Cameron.

Urge Revival of Band As Committee Pleads For Voted Funds

The committee on taxation of the city council has under advisement the request of the Chamber of Commerce committee for a municipal band.

The committee named by President C. S. Peyton on request of the club Monday night met with the council on Tuesday night.

The city some years ago voted a 10c band and park tax. When the municipal band ceased its work three years ago the tax was diverted to payment of park indebtedness.

The committee went to the council following the action of the club Monday night.

Mr. Devers, former resident here, now director of the band at Ennis, has made application for the place as director of the local band. Mr. Devers has taken three state prizes in succession with his band.

The club believes the tax should be used for the band or should not be levied against the property owners.

SCOUT TROOPS PROGRAM AT THE K. OF C. HALL

ANNIVERSARY WEEK TO BE CELEBRATED BY ALL TROOPS PUBLIC IS INVITED

During the week of February 8th to 14th 1929, the Boy Scouts of America will celebrate their 19th birthday. A basic principle in the National Character of the observance of this week. At this time, Scouts from the poorest village to the biggest city, from East to West, North to South, will be united at this time in celebrating the birthday of Scouting in America.

In emphasizing the idea of this great world brotherhood of boys, on Friday evening at 7:30 Troop one under the leadership of Joe Matula, Troop 39 under the leadership of Larry Hackabel and the Scout Executive Committee will be the guests of Troop 52 in the Knights of Columbus Hall under the leadership of Joe Lindle, S. M.; Frank J. Hanel and Pete Mikula, Assistants, a short program has been arranged for the occasion. At 8:15 P. M., these Scouts as well as Scouts all over the whole United States will stand at attention and renew their obligations to the Scout oath and law.

A solemn and touching thought that on this night 600,000 young boys together with 200,000 unselfish men, who are giving of their time to Scouting, will re-dedicate themselves to those ideals on which the Scout program is based.

On Saturday the boys will be given an opportunity for an all day camp and hike, conducted by Chas. Pollard. On Sunday afternoon at 3:30 p. m., there will be an anniversary program at the Yoe High School auditorium.

Exhibit at Lyons

The public is urgently requested to pause for a few moments at Lyons Dry Goods Store show window and observe the Scout exhibit which will be on display Friday night, Saturday and Sunday.

A few moments of time will greatly encourage these boys to greater deeds.

On Friday evening February 15 there will be a Court of Honor at the Yoe High school at which time the scouts will be awarded with badges, according to their advancement. The public is requested to attend.

MATULA CASH GROCERY IS WELL PATRONIZED

FIRST DAY OF OPERATION BEAT CREDIT STORE DAYS SAYS FELIX MATULA

The New Cash Grocery of Felix Matula and Company, was opened for business last Saturday. Despite weather conditions the business of the store was much better than on clear days under the credit system, said Mr. Matula in discussing the opening day.

"While the weather conditions Saturday were unfavorable, we are more than satisfied with the volume of business given us on opening date and the succeeding days of this cash store. We are offering some wonderful grocery prices this week again as our advertising will show."

Mr. Matula has been in business here for a number of years and his store is well known. In changing the store from the credit to the cash system he is able to eliminate credit losses and expense of bookkeeping and delivery charges. Grocery buyers will be interested in the prices offered by Mr. Matula this week.

Mack L. Harvey Weds Miss Patterson In Dallas On Tuesday

News was received in Cameron late Wednesday of the marriage in Dallas on Tuesday of Mack L. Harvey, formerly of Cameron, and Miss Patterson of Dallas. They will make their home in Dallas according to information received here. Mr. Harvey is in the insurance business in Dallas, formerly lived here and is well known.

PACKARD SHOES FOR MEN AT CHEEVES BROS. STORE

Sam Cheeves, enterprising young business man with the Cheeves Bros. Store, has an announcement of interest in this issue of The Herald. The Cheeves Bros. Store has recently stocked a large and complete line of Packard shoes for men and young men.

Some special values are offered on these shoes. All new fresh stock and for men and young men in all walks of life.

To Mark Site of Early Missions In Milam County; Ruins are Found Near Gause By Spanish Priest

Mission ruins recently said to have been discovered near Gause in Milam County linking early Texas history with the coming of the Franciscan Friars in the 17th and 18th centuries are to be marked by erecting a monument of native stone by the Yoe High School History Club under Miss Mary Lake Henderson, history teacher.

These ruins are of recent discovery. Ruins near San Gabriel have been known to explore for a number of years, with still other historic spots where missions were erected, unknown.

Cameron people read with interest a recent published report of Rev. Gabriel Tous of Waco, who made the discovery near Gause on information he brought with him from Spain some years ago.

This mission known as Our Lady of Sorrows, erected in 1771, is said to be the first of three missions erected in the territory now known as Milam

1200 POUNDS OF MILK FIRST DAY REPORTED

MILK PRODUCTS PLANT GETS AWAY TO GOOD START ON FEBRUARY FIRST

Weather conditions failed to arrest the enthusiasm of dairy farmers and the American Milk Products Company received 1200 pounds of milk on opening day.

Information discloses that in the opening day of the big plant at Marshall recently only 800 pounds of milk was received on opening day.

The opening of the plant here on last Friday was well advertised with both Cameron papers printing special editions to carry the benefits of dairy farming to the people.

With the opening of the plant the city was served with Pasteurized milk and the first batch of cheese was made Monday afternoon, a most unusual sight witnessed by a number of Cameron people.

With the coming of spring and peak season the plant managers believe that the dairymen will bring the average daily sale of milk to at least 10,000 pounds.

The price of 53c per pound for butter fat is a commanding price. It is said that the price will be a fair schedule set by this plant for time to come.

With the opening of the plant Cameron received the first definite income from dairy cows on a commercial scale and it is believed that prosperity will soon come to the farms that own cows and sell milk.

TEMPEST AND SUNSHINE BY LITTLE THEATER

VETERANS OF LOCAL STAGE UNDER JOE LINDLE OFFER SOUTHERN PLAY FEB. 11

"The Little Theatre" presents a four act Southern drama, "Tempest and Sunshine" Monday evening, February 11, 1929 in the Knights of Columbus Hall.

The play talent is under the direction of Joe Lindle who has staged a number of successful local talent plays. On account of the familiar story by Mary J. Holmes the play will draw a big crowd. The following are the characters:

Tempest, Mrs. Joe Lindle.
Sunshine, Francis Kuhn.
Joshua Middleton, Bill Richter.
Richard Wilnot, Pete Mikula.
Mammy Sue, Faty Turner.
Bobaway, Alfred Ondrej.
Hugh Stanton, Pete Kunz.
Joseph Dunn, Vince Matula.

The story, Tempest and Sunshine, has been read by countless thousands of readers and today, interest and (continued on page 6)

WESTERN UNION OPENS ATLANTIC CABLE BETWEEN NEWFOUNDLAND AND AZORES FOR COMMERCIAL TRAFFIC WEDNESDAY

Simultaneously with the announcement made today by the Cameron office of the Western Union that the newest Western Union trans-Atlantic cable between Newfoundland and the Azores has been opened for commercial traffic effective February 5, Newcomb Carlton, president of the Western Union Telegraph Company, said, "The fact that the cable traffic showed an increase of 11 per cent for 1928 as compared with 1927, and that a further increase was anticipated when the decision was reached to lay the new cable to the Azores is one of the principal reasons for this new communication link. Also, this link be-

DRILLING RESUMED ON JOHNSON TEST WELL

INTEREST CENTERS ON LEASE AND ROYALTY CONTRACTS BEING MADE

(Thorndale Champion)

Michalka and Clark, promoters of the Johnson test well being drilled on the W. T. Johnson farm, four miles north of Thorndale, will resume operations on the test today, Thursday January 24th, following several weeks of inactivity during which time they have been busy overcoming some legal technicalities of their lease holdings, however, we understand that these are in shape and the work now will be pushed to completion at an early date.

Much interest continues to center on leases and royalty, both within close range of the test and considerable distance from the well in what is considered "new territory." Leasing has spread to a distance of 6 and 7 miles from the well, bringing all the way from \$3 to \$5 an acre, depending on the direction. That confidence has not waned in the outcome of the test was demonstrated this week when W. O. Ellison sold royalty of 1-16 off of 19 acres of his mesquite pasture, about 1-2 mile of the well for \$50 an acre, which is on the basis of \$100 an acre royalty. W. T. Johnson also consummated a deal this week whereby he sold a .64 royalty on forty acres near the well for \$35 an acre. Many other deals were made during the week, however, they seemed to be of a confidential nature.

Scouts of the major operators who come and go, without making their identity or connections known, are said to be watching very closely the activities of the test which continues to run a slow steady stream of oil from around the drill stem.

The Champion is informed by reliable authority that considerable leasing is being done in the Sharp neighborhood, about ten or twelve miles northeast of the local test, preparatory to putting down a test well in the vicinity.

Jack Hearrell Given Treatment for Badly Cut Foot in Accident

Jack Hearrell of Cameron was painfully injured near Austin Monday while working with a crew of men running a high line for the Texas Power and Light Company.

An axe wielded by one of his fellow workmen missed a tree limb and cut his foot. He was taken to the Sexton hospital in Austin where he was given treatment.

Jack was having some brush cleared away for surveying instruments when the accident occurred. He is in charge of a crew of men building a high line out of Austin for the Texas Power and Light Company.

ELMO VAUGHN CONTINUES BIG CLEARANCE SALE

Elmo Vaughn Dry Goods Company in a special announcement in this issue continues the big clearance sale of goods. In this sale Mr. Vaughn has made some remarkable prices, in fact has placed merchandise in all lines of the store on sale at actual invoice cost.

"I believe in telling the truth always," said Mr. Vaughn. "When I put on a sale I mark all my goods down and stand behind my ads. I do not mark some down and some up, but believe in a real sale when I have one. We have some lines of goods that are to be closed out and we have many items left all over the store that are going at cost in this sale."

LYON HOSE AND SHOE SALE OFFERS BARGAINS

Lyon Dry Goods Company this week announces a sale on Hose and Shoes. This announcement will be received with interest by the people at large. Mr. Lyon is a live wire, able merchant and believes in advertising his goods.

Mr. Lyon came to Cameron about two years ago and began business here. He has made many friends and his store is a popular place to trade.

Would Mark Streets Club Here Urges

Cameron streets should be marked according to sentiment expressed Monday night at the meeting of the Chamber of Commerce. The matter was discussed at length, being presented by E. S. Hutcherson and W. R. Hoover. A motion was carried to appoint a committee to confer with the city council with the view of asking the council to do this important work.

The council has at various times discussed this matter and it is believed the council will be favorable to the work at this time.

E. VOGELSANG, SR. IS BURIED AT BURLINGTON

CONFEDERATE VETERAN AND TEXAS PIONEER DIES AT AGE OF 91 YEARS

Funeral services for Earnest Vogelsang, Sr., 91, aged Confederate veteran and Texas pioneer, were held Thursday afternoon, January 31, 1929, at the residence of Mrs. F. Vogelsang at Burlington. Mr. Vogelsang died at his home three miles east of Burlington at seven o'clock Wednesday morning, January 30, 1929.

Rev. R. Kalkbrenner of the Env. Lutheran church, conducted the services which were held at 2 p. m., with interment in the Burlington cemetery.

Mr. Vogelsang, Sr., was a widely known pioneer and had seen much of history in the making in Texas.

The funeral arrangements were directed by Green Brothers. The following were pallbearers: F. Ohlenbusch, John Stoebner, Fred Fricke, W. Kuhn, Arthur Challott and Erward Schuetze.

Earnest Vogelsang, Sr., was the son of J. A. and Meta Vogelsang, pioneer Texas settlers. He was born December 15, 1837 in Oldenburg, Germany, and on December 15, 1928 was 91 years of age. He came to Texas with his father's family in 1850, settling on a farm in Austin county.

He led an active life and being a man of great industry he was prosperous. In 1883 associated with his brother, Fritz Vogelsang, they purchased 5000 acres of land east of Ben Arnold and Burlington in Milam county and moved their families on this vast acreage.

Mr. Vogelsang in 1886 was married to Miss Marie Wilkens. To them 3 sons were born, two dying in infancy, the other, Fritz, Jr., living until two years ago.

As one of the gallant men of the South believing in the cause he followed the fortunes of his state and entered the Confederate army where he served with distinction and bravery. After the war he returned to his home in Washington county where he took up his duties as a citizen and along with other pioneer spirits gave to his state and community a devotion few men have shown. He served his county as county commissioner for a number of terms and also served as Justice of Peace in his district in Austin county.

The father, J. A. Vogelsang, having taken out final citizenship papers in 1855, the son Earnest, automatically became a citizen of America.

Mr. Vogelsang was a man of great hardihood and led an active life of work and supervision of his property. Until a few days before his death he was active in duties about his home.

Another name has been stricken from the ever lessening roll of pioneers, ever lessening roll of the pioneers. Earnest Vogelsang Sr., now belongs to the ages. His life is written large upon traditions of his beloved South and his state and community. Men will revere his memory for his good deeds and his example of good citizenship, his loyalty to country and to his loved ones.

He is survived by his widow, daughter-in-law, Mrs. F. Vogelsang, Jr., and four grand children, Erwin, Egon, Monroe and Irene Vogelsang.

The sympathy of the people of the community in which he lived and those of the county at large is extended to the bereaved family and friends.

Discuss Plans For Tick Eradication In Milam County

Although no definite action has been taken by the Commissioners' Court toward tick eradication work, the committee from the Chamber of Commerce, were able to report proceedings of a meeting held here Monday with a number of livestock sanitary commission men and inspectors. Plans for the work were discussed in the office of T. S. Henderson, Jr., chairman of the committee with Raymond Beard, Milam inspector in attendance.

Dr. R. F. Krenek of the federal bureau of animal industry, was present for the discussion. R. B. Dennis, with the federal bureau and in charge of work in Bell and Falls counties and T. N. Cross of Lee county, were present for the conference.

Mr. Dennis said that 95 per cent of Bell county is free and Falls county has been released.

Dr. Krenek has been in charge of work in Lavaca county and is now working in Lee and Burleson counties.

The question of tick eradication is vital at this time as shipment of dairy cattle is hindered by the infested territory, as well as movement of all other livestock.

For One Week Beginning February 7th

I WILL MAKE SPECIAL REDUCED PRICES ON REFINISHING YOUR OLD FURNITURE IN LAQUER OR VARNISH.

All work is done by the modern spray method which assures you the finest finish.

With this improved method you can have practically the same finish that you get in new furniture.

There are some thirty colors to select from. These colors shaded properly make your furniture very attractive.

Wicker furniture and breakfast suites can be refinished at a very reasonable cost.

I will be glad to call at your home and make you prices on anything that you care to figure on refinishing.

Lola White was appointed temporary guardian of the estates of Florence, Gertrude, John, Minnie, Tommy, Louise, Harry, Eula Mae, Harding, Nadine, Robert and Melvin White. J. L. White, L. W. Raley and L. J. White were appointed appraisers.

TREBLE CLEF CLUB MEETS WITH MISS SLAUGHTER

The Treble Clef Club met in regular session Monday afternoon at four o'clock at the home of Euline Slau-

ghter. A short business session was held, after which the meeting was turned over to the program committee.

Foldine Rylander gave two readings, "At the Beach" and "On the Golf Links," and Geraldine Slaughter rendered a piano solo. Impromptu numbers were songs by Inez Evans, Dora Emily Moore, and Helen Blaylock with Geraldine Slaughter accompanying.

The hostess served sandwiches, pickles, olives, fruit cake and hot chocolate. Plate favors were dainty valentines on the back of which were written the occasion, the date and the name of the hostess.

Little Inez Slaughter, young daughter of Mr. and Mrs. Lester Slaughter, favored the members with vocal selections after the service.

The club will meet next with Geraldine Slaughter on February 18.

FORTY-TWO CLUB

Mrs. John Mangum was hostess to the Forty-Two club in a special meeting last Thursday afternoon, when she used spring flowers as a pleasing note of decoration.

Four tables of players assembled for the games, including the following guests, Mesdames R. D. Brown, Geo. Graves, James Watson and John Watson, all of whom were members of the original Forty-Two Club and have resigned.

Mrs. Mangum served a salad plate and hot tea. Table favors, which were green candy jars filled with home-made candy, were successfully cut by Miss Clara Thomas, Mrs. Jim Watson, Mrs. George Graves and Mrs. R. J. Long.

Surely Not

Cohen of Cohen & Kahn, entered their office one morning recently with a very long face.

"Vot's the mattah, Reuben," asked Kahn.

"Mattah enough," wailed Cohen. "My wife she has run away mit another man in my car."

"Mein Gott, Reuben," exclaimed Kahn, "you don't mean your new car."

Lesson for February 17

PRAYER

LESSON TEXT—Matt. 6:5-13; Luke 11:9-14; 1 John 5:14, 15.

GOLDEN TEXT—If ye abide in me, and my words abide in you, ask whatsoever ye will, and it shall be done unto you.

PRIMARY TOPIC—Talking With God.

JUNIOR TOPIC—Talking With God. INTERMEDIATE AND SENIOR TOPIC—Why Should We Pray?

YOUNG PEOPLE AND ADULT TOPIC—The Christian's Prayer Life.

I. False Prayer (Matt. 6:5-7).

This consists in
1. Praying to be seen and heard of men (v. 5). Many prayers uttered in a public sanctuary are false for there is more consideration given to what the people think than to what God thinks.

2. In using vain repetitions (vv. 7, 8).

This does not mean that we should ask but once for the thing desired, for we have examples of both Christ and Paul praying three times for the same thing (Matt. 26:39-46, 11 Cor. 12:7, 8), but rather, it means the use of meaningless repetitions.

II. True Prayer (Matt. 6:6).

Since true prayer is a definite transaction of the soul with God, the communion of the human personality with the divine personality, there should be a real desire for fellowship with God, and then a going to Him in secret. God will abundantly reward those who thus seek His fellowship. We should have our closet prayers when all the world and its cares and pleasures are shut out, and we are shut in with God. We should meet with God's children and pray together.

III. The Model Prayer (Matt. 6: 9-13).

1. A right relationship (v. 9) "Our Father."

Only those who have become children of God by faith in Jesus Christ can pray aright (Gal. 3:26). One must be a child of God before he can have communion with God.

2. A right attitude (vv. 9, 10) "Hallowed be Thy name."

When one realizes that he has been delivered from the power of darkness and translated into the kingdom of His dear Son (Col. 1:13), he cannot help pouring out his soul in gratitude and praise, intensely longing for the righteous rule of Christ on earth.

3. A right spirit (vv. 11-13).

(1) That of faith, which looks to God for the supply of daily bread. We are dependent upon Him for our daily food.

(2) That of love, which results in forgiveness of others. God will not listen to the prayers of one who has an unforgiving spirit.

(3) That of holiness which moves one to pray not to be led into temptation, and longs to be delivered from the evil one.

IV. The Proper Attitude of Soul in Prayer (Luke 18:9-14).

This is illustrated in the prayer of the Pharisee in contrast with the prayer of the publican. Observe

1. The prayer of the proud Pharisee (vv. 9-12).

He took a striking attitude (v. 11). He was self-righteous and trusted in himself. He congratulated himself upon his morality. He thanked God that he was not as other men. He congratulated himself for his religious merits (v. 12). He fasted twice a week and gave tithes of all he possessed. He thus informed God that he did more than what was required, implying that God was under obligation to him.

2. The prayer of the humble publican (v. 13).

In striking contrast with the Pharisee, the publican was too ashamed of his sins to even lift his eyes to heaven. He beat upon his breast as a sign of soul anguish and cried out to God to be merciful to him, a sinner. Christ declared that the publican went away justified, rather than the Pharisee.

V. Confidence in Prayer (1 John 5: 14, 15).

1. Its basis (v. 13).

Only those who have knowledge of the reality of salvation can pray with confidence. If one has assurance that he is God's child and possesses eternal life, he will come into the presence of his Father with boldness.

2. The scope of his prayer (v. 14). "Anything according to His will."

The believer has a right to bring to God in prayer anything within the scope of the divine will.

3. The blessed issue of the believer's prayer (v. 15).

"We know that we have the petition that we desired of Him." God's children coming to Him for that which is included in His will can be assured of receiving the things needed.

False Security of the Wicked

And your covenant with death shall be disannulled, and your agreement with hell shall not stand; when the overflowing scourge shall pass through, then ye shall be trodden down by it.—Isa. 28:18.

Faith

Out of suffering comes the serious mind; out of salvation, the grateful heart; out of endurance, fortitude; out of deliverance, faith.—Modern Painters (Roskin).

MISS MARY BURNETT BECOMES BRIDE OF MR. CONN MOODY IN BEAUTIFUL HOME WEDDING HERE THURSDAY EVENING

The marriage of Miss Mary Burnett and Mr. Conn Moody was solemnized last Thursday evening at seven thirty o'clock at the home of the bride's mother, Mrs. Elizabeth Burnett, on East Thirteenth Street, with Rev. H. G. Kenney, the celebrant, using the ring ceremony.

The vows were said before an improvised altar, which was arranged under a colonaded archway between the living room and dining room. Ferns and palms were used as a background, and these were banked with wicker baskets filled with pink carnations and ferns and with pots of cyclamen. Carnations were also used to advantage in wall brackets.

The wedding party entered heralded by Mrs. Thad Epperson who sang "At Dawning," accompanied by Miss Grace Eplen at the piano. When the music changed to Lohengrin's "Wedding March," Rev. Kenney took his place at the altar. He was followed by the bride and groom who entered together. During the service, Miss Eplen played "Simple Confession" very softly and at the end as the music swelled, the contracting parties left through the front door to go immediately on a wedding trip to Waco

and Dallas.

The bride was becomingly gowned in navy blue ensemble with accessories of buff. She carried an arm bouquet of pink roses and baby's breath which she gave to her mother as she left. The groom wore a dark business suit.

Only immediate relatives and a few close friends of the contracting parties witnessed the ceremony. Out of town guests were a brother of the bride, Dr. S. H. Burnett and his wife and son of Corsicana and a sister-in-law, Mrs. B. T. Burnett, who lives near Cameron.

Mrs. Moody is a graduate of Yoe High school, and she also finished a business course at Tyler Commercial College. She was employed by the First National Bank for nine years prior to her marriage.

Mr. Moody also entered Tyler Commercial College after finishing high school, but was called home when war was declared and entered training at A. & M. College. He was also an employee of the First National Bank for ten years and it was here that the romance began. Mr. Moody is now in the automobile and oil business at Needville, where he and his bride will make their home.

Builders Class Holds Business Meeting In Monthly Session

The Builders Class of the Christian church had their regular monthly business meeting and social hour Tuesday evening with Miss Annie Wooley as hostess.

A short devotional was held first, and this was followed by the business session presided over by Mr. Raymond Beard, the president. The meeting was then turned over to Miss Wooley for the social.

Decorations were in keeping with the Valentine season as were also the games which the guests enjoyed.

The hostess served a salad plate. Guests for the evening were Mr. and Mrs. Inman and Mrs. Jefferies of Austin.

BUSINESS WOMEN TO MEET

The B. P. & W. Club will hold their regular monthly meeting Tuesday evening, February 12th at the home of Mrs. Bessie Hefley, at 7:30 o'clock.

Roll call will be answered by giving "My Favorite Hero in American History."

An interesting program has been worked out by the Year Book committee and a general good time is expected. Let all those who are in arrears in dues, come prepared to pay up. Those not having a way to attend phone Mrs. Cora Cammer for arrangements.

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by

means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to: lege, Tyler, Texas, or to

Florence Atkinson In Celebration of Her Birthday Saturday

To celebrate her birthday, Miss Florence Atkinson entertained nine of her girl friends last Saturday evening at dinner, which was followed by a party to which boys were invited, when cards and dancing were diversions.

The dining table was centered with a birthday cake iced in white and bearing pink candles in pink rosebud holders. This was surrounded by large pink tapers in crystal holders, and the rosebud theme was further carried out in shades for the tapers. The cake was cut late in the evening after the boys had arrived, and was served with marshmallow pudding which was tinted in pink. Nut cups for the dinner were also in rose design.

Those enjoying the dual hospitality were Misses Lois and Ruby Robbins, Geraldine Slaughter, Euline Slaughter, Sue Ella Tyson, Dora Emily Moore, Inez Evans, Gladys Davis and Helen Blaylock; Messrs. Kenneth Rogers, Herbert Freeman, Dean Allen, Gilbert McCollum, Oliver Newton, Robert Love, Matt Hitchcock and Thomas Graves.

YOUNG MATRON'S BRIDGE CLUB

Mrs. Stanton Dossett was hostess to three tables of players of the Young Matron's Bridge Club last Friday afternoon, using a valentine motif in decorations and appointments.

Mrs. Eber Flinn won high score award and received a brass fruit bowl and Mrs. Dan Collins, who made low score, was given a candy jar.

The hostess served a dainty dessert course. Table favors were heart shaped boxes filled with candies.

CHRISTIAN AID SOCIETY

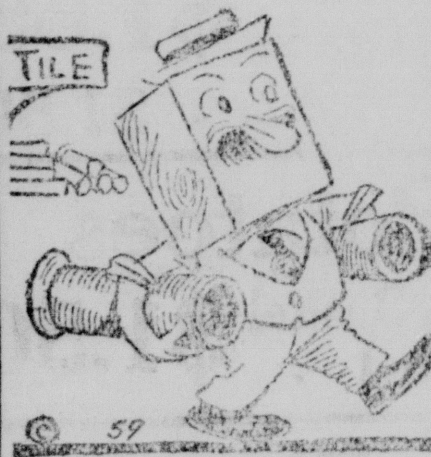

The Missionary Society of the Christian church met with Mrs. Jim Adams Monday afternoon for a missionary lesson. Mrs. Eugene Wade was leader and she was assisted by Mrs. W. M. Ryan, Mrs. Martin Kilian, Mrs. M. Berry Caldwell and Mrs. J. C. Brashear.

After the lesson Mrs. Adams served a salad course and hot tea. There were three visitors, Mrs. Jefferies of Austin, Mrs. Fowler of Kansas and Mrs. Archie.

The ladies will meet next Monday afternoon at the church.

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean Moody Bible Institute of Chicago.)
(© 1929, Western Newspaper Union.)

Lesson for February 10

REPENTANCE AND FAITH

LESSON TEXT—Acts 2:32-39; Luke 15:11-24.

GOLDEN TEXT—Repent ye, and believe in the gospel.

PRIMARY TOPIC—A Boy Who Was Sorry.

JUNIOR TOPIC—A Boy Who Was Sorry.

INTERMEDIATE AND SENIOR TOPIC—Turning From Sin to God.

YOUNG PEOPLE AND ADULT TOPIC—The Way to Forgiveness.

I. Jesus Is Lord and Christ (Acts 2:32-36).

In order to induce repentance and faith, Jesus must be presented as both Lord and Christ. The presentation of Jesus as even the unusual son of Joseph and Mary will not convict of sin. One reason for the vanishing sense of sin is the failure of ministers and Sunday School teachers to declare the Lordship and Messiahship of Jesus of Nazareth. Peter proved Jesus to be Lord and Christ by

1. The miracles which He wrought (Acts 2:22).

He performed before the very eyes of the people such mighty deeds as to demonstrate His Lordship.

2. His resurrection from the dead (Acts 2:24-32).

By His resurrection He was declared to be the Son of God with power (Rom. 1:4). His resurrection was attested to by many witnesses.

3. The outpouring of the Spirit (Acts 2:15-21).

Peter declared that the coming of the Spirit on Pentecost was the fulfillment of Joel's prophecy.

II. Repent and Believe the Gospel (Acts 2:37-39).

Peter's gospel message convicted the Jews of their sins. When they cried out, he commanded them to repent and be baptized. The evidence of their faith in Christ was manifested in their conviction of sin, and their penitence was shown in their confession of Christ in baptism.

III. The Forgiving God (Luke 15:11-24).

The center of things in this parable is not the prodigal son, nor his brother, but the "certain man who had two sons." This narrative is a most picturesque and dramatic portrayal of the history of man from his fall to his reconciliation with God.

1. The son's insubordination (v. 12).

He became tired of the restraints of home. His desire for freedom moved him wilfully to choose to leave home—to throw off the constraint of his father's rule. Sin is the desire to indulge selfish purposes, free from the restraint of rightful authority.

At the request of the son, the father "divided unto them his living." Man is a free being. God has committed unto man his own destiny.

2. The son's departure (v. 13).

Having made the fateful decision, he immediately sought the fulfillment of his cherished purpose. The son could not now endure the presence of his father, so he gathered all together and hastened away. When the sinner casts off allegiance to God, he takes all that he has with him.

3. The son's degeneration (vv. 13, 14).

He had a good time while his money lasted, but the end came quickly. From plenty in his father's house to destitution in a far country was a short journey.

4. The son's degradation (vv. 15, 16).

His money exhausted, he was driven to hire himself to a citizen to feed swine. It is ever so. Those who will not serve God are made slaves to the devil to do his bidding (Rom. 6:16). In his shame and disgrace he could not get necessary food.

5. The son's restoration (vv. 17-24).

(1) He came to himself (v. 17). Reflection made him conscious that though he had wronged his father and ruined himself, he was still his father's son.

(2) His resolution (v. 18). Memory's picture of his home, where even the hired servants had a superabundance, moved him to make a decision to leave the far country and go home.

(3) His confession (vv. 18, 19).

He acknowledged that his sin was against heaven and his father, that he had forfeited his right to be called a son, and begged to be given a place as a hired servant.

(4) His action (v. 20).

Resolution does not avail unless accompanied with action. When the confession is genuine, action will follow.

(5) His reception by his father (vv. 20-24).

So anxious was he for him that he ran to meet him and fell upon his neck and kissed him.

Why Judge Thy Brother?

Why dost thou judge thy brother? or why dost thou set at naught thy brother? for we shall all stand before the judgment seat of Christ. For it is written, As I live, saith the Lord, every knee shall bow to me, and every tongue shall confess to God.—Rom. 14:10, 11.

Pledge of God's Pardon

Sunrise, says the philosopher, is a splendid pledge to me that God pardons.—The American Magazine.

Last Roman Republic Delphian Study For Thursday Session

Members of the Delphian chapter in a special session last Thursday studied the later Roman Republic, with Mrs. John A. Smith leading the lesson and Mrs. R. L. Batte presiding over the meeting. The general theme was "They Who Live by the Sword Shall Perish by the Sword." The resume of the last lesson was given by Miss Winnie Henderson and the preparatory discussion for the subject in hand, "Social Conditions at the End of the Roman Republic," by Mrs. Smith.

The following topics were reported on:

The Rival Nations, Mrs. E. A. Flinn

The Struggle for Sicily, Mrs. Batte

Hannibal, Greatest Strategist of Antiquity, Mrs. T. A. Fisher.

The Eclipse of Greek and Phoenician Power, Miss Winnie Henderson.

Civil Wars, Mrs. Clarence Freeman.

Pompey, Miss Rischar.

The First Triumvirate, Mrs. Frank Lesovsky.

Caesar's Career, Mrs. A. C. Freeman

The End of the Republic, Mrs. Batte.

The Delphians met in regular session Tuesday afternoon with Mrs. Arthur Baskin leader. The program will appear in next week's issue of The Herald.

PRESBYTERIAN AUXILIARY

The ladies of the Presbyterian church had an all day meeting at the church Monday in order to have a review of the book, "The Desire of all Nations," which they have been studying. The meeting lasted from ten o'clock in the morning until 3:00 in the afternoon. Mrs. Judd Davis led the review and she was assisted by Mrs. Graham Gillis and Mrs. Ben Atkinson.

At noon, lunch was served by the circles. In the afternoon an interesting foreign mission program was heard. Special music was furnished by Mrs. Sutton and Mrs. Hurdle, who sang a duet, accompanied by Mrs. H. Sapp.

TRIPLE FOUR BRIDGE CLUB

Amid a setting of cupids and pink hearts, inspired by the season, Mrs. George Childress Jr., entertained members of the Triple Four Bridge Club in regular meeting Tuesday afternoon. Table covers were of pink tulle on which were pasted pink

heart-shaped valentines. A novel idea was carried out in distributing score cards, when Katherine McIntosh entered dressed as a postman and carrying a mail pouch from which she took mail for the guests, calling out their names. The mail proved to be a Valentine to be used for a tally card.

After the games, the tables were spread with dainty luncheon cloths and centered with crystal baskets filled with sweet peas, and the hostess served a salad course with hot tea.

Mrs. Claude Triggs was declared winner of high score award, which was a flower picture and Mrs. C. F. Green of the low award, an engagement book. Mrs. Childress named one chair as the "lucky chair" for the games. Mrs. Claude Bradbury was occupying this chair at the conclusion of the games and she was presented a pot plant.

Guests other than club members were Mrs. Ben Baskin and Mrs. S. Kestenbaum.

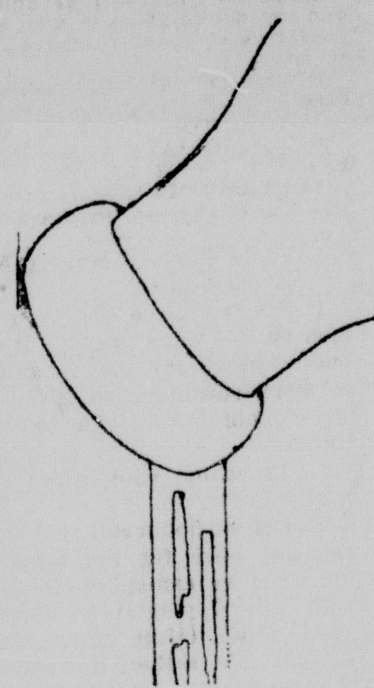

A district zone meeting of the Methodist church will be held at Rosebud next Tuesday. Pastors in the zone will meet during the morning and the ladies of the missionary societies will have an afternoon session. All visitors will be guests of the Rosebud church for lunch.

The Store You Hear So Much About

RIGHT AIR PRESSURE ADDS LIFE TO TIRE

FIRESTONE DEALER GIVES GOOD ADVICE EVERY MOTORIST SHOULD KNOW

"If motorists would only realize the importance of keeping tires inflated to the correct pressure, they would get much greater mileage and have less trouble with their tires," according to August Horstmann of the Tire Stores, Firestone dealers in Cameron.

"This is especially true of balloon tires, for when used with even four or five pounds less air than they should carry, the loss of tire life amounts to hundreds of miles. Every motorist should know the correct air pressure for his tires and can get this information from his dealer.

"We recommend having the air checked at least once a week. It is an easy matter to stop at our place and have one of the men check the air pressure and inflate the tires if air is needed. This service is free to everyone in Cameron.

"It will help in maintaining proper air pressure if the valve is always screwed down tight, the cap turned as far as it will go and a dust cap used to keep the valve in good condition."

BUCKHOLTS

Mr. and Mrs. Clyde Chapman and daughters, Nellie and Tommie Dell of Dallas visited relatives here last week.

The Buckholts Garage owners, who are Chevrolet dealers here, have received their first carload of the new Chevrolet Sixes. The proprietors are Messrs. Alfred Walschak and Louis and Joe Raska.

Mr. and Mrs. Ater of Big Springs, were visiting in the Kahler and K. Henderson homes recently.

Joe Ezzell, who works in Lometa visited home folks here Saturday and Sunday.

Mesdames Sam Mewhinney and Jim Mitcham were Temple visitors Tuesday.

Buster Holder of Cameron, visited his father, E. J. Holder, who has been very sick the past week. Mr. Holder is reported to be better at this writing.

Mesdames K. and Sam Henderson were shopping in Cameron Wednesday.

Mrs. W. H. Ezzell and daughters, left Saturday night for San Marcos to visit with Mr. and Mrs. Raymond Bryant and family.

A group of Hawaiians presented a program at the school house Saturday night which was very much enjoyed by those present.

Rev. and Mrs. Otto Schawe, returned Saturday from Iowa, where they visited Mrs. Schawe's parents.

Miss Florence Hillard spent the week end in Rosebud.
M. L. Russell left Sunday night for Lovelady.

The American Statesman's statue in Lincoln Park, Chicago, considered one of the finest sculptures of Lincoln in America.

His Greatness Was A Triumph Over Failures

LINCOLN'S life was one of failures—failures that he made stepping stones to the White House. And it was reserve force that enabled him to do the stepping. Whether called upon to endure the hardships of frontier life or to wrestle with the problems of a government in the throes of war, Lincoln always had at his command a reserve force, built up during the years of his boyhood struggles, that lifted him over seemingly unsurmountable barriers.

What about your resources? Have you a reserve force, a substantial balance, to help you meet emergencies or to grasp opportunities? If not, open an account here and keep it growing by regular deposits.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Dr. J. C. Fletcher on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

LINCOLN, THE LACONIC

There is a premium on brevity, possibly because it is rare, either in speech or in writing. Loquacity is a besetting sin; volubility afflicts a multitude; garrulity is a scourge. Consequently terseness of speech is the move favored. Then too, it is art to be able to speak or write in terse strong sentences.

Abraham Lincoln was not especially given to the epigram, but he was often laconic. He seldom wrote long letters or made long speeches. His famous letter to Mrs. Bixby contains 135 words. His Gettysburg speech is composed of ten sentences and 273 words. Both of his inaugural addresses were brief. His longest speech, the one delivered at Cooper Union, New York City, was not much over an hour, and this was exceptional.

Lincoln's letters for the most part were exceedingly short, sometimes to the point of brusqueness. Many of them consisted of only two or three sentences. To a long drawn out letter inviting him to participate in a certain lawsuit—a letter that was unnecessarily long and ortuous—Lincoln replied by indorsing the voluminous document with these words, "Count me in. A. Lincoln."

IT IS A PRETTY CUSTOM

Good old St. Valentine, who died a martyr in Rome many centuries ago, must stand as a guardian over the celebration of his day to keep it from modern defilements. Little or no attempt has been made to modernize this quaint old anniversary sacred to lovers.

For weeks stores have displayed the pretty little tokens of the type which have served as lover's gifts for generations. Even the delicate lace creations so dear to the hearts of swains and maidens of a century ago, still persist little changed in form.

Instead of being "jazzed up" to meet the spirit of our age, St. Valentine's Day has become even more refined. The ugly, sometimes malicious conceptions known as "comic valentines" have almost disappeared. Those who still recognize the day seem to cherish only the tenderer emotions.

Of course for those who would make more lavish gifts the florists and the confectioners have a variety of suggestions, but the little greeting cards still carry the message of love and perpetuate a pretty custom.

You can tell a sport model at a glance. It has nine colors instead of seven.

People do not believe all they read. Sometimes the headlines are not large enough to be convincing.

Woman inferior? Well, which sex clings to garments that must be buttoned on in 17 places every morning?

Boy Scout Week

(continued from page 1)

to of "Be Prepared" has made them on the alert for.

In our own Heart O' Texas Council, of which the Scouts of this city are a part, anniversary week is being observed in Courts of Honor, Rallies, Hikes and the observance of the 12th Scout Law, "A Scout Is Reverent."

Get together meeting of all troops on Friday night, February 8th.

All day hike under supervision of district committeeman, Chas. Pollard, Saturday, February 9th. Starting at 9:00 o'clock A. M.

A mass meeting of all interested in Scouting on Sunday, February 10, at 3:30 P. M. at the auditorium of the high school presided over by Rev. J. P. Love at which time there will be an address made by Mr. Roy Basdin and the several troops will give practical demonstration of scouting and renew their Scout Oath, which reads: "On my honor I will do my best to do my duty to God and my country and to help other people at all times. To keep myself physically strong, mentally awake and morally straight."

You are most cordially invited to attend the exercises on Sunday afternoon.

Tempest - Sunshine

(continued from page 1)

popularity remains as keen as when this delightful story was first published, years ago.

The author of this acting version has prepared a play that has met with great success on the professional stage. For this reason, this edition is issued for both professional and amateur stage in response to a constant demand for this particular play, for the benefit of those who have seen it performed and wish to re-produce a clean, moral drama of established merit. While the best professional talent has appeared in the various roles, the play is equally well adapted to the talent of amateur clubs who will find no difficulty in meeting the natural requirements of the dramatic scenes and the abundance of spontaneous comedy.

Sunshine is a beautiful character, amiable, dutiful, and all that her name implies. Tempest, the very opposite, self-willed and fiery, drawing upon herself a bitter punishment. The lesson of self-restraint may well be learned from this true-to-nature character. The lovable father, old Joshua Middleton, gruff and unpolished, but great hearted Kentuckian, filled to the brim with humorous instinct. Richard Wilmot is an excellent type of clean cut young American manhood, a fine role for a youthful leading man. It would be difficult to imagine two better characters than the superstitious darkies, Mammy Sue and the mischievous Boboway; the comedy scenes of these two provoke constant laughter. Hugh Stanton is a picture of a man, overindulged in riches, self love and jealousy, which bring upon him, well deserved defeat. In Joseph Dunn we have the vivid character of a human derelict, drawn from life; he merits our pity, as, drifting on a weak will, with the taint of hereditary intoxication in his veins, he falls an easy prey to temptation. But it would seem that the prayers of his dying mother, and the goodness of Sunshine worked remorse in his heart, and in a splendid dramatic scene in the final act, he makes full confession, thereby redeeming himself, and bringing great happiness to the Middleton family.

Oil Committee Is Named By Chamber

An oil committee to be a permanent part of the commercial club organization, was authorized by the directors in session Monday night.

The matter of naming this committee to be a part of the club organization was placed before the club by J. B. White, editor of the Cameron Herald, who stressed the importance of development now under way in this county.

The duties of this committee will be to offer the services of the committee and the club in assisting oil men in their business in this county. The committee will feel obligated to inquire into secrets of the oil men but to show to them the interest the club and the city has in their stay here and to make their sojourn in the city one of interest and pleasure.

Milam county is getting the biggest play in recent years on oil development at this time.

The club received a number of committee reports, including that of F. E. Jackson on the visit to Lott in connection with the Cameron milk plant. Also Mr. Jackson reported progress for the committee on finance for the farmers to purchase cows.

Trade Briefs

Attention is called to a display ad in this issue for John Deere implements being sold by the Milam county hardware company. The company here is making big plans for the farm equipment week beginning next week. The people are asked to look for advertising matter covering this display. The Milam County Hardware Company will have an interesting display and fine interest is being shown in the wonderful new implements to make farming better.

W. B. Levy returned Wednesday from the Dallas market where he pur-

chased goods for the store spring business. Mr. Levy reports having purchased a good stock and the people will be advised of the interesting display within a few days.

Earnest Collins and J. D. Dobbins will leave Cameron next week for the markets to purchase spring goods for the Dobbins dry goods store in Cameron. They expect to buy a big stock and the people will hear further about the new spring goods display at this big store.

Two car loads of new Essex Chalmers have been unloaded here for the Tire Store of Horstmann Brothers. The shipment includes all models and some of the most attractive closed jobs ever seen in Cameron. Included in the shipment is one Hudson coach. Practically all these cars have been sold, according to Mr. Horstmann. The New Essex with its reduced price and increased quality is one of the great sensations of the age in automobiles.

Union sets at 5c per bunch and two heads of fine lettuce for 11c features the ad of the Piggly Wiggly store in this issue of The Herald. W. T. Whatley, owner of the store purchased seventy-two thousand sets for his trade and is making a special offer of 5c per bunch as was advertised last week. The Piggly Wiggly store is proving a popular place to trade. Housewives will be interested in the offerings at this store this week.

Valentine candy at the Palace of Sweets is the offering of Walter F. Sharpe, proprietor. Mr. Sharpe has some attractive packages for the occasion.

The Cameron Furniture Company is making an interesting announcement this week in connection with the R. C. A. radio. This popular store is making some exceptional offers on this very popular radio set. The radiola has many friends in Cameron, the great programs of the country being brought to a large number of Cameron homes on this popular set. The Cameron Furniture Company not only sells but gives service on these wonderful sets.

New Cameron Drug Company is featuring some exceptionally fine Valentine candy in Norris brand, heart shaped and packed appropriately for the occasion. These boxes are on display at the store and manager Joe Denson says they will go fast as they are popularly priced.

L. F. Gohmert of the Gohmert Variety Store has returned from the markets and has a fine stock of goods on hand for the season's trade. In this issue of The Herald will be found an interesting advertisement.

Elmo Vaughn is doing a splendid business. The big Clearance Sale got under way last Saturday and the opening day, despite weather conditions was one of the most successful days in the history of the store. The big ad in The Herald last week and the circulars brought a large patronage to Mr. Vaughn and each day has been featured by brisk buying at his store. In this issue Mr. Vaughn has a follow up ad and this is an interesting statement of facts concerning the sale. Mr. Vaughn is a truth advertiser.

Farm equipment week is being featured by the Cone Implement Company display of McCormick-Deering implements. The company here is handling the International truck and the Farmall tractor and the implements now on display are the McCormick-Deering line. Cecil Cone, owner of the implement business has had wide experience in sale of implements. The display of implements in the building is one of the most attractive ever seen here. "Good equipment makes a good farmer better," is the slogan of this company. Mr. Cone has placed a number of Farmalls and International trucks.

Those Dixie Pig Sandwiches at Wayside Inn are presented in an attractive display ad in this issue of The Herald. Mr. Cammer has an exclusive product, a copyrighted ad and this sandwich is a popular seller with the trade. Wayside Inn is a popular playground for Cameron and visitors to the city.

Texas Water Utilities Company is a big factor in greater Cameron. In this issue is a large display ad congratulating the American Milk Products Company, a bit of good will advertising that is appreciated by the milk company as well as the people of the community. The water company is for every forward movement and water from its mains will be a big factor in the operation of the new plant. Cameron appreciates the water now being served the people and the policy adopted by the water company makes it a large and appreciated factor in the life of the city.

The Lyon Dry Goods Company, the store you have heard so much about, has an announcement of much interest in this issue of The Herald. A sale on Allen-A Hosiery and on shoes. The big store has an unusually big line of shoes and the prices quoted are very attractive. Mr. Lyon is a

live wire merchant and is in San Antonio this week on business. The ads of this store always speak volumes to the people and bargains are offered each week.

The people of Cameron are learning much about better milk these days. The city is receiving its first Pasteurized supply and deliveries are made each day. The American Milk Products Company has begun business under most favorable circumstances and the management of the plant is well pleased with the showing. Willard Reese, manager, C. W. Lawrence, president and R. H. McIntosh, vice-president, are all enthusiastic over the reception given the milk production program for this community. The people should know more of Pasteurized milk.

C. N. Green continues to sell Majestic radios. He has the new models in stock. Speaking of the new Majestic he said:

"The mechanical improvements on both models, the 71 and the 72, are the same. A great increase of selectivity has been provided. Improvements on the speaker permit it to handle a much larger undistorted volume, with a greatly increased range of tone. The new models cover a 75 per cent greater range of sound frequencies than those of last year."

"The exterior appearance of both sets is radically different from that of the old models, embodying the most graceful lines in radio furniture. The over-all appearance of the cabinet of the 72 is one of greater compactness, the receiver being about four inches lower than last year's model, about the same in width but not as deep. The cabinet of walnut and burl walnut, has a very high-polish finish. The doors are of diamond-matched panel-type walnut, inlaid with imported marquetry."

"The cabinet of the new 71 is of the low-body type. It is without doors and has a center panel of burl walnut on which are arranged the control and speaker."

"The interior arrangement is also entirely different from that of previous models. The speaker has been lowered from its previous position above the set to one below the set, thus making its outlines harmonious with the general lines of the new cabinets and insuring quieter operation. The tuning controls, dial, and speaker are mounted on a centered diamond-grained bordered on either side by burl walnut panels."

J. I. Case and Standard Implements for the farms of this section. That is the service that A. J. Matocha and Company is rendering. This big hardware firm has a large shipment of new implements in these lines and the farmers will be interested in the display. Mr. Matocha has been selling and giving service for these implements for a number of years. This big hardware store is one of the busy centers of Cameron these days as farmers are getting ready for the season's work.

A most interesting announcement is the big display ad of the Hubert Hefley Motor Company concerning the New Ford. For the first time in many months car buyers are able to get immediate delivery on new Ford cars. The Hubert Hefley Motor Company is one of the largest and most complete plants in central Texas and when the new building is occupied will be one of the most interesting commercial centers in the state. When the new Ford was first announced it took several months for the company to make deliveries in quantities sufficient to supply the demand. Now the assembly plants are working full blast and the new product is available on short notice. The Hubert Hefley Motor Company has a large number of cars of practically every model available for immediate delivery and according to salesmen the season is opening up big.

Texas Power and Light Company, established 16 years ago in Texas is one of the industrial romantic developments of the age. It has come to fill a place of service in the affairs of the people that no other has done because it supplies light, power and fuel for a multitude of purposes. Interested in development it has played a big part in the life of every community where its service extends. The purpose of the Texas Power and Light Company, is set out in a most interesting manner in a large display ad in this issue of The Herald by John C. Young, manager of the local branch. It has made the operation of private and municipal plants unnecessary because in line with the age it has brought greater power and greater service from central plants of generation and brought the great utility of electricity within reach of every home and industry in the great state of Texas. "Providing for the Texas of today and planning for the Texas of tomorrow" is the slogan of this mighty company. The statement of its purposes will be read with great interest by the people of this and other communities reached by The Herald.

NEW PONTIAC EXPECTED HERE BY SATURDAY

Schiller Motor Company is expecting a car load of the new Pontiac automobiles here by Saturday. The car has been in transit for about ten days but has no doubt been held up by snow storms in the north.

Considerable interest is being shown in the new Pontiac and Mr. Schiller is very anxious to receive the shipment.

JAKE ABRAMS RETURNS TO THE FAMOUS STORE HERE

Jake Abrams who has been in Mart with one of his stores for the past two years, has returned to Cameron to be with the Famous of which he is part owner.

Mr. Abrams arrived Monday. He has many warm friends here who will welcome him to the city again.

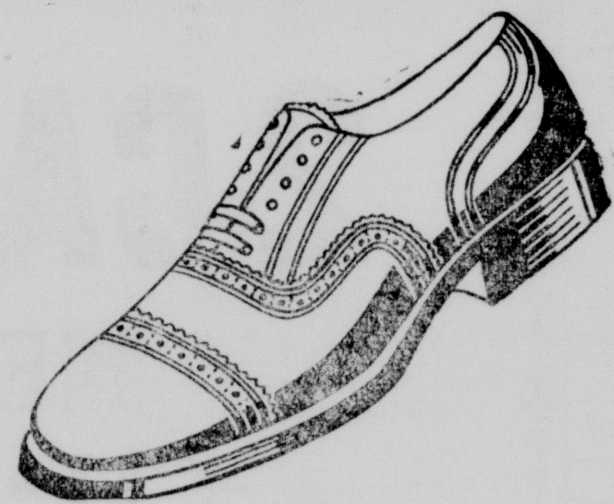

There's no mistake that she's first in your heart when you send Candy. Here is where you get fine, fresh Candies, beautifully boxed for the occasion.

Music By
THE BLINKY FOUR
ORCHESTRA

Miss Kathryn Robbins of State University spent last week end at her home in Cameron.

Mrs. Giles Avriett and son, Jack and Frances McDermott spent Tuesday in Waco.

Cyrus Miller, Frederick and Preston Graves, and Don and Guy Slocumb formed a party going to Temple Saturday night.

Mrs. W. J. Crocker of Modesto, California, will arrive Saturday to be the guest for two or three weeks of her niece, Mrs. A. C. Freeman. During her stay here she will also visit friends and relatives in Maysfield. From Cameron Mrs. Crocker will go to Cocoa, Florida, for a visit. Mrs. Crocker will be quite an addition to musical circles of Cameron as she is intensely interested in music, having taught piano for a number of years. Next year she plans to be associated with a junior college in Modesto.

Just arrived new chokers, new costume sets.

R. H. Johnson Jewelry Store.

Miss Louise Thach left Sunday morning for Fort Worth. After spending the day there she will motor to Dallas, where she will hold a position.

Miss Dorothy Blaylock, student at the Rebecca Schofield School of Expression, Austin, will give her junior recital some time this month. Among those who will assist Miss Blaylock is Miss Geraldine Slaughter of Cameron, who will play a piano solo.

Mr. and Mrs. Bill Howell of Minerva spent Tuesday with Mr. and Mrs. T. A. Howell.

Bennie Lee Herndon, who had an operation last week as a result of an injury received in a basket ball practice, is reported as recovering rapidly. For several days he was in a very serious condition.

Misses Hilda and Goldye Burke entertained last week with a farewell party for Miss Beatrice Reynolds, who has gone to Brownsville to enter a business college. Bridge and forty-two were diversions.

Mrs. Ella Hooks moved into her new home on North Fannin Street this week.

Mr. and Mrs. E. T. White, who since their arrival in Cameron have been located at the L. H. Posey home, have moved to an apartment in the A. R. Stecher home. Mr. White is pilot for the Aero Club here.

Teachers and officers of the First Baptist church had their regular monthly banquet and business meeting last Thursday evening at the church annex. Charles McGehee presided at the meeting. The banquet was served by the Junior and Intermediate Departments.

Mr. and Mrs. Conn Moody have returned from their wedding trip and are visiting Mrs. Moody's mother, Mrs. Elizabeth Burnett, before going to Needville, where they will make their home.

Mr. and Mrs. Grady Casey of Houston visited his parents, Mr. and Mrs. Ab Casey, for a few days this week. They were passing thru Cameron on their way to Tyler.

New houses on North Fannin Street are being constructed by Mr. Gibbs, who is with Horstmann Brothers, and by Mr. Belmont Cluck.

Mrs. Jefferies of Austin is the guest of her daughter, Mrs. Martin Kilian.

Watt Henderson of Waco, former resident here, was in Cameron Tuesday in company with L. T. Lewis of the Southern Union Life Insurance Company. Mr. Henderson is well known in Cameron. He is representing one of the large cotton seed firms of the state with headquarters in Waco. He shook hands with many people here Tuesday.

Rev. J. P. Love went to Navasota this week to be present at the ordination services for Rev. Hugh St. G. Murray, which were held at St. Paul's Episcopal church, Navasota.

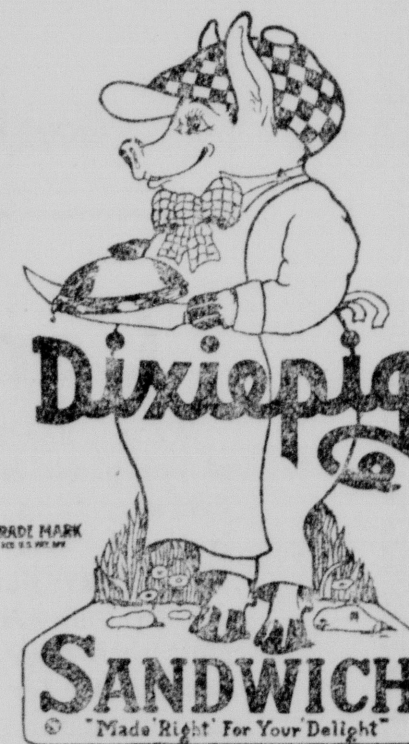

Edward Bell came home Monday from Temple where he has been under Dr. Woodson's treatment. He had an operation on his eye and is reported getting along nicely.

Misses Helen Flinn, Katherine Flinn and Edna Sprinkle went to Waco Wednesday to observe methods in the schools there. They were accompanied by Mrs. E. A. Flinn.

The Marlin District of Methodist Ministers had a joint all day meeting with the women of the zone at Rosebud Tuesday. Rev. P. T. Ramsey of the Cameron church preached the sermon at the eleven o'clock hour. Those from Cameron attending the meeting were Rev. and Mrs. Ramsey, Mrs. R. H. Davis, Mrs. Fred Cable, Mrs. W. O. Triggs, Mrs. R. B. Rylander and Mrs. Joe Mohler.

Frank Mohler of A. & M. College spent last week end in Cameron with his parents, Mr. and Mrs. Joe Mohler.

Mrs. John A. Green, who has been a patient in the Cameron Hospital for several days, is reported much improved.

Miss Helen Green, who is doing work towards a Master's Degree at State University, spent several days at home last week with her parents, Mr. and Mrs. C. N. Green.

Miss Lula Hutcherson, teacher in the Rockdale schools, visited her brother, Rev. E. S. Hutcherson, Sunday.

Dr. John Denson spoke to the congregation at the Baptist church Sunday morning, making an appeal for financial aid to rebuild Luther Hall, Baylor College, which was recently destroyed by fire. Dr. Denson is a member of the Board of Trustees at Baylor College and he attended a meeting of the board last week, at which time a program was outlined for a new building.

Don Slocumb, student at A. & M. College visited his parents last week end.

Miss Elmer Evers of Mexia spent last week end in Cameron, the guests of Mrs. Charlie Nabours.

Mr. and Mrs. J. H. DuBois went to Temple Monday morning to be at the bedside of Mr. DuBois' nephew, who underwent an operation for appendicitis at Scott and White Hospital.

R. H. Davis returned from Brenham Sunday where he has been developing an oil lease.

Miss Beatrice Reynolds left Thursday for Brownsville, where she will enter a business college.

Mrs. B. E. McMillan received a message Friday stating that her sister Mrs. Harry C. May, was seriously ill in a hospital in Memphis, Tennessee. Mrs. McMillan and Mrs. S. M. Burns, Sr., left Saturday for Memphis. Mrs. May, before her marriage, was Miss Irene Kemp. She lived in Cameron and was employed by the Klawansky Dry Goods Store. Her friends here will regret to hear of her illness.

Mrs. George McGehee went to Waco Monday to be with her sister, Mrs. Willie Kemp, who is ill.

Miss Natalie Kemp returned to her home in Waco Monday after having been the guest for several days of her sister, Mrs. B. E. McMillan.

Billy Newton, student of the College of Medicine, University of Texas, spent the between-term holidays in Cameron last week with his parents, Dr. and Mrs. W. R. Newton.

Mrs. W. A. Copus left Monday for Dallas where she will purchase new stock for her gift shop.

Dr. R. A. Scranton of Waco filled the pulpit at the Baptist church last Sunday evening. Dr. Scranton is at present devoting his time to the Baptist Sanitarium at Waco.

Miss Mamie Clyde Weaver of Dallas is the guest of her aunt, Mrs. D. H. Slaughter.

Miss Gwendolyn Neas, who has been the pleasant guest of her cousin, Mrs. D. H. Slaughter, returned to her home in Italy, Texas, Sunday.

Members of the choir of the First Baptist church enjoyed a social Wednesday evening after their regular practice, given in honor of Mr. L. C. Gayle, recently elected choir director. Several indoor games, under the supervision of the social committee, furnished diversion and refreshments of hot chocolate and sandwiches were served.

NEW WALL PAPER AND PAINT ROOM FOR NEW CAMERON DRUG COMPANY

An improvement of interest in Cameron this week is the new wall paper and paint room of the New Cameron Drug Company being completed by J. A. Walston. This room will be spacious and well fitted for the display of wall paper and paints.

When completed Joe Denson, manager of the store, will have on display the largest and most varied line of wall paper and paints ever shown by the store. The room is so arranged as to afford the greatest possible advantage in displays. The store plans to carry a larger stock of wall paper and paint.

GEORGE BRISBANE, JR.

George Brisbane Jr., age 2 months, died at seven-thirty o'clock in the evening last Saturday, February 2. Funeral services were held Sunday afternoon at three o'clock with interment in Little Rover Cemetery.

He is survived by his parents, Mr. and Mrs. George Brisbane Sr., and one brother.

Country Club Scene Of Bridge Party

Bridge and Forty-Two were diversions at the Country Club last Friday evening when Mesdames James Watson, John Mangum, S. A. Cottle and Fritz Fabrendorf were hostesses for a Valentine party. Although the night was bitter outside, the club house was comfortable with a bright fire burning in the huge fireplace.

Decorations were in the shape of Valentines which were used in abundance about the rooms. Score cards also followed this motif. Candies were served throughout the games, and at the conclusion the hostesses passed home made cookies and ice cream.

In the bridge games J. M. Ralston won high score and Oxsheer Smith,

low for the men and Mrs. Doss of Dallas was high for the ladies and Mrs. Wm. Cobb low. Among the Forty-two players Mrs. Ben Atkinson won high for the ladies and Mrs. Wiley Mangum low, while for the men Wiley Mangum was high and Dan Tyson low.

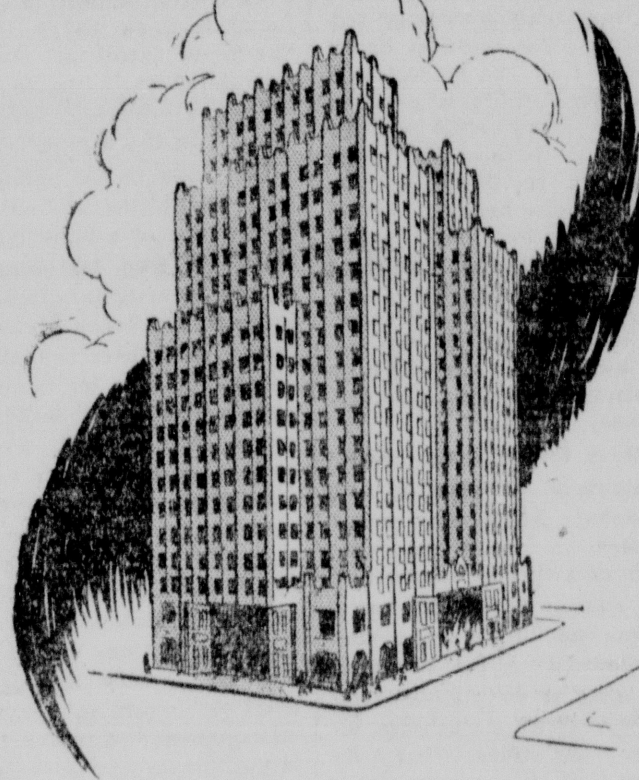

FATHER APEL ATTENDS HEINZLEMAN FUNERAL IN WESTPHALIA FRIDAY

Rev. Geo. Apel, pastor of St. Monica's church in Cameron, was in Westphalia last Friday to attend the funeral of Father Heinzlemann who died on Thursday in Waco. Father Apel with the other priests of the Diocese assisted Bishop Byrne of Galveston in conducting the funeral service.

Father Heinzlemann was one of the great leaders of the church in this diocese and was widely known over the state and nation as a scholar and leader. He died in Waco while in the Catholic hospital there for treatment.

The Westphalia church is one of the largest and most prosperous churches in the diocese. Considerable interest will be shown in the selection of a leader to fill the place left by the death of Father Heinzlemann.

Our Wide Open Policy and What it Means To You - And All of U.S.

Our Policy of Co-operation

THE splendid progress of the Missouri Pacific Lines in the last five years has been achieved very largely as a result of: First, the aggressive loyalty and endless, tireless effort on the part of our army of employees; Second, the co-operation and support of the public generally and the shipping and traveling public especially; and Third, (made possible because of the former two things) the investment of many millions of dollars of new capital.

The new capital was obtained because of the increasing volume of traffic which justified it. And the increasing traffic is directly traceable to the work of our employees, adequate service and the confidence of the public. Both of these are, in large measure, a result of the "Wide Open Policy" that has been zealously maintained.

There can be nothing secret about the management or operation of railroads because of the regulation and supervision to which they are subjected by numerous governmental and official bodies such as the Interstate Commerce Commission, State Railroad Commissions and similar institutions. But we have not been content to merely say "the information is there and is available if the public wants it."

Ceaseless effort has been made to inform both our thousands of employees and the public. Every phase of the railroad business has been analyzed and broadcast. Our own forces are constantly combing our property for general, specific and miscellaneous information that will or might interest our own family members or our patrons and friends. Such information is carefully collected, intelligently analyzed and prepared in easily understandable form, and distributed voluntarily in every possible way.

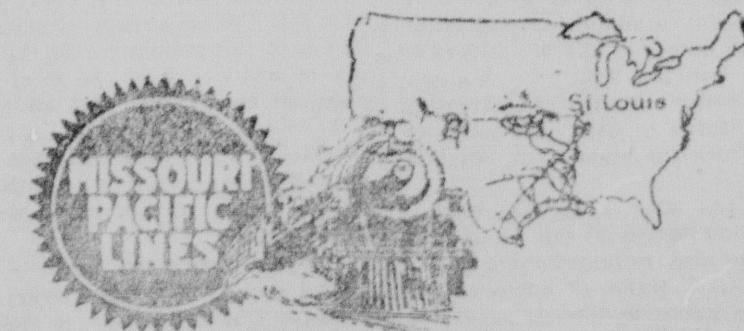

As a result of this policy our own employees are as well informed as any in the world and the public generally knows more about the Missouri Pacific Lines than is known of most such similar institutions. Confidence, co-operation and support have resulted—and those three reactions on the part of our patrons and our own family members have made possible the development of the Missouri Pacific Lines into one of the outstanding railroads of the world.

The Missouri Pacific has welcomed and encouraged the public to come to some of us with any and all questions relating to transportation. If the individual Missouri Pacific man or woman approached doesn't know the answer to your question he will get in touch with or put you in touch with someone in our organization that does know it.

We are most happy in the knowledge of the achievements already accomplished and it is a real pleasure to bestow the credit for the advancement where that credit belongs. We have by no means reached the limit of our development. We expect to continue leading the Parade of Progress.

I solicit your co-operation and support.

M. B. Williams
President

By S. J. HIGH

President State Bank Division, American Bankers Association

RAPID interchange of business and the quick transportation of goods in the United States, coupled with almost instantaneous means of inter-communication by telegraph, telephone and wireless, have welded the country into an economic unit. The nation is not, in a business sense, conducting its affairs in water-tight compartments, as in a measure it did in the days of slow travel and remote places, but styles, methods, commodities and business practices flow freely today in all directions. Therefore it is desirable that finance, trade and industry throughout the country operate along generally uniform or at least consistent lines, so that a contract or an agreement or obligation in connection with business transactions shall mean virtually the same thing in all parts of the country. Particularly necessary in this connection is the establishment of uniform financial and banking practices so as to facilitate the flow of trade along accepted and understood lines.

S. J. HIGH

Banking in the United States is recognized as a semi-public type of business and is therefore subject to laws to define the scope and character of its activities. These laws at present set up a great diversity of conditions

under which banking is conducted in various parts of the country since they come from both state and federal authorities. The national banks are all chartered by the federal government and therefore operate on the same lines in every state of the Union, but there is no such regularity in respect to the conditions under which the state banks chartered by the respective forty-eight states must conduct their business. All state banking codes, while they have similarities, also have many great dissimilarities in respect both to the national bank laws and the banking laws covering state bank operations in other jurisdictions.

Bankers Move for Uniform Laws

The State Bank Division of the American Bankers Association, which latter includes in its membership banks of all descriptions throughout the country subject to all the variations of state and federal banking laws, is committed to the effort to bring about greater consistency and uniformity among the statutes of all these various jurisdictions. This body is conducting a vigorous nation-wide campaign urging that active steps be taken to secure greater co-ordination in banking legislation, more equitable conditions and more uniformly efficient public supervision of banks in the several states.

The organization is particularly concerned with fostering this movement to bring about more uniformly desirable conditions throughout the United States in respect to the public supervision of banking institutions by the state banking departments. It is on record as favoring the policy that the important office of state bank commissioner should be kept as free from entangling partisan politics as the judiciary itself and should be completely detached from all other functions of state government.

It is also on record as favoring the policy that the tenure of office of state bank commissioners should be made more secure and lasting than is now the case in many state jurisdictions and that this important public officer be granted sufficient compensation and discretionary power so that the office shall attract and retain the services of men of outstanding executive ability and successful banking experience.

It is also a part of this policy that the bank commissioner's ability to serve well should be strengthened by providing him with adequate forces of bank examiners, selected on the basis of merit from men having the requisite qualifications of honesty, ability, training and banking knowledge to carry out the duties of their offices on the highest plane of usefulness to the public as well as to banking.

The Trend of State Laws

The Association's State Bank Division has recently concluded a nationwide survey of state banking legislation and conditions and in general has discovered a definite trend along the following lines:

There is a distinct tendency among the states to raise the minimum capital required for banking institutions to \$25,000 and also to give the bank commissioners or the banking boards sole power as to the granting of charters for new banks, thus enabling them to use discretion as to the need or desirability of added banking facilities or the fitness of the organizers to enter the banking field. In this connection many states are creating banking boards to act in an advisory capacity with the state bank commissioners.

There has also been observed a tendency to increase the compensation of the bank commissioners and to strengthen their terms of office and to give them power to appoint necessary deputies and examiners so as to build up an adequate force to carry out their responsibilities and duties. An important augmentation of the powers of

bank commissioners in some states is found in laws giving them complete charge of insolvent banks and their liquidation as distinguished from more costly liquidation through the courts.

In the Public Interest

Distinctly in the public interest are laws prohibiting or limiting an officer or director of a bank from borrowing from his own bank unless his collateral security is approved by a majority of the board of directors of the bank. Also there is recent legislation noted providing for closer supervision and regulation of building and loan associations, credit unions, finance companies and private banks.

In some states measures have been enacted broadening the field for investment of funds of savings banks and trust companies, which have materially enhanced the service that these institutions can render, particularly in the way of co-operation with their customers in personal financial management. Another type of legislation, important especially to banking in view of the frequent efforts to defraud banks, is that which makes the issuance of worthless checks a misdemeanor with specific penalties.

The State Bank Division of the American Bankers Association endorses in the fullest degree in principle the development of banking laws along the foregoing lines and is actively engaged in fostering the spread of such legislation wherever its services are considered useful both to banking and to the public. Uniformly sound banking institutions and practices, together with common methods and understanding, will materially add to the convenience, efficiency and safety of business in serving the well-being of the public in all parts of the nation, especially in those transactions involving dealings between different localities.

AMERICA LEADS THE WORLD IN SAVINGS

The past year saw the greatest gains in savings in a single twelve-month ever recorded in the United States, bringing the total savings deposits in banks to over \$28,400,000,000 on June 30, 1928, held in more than 53,000,000 individual accounts. It is reported by the American Bankers Association. These are the biggest figures in this field shown by any country in the world.

These figures are indicative of prosperity more general than any time since the business depression of 1920, the report declares. Only three states failed to show a gain and the 1928 volume of savings constituted an increase of more than \$2,327,000,000 above the 1927 figure. The gain per inhabitant for 1928 over 1927 was \$17 and the gain in number of savings depositors was 2,496,479, an increase of 5.2% as against a growth in the population of the country of 1.2%.

The gain in savings per inhabitant in New England and the Middle Atlantic states over the previous year was \$26. These groups of states, with 29.9% of the population of the United States and 52.8% of the total savings deposits, have the largest savings rate, \$461 per inhabitant, of any area in the world. The per capita savings for the United States as a whole this year stands at \$237 as compared with \$220 last year.

"An acre of alfalfa for every cow in Howard County, Iowa," is the slogan adopted by the county bankers association there after watching several hundred thousand dollars go out of their county last winter for feed.

William Earl Moseley Celebrates Birthday

William Earl Moseley, five year old son of Mr. and Mrs. Earl Moseley invited a number of his friends to help him celebrate his birthday last Wednesday afternoon. A number of out-of-doors games were enjoyed, after which the little guests matched partners to fish at a fishing pond. Different kinds of animals cut out of colored construction paper were passed, and the boys and girls matched animals to find their partners. On these animals was written the name of the host, the occasion and the date. At the fishing pond, each girl drew a doll dressed in fluffy crepe paper streamers and the boys drew marbles in tarlatan bags to match the dresses of the dolls.

After the games the children were invited into the dining room, where a white cake with pink candles rested on the center of the table. Ice cream cones were served with the cake which was cut by the guests, the emblems being distributed as follows: Hazel Ruth Edwards, the heart and the horse; John C. Young Jr., the wish bone; Winona Moseley, the ring; Billie Gaston, the thimble; Billie Weems, the anchor; Joe Casey Jr., the dime; and Joe Bill White, the button. Mrs. Moseley was assisted by Mrs. Lindie, Mrs. J. B. White and Miss Beatrice Reynolds.

Pictures were taken of the group while they were playing their games out-of-doors. William Earl received many nice gifts from his friends.

E. S. HUTCHERSON SPEAKS IN FRANKLIN FOR THE BUDGET PLAN THERE

E. S. Hutcherson, pastor of the Cameron Baptist church spoke at the convention of Robertson county Baptist at Franklin Tuesday under request from the state board. He spoke on the budget plan for financing churches. The plan is to get the churches to adopt and follow the budget plan of church financing.

Mr. Hutcherson has made a success of the budget plan in the Cameron church. He is to make a number of addresses for the state board. His services have been sought for months of January and February. He spoke in Calvert last Thursday night and will go to Navasota next Tuesday for an address to the Baptist there.

Mr. Hutcherson is recognized as one of the most successful financiers in church management in the state and his services have been sought in many parts of Texas.

MAYSFIELD

Rev. J. L. Red preached at the Maysfield Methodist church Sunday morning and evening.

Mrs. Yates and little daughter, Rose Mary, of Branchville, attended services at the Methodist church in Maysfield Sunday morning.

Mrs. Hubert Atkinson made a business trip to Calvert Monday.

Mrs. R. L. Nicholson and daughter, Ruby, after attending the morning services enjoyed dinner and a very pleasant afternoon in the home of Mr. and Mrs. H. L. Yeager, Sunday.

Mrs. Laura Butler, who is one of the Presbyterian Sunday School's most faithful teachers, failed to be in her place Sunday morning. Her many friends, as well as class of little ones are sorry to hear she is confined to her bed and hope she will soon be back in their midst.

Mrs. W. M. Waits and daughters, Velma and Evelyn and Miss Mary Emma Thweatt visited relatives in Calvert Sunday.

Mrs. R. B. Brady and daughter, Gladys of Cameron, visited Mrs. J. Thweatt Sunday.

Mr. and Mrs. Webb Todd of Glencoe, Ill., are visiting her father, C. L. Butts of Maysfield.

Little Misses Artie Mae and Alma Red are up after an attack of the flu.

Mr. and Mrs. Clarence Freeman visited in the home of his brother, Mr. and Mrs. Wm. Freeman Sunday afternoon.

Hubert Atkinson and Rev. R. L. Nicholson made a business trip to Cameron Tuesday morning.

MISSIONARY SOCIETY

Members of the Missionary Society of the Methodist church met at the church Monday afternoon for a business session with Mrs. R. H. Davis, the president, in the chair.

The following officers were installed: President, Mrs. R. H. Davis, re-elected; vice-president, Mrs. Howard Baskin, corresponding secretary, Mrs. Julian Baskin; recording secretary, Mrs. W. P. McCall; treasurer, Mrs. Leland Green; local treasurer, Mrs. J. S. Bragg; superintendent of publicity, Miss Mollie Moore; superintendent of social service, Mrs. R. L. Batte; missionary voice agent, Mrs. R. B. Rylander.

The following committees were named: Membership, Mrs. R. L. Batte,

chairman, Mrs. John Olson and Mrs. W. O. Triggs; Hospital, Mrs. C. N. Green, chairman, Mrs. R. B. Rylander and Mrs. Fred Cable; Committee for Visiting Sick, Mrs. Leland Green chairman, Mrs. Frank Monroe and Miss Mollie Moore; Parsonage, Mrs. Jeff Kemp, chairman, Mrs. Tom Denson, Mrs. W. A. Bonds, and Mrs. Arthur Baskin, Sr.; Shut-ins, Mrs. Sam McDermott, chairman, Mrs. W. I. Clark and Mrs. R. B. Rylander; Finance, Mrs. Leland Green, chairman, Mrs. Julian Baskin, Mrs. August Horstmann, Mrs. S. W. Cheeves and Mrs. Howard Baskin.

The Federation of Missionary Societies will meet at the Methodist church on February 15 to observe the World's Day of Prayer. All members are urged to be present.

METHODIST CHURCH

Whether we have fair weather or foul next Sunday, we want every body at Sunday school and church. The Sunday school will meet at 9:45 and the hours for church are 11:00 and 7:00.

At the morning hour the pastor will do the preaching.

At seven in the evening our new Presiding Elder, Rev. L. H. Mathison will preach. He will hold the Quarterly Conference at the close of the sermon.

The Presiding Elder has been bragging on our fine congregational singing and our choir. We cannot afford to disappoint him this time.

All of the Leagues showed an increase last Sunday. We are getting back to normal again. Let's grow beyond normal.

The juniors come at 2:30 and the Hi's and the Senior League at 6:00.

BAPTIST W. M. S.

Members of the W. M. S. of the Baptist church voted to send a linen shower to the Baylor College girls who lost their things in the recent fire at the institution when Luther Hall burned, at their regular meeting at the church Monday afternoon. Miss Clara Thomas, the president, was in charge of the meeting. After a short devotional meeting, reports were heard from the standing committees. The president announced that a week of prayer would be observed beginning March 4.

There were six present from circle 1, 11 from circle 2 and 6 from circle 3.

The W. M. S. will meet in circles next Monday for Bible study. Circle one will meet with Mrs. Wilson Gunn;

Circle two with Mrs. W. A. Beal and Circle three with Mrs. Wm. Fanning.

T. N. T. CLUB

After a short business session, members of the T. N. T. Club enjoyed a program at their regular meeting Monday evening at the high school. Misses Dora Emily Moore, Helen Blaylock and Inez Evans sang several popular songs with Miss Geraldine Slaughter accompanying, Joe Rowland and Scarborough Mayfield entertained with piano and saxophone duets and

Clarence Posey and Charles Schaefer gave vocal selections.

T. A. Fisher and J. A. Sevier, guests of the club, made short, interesting talks.

From Poetry to Prose

"I notice you always end your novels with the marriage," remarked a friend.

"Yes," returned the novelist, "there is nothing romantic about the subsequent hunt for a flat, a cook and a job lot of furniture."

NOTICE

"Little Theatre" Presents a Four Act Southern
Comedy Drama Entitled

"TEMPEST and SUNSHINE"

Monday Evening, Feb. 11, 1929

This play is presented by special arrangement with
Samuel French of New York

Auspices Knights of Columbus

BE THERE—YOU WON'T REGRET IT

NATIONAL FARM EQUIPMENT WEEK FEBRUARY, 18, 19, 20, 21, 22, & 23 Visit Our Special Farm Equipment Exhibit.

"Good equipment makes a good farmer better"

Come Be Our Guest

We're going to hold open house at our place during the week of February 18 to 23 in celebration of National Farm Equipment Week. We will have our newest models on display, and will stand ready to explain their points of superiority, so you can see for yourself the many improvements that have been made.

It is our sincere wish that you come in any day, or every day, and

enjoy the entertaining party which we have arranged. You'll meet your friends, hear helpful suggestions, see the newest, most efficient equipment and have a mighty good time.

If you drive in, stop and pick up a few of your neighbors—the more the merrier—and help us to have a store full. We know they'll thank you when they see what a whale of a party we're putting on.

P. S.—Why not look over the old tools before you leave home and decide which ones should be replaced with the dandy 1929 model McCormick-Deering machines we have on display?

OPTOMETRIST LEADER BACKS CHIROPRACTORS IN FIGHT IN ASSEMBLY FOR THEIR RIGHTS

Chiropractors should have a state board of their own appointed by the governor, in the opinion of Dr. W. W. Chamberlain a prominent optometrist of Houston and a man who took a leading part in the passage of the Texas Optometry measure.

Dr. Chamberlain who is sojourning in San Antonio for a few days has written the following letter to the Evening News:

"I noticed an article in the Evening News last Friday that interests me very much as a citizen of Texas and one who thinks well of his state and its welfare. This article has reference to a bill known as the Basic Science Bill which will probably be introduced at the present session of the Texas legislature. I have known for some time that this measure would probably be introduced and I have been watching and waiting for some publicity on the subject. I had also surmised that the usual chiropractic bill would also be introduced. I have the very highest regard for the medical profession or at least that portion of the medical profession whose lives are truly devoted to the rendering of aid and assistance to suffering humanity. Many of them I number among my best friends and anything I may say in this article does not apply to them. In my experience in legislative matters extending over a period of many years I have usually found that this class of the profession are busily engaged in the practice of their profession and have neither the time nor the inclination to foster or take any interest in the average medical bill that is placed before legislatures.

It is a well known fact that the American Medical Association has been frequently spoken of as one of the greatest trusts in American and it is also equally as well known to many of us that should their desires continue unhampered without something being done to curb them it will not be many years before you will have to go to them and get a prescription before you drink your glass of water in the morning. They fought first the dentists to prevent them from having a bill that would protect the public. They have fought the homeopathic and every other form of medicine except allopathy. They fought the osteopath they fought optometry to a finish in every state in the Union including the District of Columbia.

At the present time, I am thankful to say that all of the above different professions have finally succeeded in securing bills thoroughly protecting the public.

The Chiropractic and the Christian Scientist, every time they practice the healing art, are violating the present medical practice act.

It is my opinion that this so-called science bill is being introduced to tighten the lines cutting out any loop holes that may now be open whereby those offending the medical practice act may be duly handcuffed, tied and bound in such a way that they will not be able to offend the wonderful medical practice act in so far as it applies to the Chiropractic and to the large clientele in the state of Texas who have learned to know by practical experience what relief they offer.

Now, as to the chiropractic bill. After having given it a study for a great many years, I have come to the conclusion that without doubt the chiropractic is here to stay, and such being the case, if he is going to be allowed to practice on humanity, relieving pain and ministering to distress, he should be regulated by legislative enactment.

The chiropractic should have a board of their own, and said board should be appointed by the governor, the same as the other professional boards are appointed at the present time. We have a great many chiropractors in the State of Texas who are performing a great service for the public in general, and are assisting suffering humanity in a great many instances where medicine, surgery and medical science are unable and have not been able to do for those patients that which should be done in order to secure relief. There are many instances of cases pronounced absolutely incurable and without any future hope of being free from pain and sickness that have been restored to health and strength as the result of chiropractic practice, and there are many people in this great commonwealth who are strong, hale and hearty who would now be in their graves were it not for this healing art. An absolute safe and sane chiropractic bill should be passed at this term of the legislature.

My entire interest in this matter is without any selfish motive. I have never in any way been paid one single cent by any chiropractic, by any member of the association, nor by anyone who has represented them in any way.

To the best of my knowledge, I have not discussed the chiropractic measure in any of its phases with any chiropractic in the State of Texas, nor with any optometrist, and this statement of facts is coming from me as an individual.

I am not interested at this session of the legislature, do not expect to go to Austin, do not expect to say a single word to any member of the legislature influencing their vote on either one of the above measures, and I am only interested as a public-spirited citizen desiring to do in my own way

that which I may be able to do that may be of real benefit to my friends, my neighbors and the entire citizenship of this great state which I have learned to love. I have been interested and have assisted in optometric legislation for a great many years, that being my chosen profession, and as long as I was handling legislation in behalf of the optometrists of Texas I have religiously and faithfully kept my hands off of the fight between the medical association and the chiropractic. I have voluntarily resigned my position, which was without pay, of legislative chairman of the Texas State Optometric Association, and therefore, I am now a free lance with an unbridled tongue to say and do anything that I may desire, as long as it is for the betterment of the people of Texas, whom I have learned to revere, honor and respect, and I can add that I am a Texan by adoption and I am proud of it.

Many parent-teacher associations, federated club women who are interested in public welfare and children's welfare and maternity have been hoodwinked many times into fostering, aiding and abetting the Texas State Medical Association in their exploitation of the people and the children in the schools in the State of Texas, and I hope that many of these good women may study carefully before they approve of many measures that are being brought before them after having been cooked up and well prepared as a morsel of bait by the attorneys in Washington, hired and paid by the American Medical Association.

I am still practicing optometry in Houston, where I have been for many years, and where I expect to continue for many years to come, in spite of the fact that 99 per cent of the physicians at home, be they competent or incompetent, do not recommend their patients to me, but often-times prefer to send them to an ophthalmologist who has never taken a course in refraction but who may be ever so competent in the handling of diseases of the eye, and practicing surgery on the eye.

DISTRICT COURT NEWS

Mrs. J. C. Arnold vs. Will Clayton et al., debt and foreclosure, dismissed without prejudice to the rights of any party to the suit.

Estate of Mary Stegall, deceased, on appeal from the probate court of Milam county, dismissed at the cost of contestants.

Nathan S. Potter vs. J. Tom Robertson et al., trespass to try title and damages. Dismissed without prejudice as to defendant, Pierce, and judgment for intervenor E. A. Camp for the land in controversy as to all other parties.

Two cases against John Stork, one for alleged unlawful manufacturing and one for possession for the purpose of sale of intoxicating liquor, were continued Wednesday by the defendant on his second application, because of sickness of defendant and also of a very material witness for the de-

fendant, as set for in written application.

Rev. and Mrs. F. T. Ramsey had as their guests last week end, their children, Mr. and Mrs. John Sealey Caldwell of Bryan, Newell Ramsey, student at A. & M. College and Miss Catherine Ramsey, student at Southern Methodist University.

STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting.

You are hereby commanded to summon Jim Terry by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam county, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March, 1929 then and there to answer the First Amended Original petition filed in said court on the 30th day of January 1929, in a suit, numbered on the docket of said court No. 10,133, wherein A. H. Baskin, A. J. Lewis, and W. A. Morrison are plaintiffs and Ford Terry, Charlie Terry, Marshall Terry, John Terry, L. L. Terry, Homer Terry, Cage Terry, Claude Gray, Joe Gray, Essie Gray, Daisie Gray, Sam Bailey, Jessie Bailey, and Jim Terry and First National Bank of Cameron are defendants.

Said petition alleging: That this suit is for partition and that plaintiffs are the joint owners with the defendants in certain 3 tracts of land containing 200 acres in the aggregate, situated in Milam county, Texas, about 7 miles East of Cameron, at Belmena School House, out of the J. K. Tyler League as said 3 tracts of land are fully described in the judgment of the District Court of Milam county, Texas, in cause No. 7202, dated May 26, 1916, and of record in the Civil Minutes of said Court in Vol. H, page 410 et seq., and also described in defendants' answer herein and to which descriptions reference is here made.

Plaintiffs charge that W. A. Morrison owns 40.9 acres plaintiff A. J. Lewis 13.63 acres and the plaintiff A. H. Baskin 18.18 acres and that the defendants John Terry, Cage Terry, Lu-

ther Terry, Charlie Terry, and Marshall Terry each own 9.09 acres and defendants Claude Gray and his three children, Essie Gray, Daisie Gray and Joe Gray, own jointly 9.09 acres, and that the defendants Ford Terry, Homer Terry, Jessie Terry Bailey and Jim Terry each own 18.18 acres and that said parties, plaintiffs and defendants own all of said 200 acres of land in the amounts and proportions stated above, and that said land is incapable of partition and should be sold for partition, and that the defendants have

converted all of the rents to their own use, and that plaintiffs pray for a lien on said defendants' interest to secure plaintiffs' portions of said rents, and that defendant First National Bank of Cameron claims a lien on the portion of said land belonging to defendant Jim Terry, and that it be required to set up such interest in this suit or be declared to have none.

Plaintiffs pray for a partition of said land, for rents, for an accounting and for the appointment of a receiver, for the sale of said land for partition

and for general relief.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of January A. D. 1929. 41-4tc Dist. Court, Milam Co., Texas Penn Wolf, Clerk,

Essex Motor Has 24 per cent More Power

ESSEX PRECISION STANDARDS SURPASS EUROPEAN BEST

"There used to be a time," says S. G. Bates, chief engineer of the Hudson Motor Car Company, "when folks ascribed a certain mechanical superiority to high-priced cars of European manufacture and justified the opinion by referring to old-world precision standards that were more exacting than the standards in use in American automobile plants."

"The fact is that we, of Hudson, observe rather unusual precision standards, which are perhaps best exemplified by citing the standards which we observe in building the Essex. The paper on which the average newspaper is printed is about 5-1000 inch thick. Thinnest tissue paper, such as the finest cigarette paper, measures about 1-1000 inch in thickness. Now with the Essex we have 139 operations in which the absolutely insisted upon accuracy is just half of 1-1000 inch. And there are quite a number of operations, such, for instance, as per-

tain to the crankshaft, where the accuracy must be as great as a quarter of 1-1000 inch. Another 500 operations call for a tolerance of 1-1000 inch, 610 demand no more than 2-1000 inch, and so on, the coarsest tolerance, limited to only 195 operations, being 5-1000 inch.

"To many persons such close standards, equaling and in not a few instances surpassing best high-price car standards in vogue in Europe, may seem unusual when applied to the lower-priced Essex. But it is also true that our quantity production is the one thing that makes adherence to so rigid an accuracy code possible.

ST. RITA'S CIRCLE

St. Rita's circle sponsored a charity game party given at the K. C. Hall Tuesday evening. Strings of colored lights and cedar festoons gave a gala atmosphere to the occasion, tables being placed for both bridge and forty-two.

Entrance prizes were given to those

holding the lucky numbers, which were given when the fee for playing was paid. These prizes were cakes and they were won by Judge John Watson, Mrs. B. P. Matocha and Mrs. Herman Sticel. Table favors were also cut for.

Refreshments of hot coffee and chocolate and cake were served.

HOYTE CLUB

The club ladies met with Mrs. H. B. Pressley on Jan. 17th. Our home agent gave us a demonstration on tough meats and tender meats. The meeting was opened with the club prayer read by Mrs. Pressley and then we had our club song. Our visitors were Mrs. Gertrude Brown and Mr. Adolf Hanle and Mr. Robert Conner. Our next meeting will be on the 14th. It will be at Mrs. Rank Winkler.

TUESDAY BRIDGE CLUB

The Tuesday Bridge Club met with Miss Mary Lake Henderson this week with every member present and one guest, Mrs. Meadow. Spring flowers of everykind furnished adornment for the beautiful colonial home of the Hendersons.

The four tables of players enjoyed three games, at the conclusion of which it was announced that Mr. Arthur Kruse had made high score and Mrs. Dan Tyson, low.

The party plate consisted of fruit salad served on red cabbage leaf, crackers, crystalized ginger and hot tea. This was followed by a dessert course of ice-box pudding topped with whipped cream. The hostess was assisted by Miss Winnie Henderson.

Mrs. Harry Mayes Dies
Memphis, Tennessee

Mrs. Harry Mayes, formerly Miss Irene Kemp, died early Tuesday morning in a hospital in Memphis, Tennessee. Her sister, Mrs. B. E. McMillan of Cameron was notified last week of her serious illness and she, with Mrs. S. M. Burns Sr., left Saturday for Memphis.

Mrs. Marshall Kemp of Waco, mother of Mrs. Mayes, left Tuesday for Carruthersville, Mo., where burial was made Wednesday. Mrs. Mayes is survived by her husband and one small son.

Other relatives in Cameron besides Mrs. McMillan are the S. M. Burns and the George McGehee families.

WORLD DAY PRAYER

The Federation of Missionary Societies is sponsoring the World Day Prayer hour at the Methodist church at 3:00 o'clock P. M., on February 15. The purpose of this meeting is to secure a unity and spirit of oneness among the peoples of the Christian churches.

Mrs. W. G. Gillis will lead the meeting and will present the subject: "That They All May Be One."

There will be an Executive Board meeting immediately following this program.

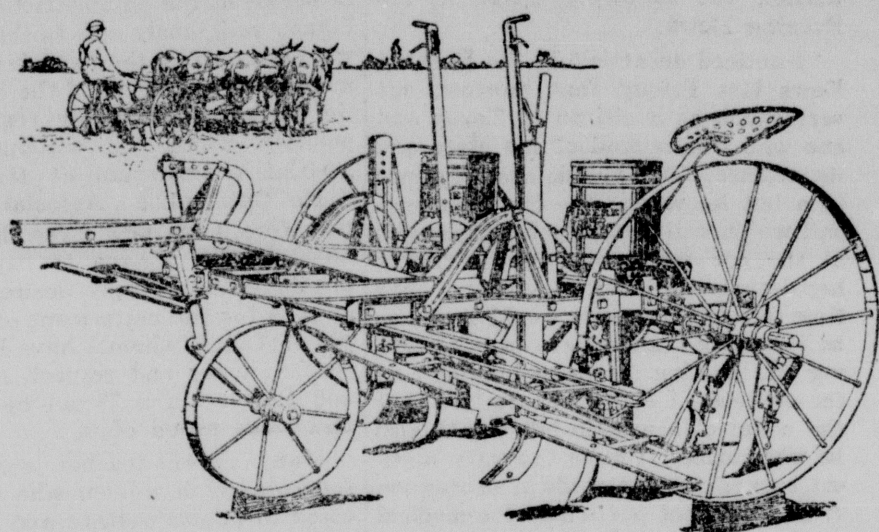

GLENN FLINN VISITS
CAMERON TUESDAY

Glenn Flinn, student at the University of Texas, was in Cameron Tuesday for a short time to visit his mother, Mrs. E. A. Flinn and family. Mr. Flinn has many friends here who are

always glad to welcome him to Cameron.

He will return to Cameron after the school term is over in June. While

here he was a visitor in The Herald office. Mr. Flinn was advertising manager for The Herald before going to the University.

Saving One Man's Wages
on Texas Farms

John Deere No. 210

Two-Row Cotton and Corn Planter

Here's the cotton and corn planter that was designed especially to reduce planting costs for Texas farmers. It plants two rows every trip across the field, saving one man's wages at planting time. It has every new feature in planter design. It does a better job of planting under all conditions.

The famous John Deere Saw-Tooth Type Steel Picker Wheel plants even the finest seed just as you want it planted—one seed at a time (or more, if desired), in any quantity per acre.

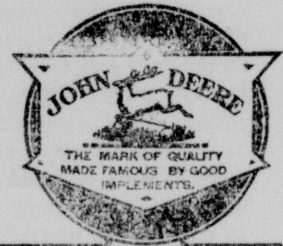

Although designed espe-

cially for bedded land, the No. 210 is adaptable for any method.

It handles wet cotton seed without clogging.

Equipped with the famous John Deere No. 999 Natural-Drop Seed Plate, the No. 210 plants a variety of seed, including peanuts, as accurately as the human hand.

Another feature that's mighty important is the John Deere tongue truck, with tilting lever, which relieves horses of neck weight. The wheel runs steady and casters freely when turning.

40 Years Insuring Property, Agent Can Tell Much History

Forty years in insurance business in Cameron, S. P. Cross can tell some interesting stories in connection with the development of the city as well as the insurance business in this locality. A representative of this newspaper found the veteran the other day deeply engrossed in work but he took a few moments to tell of some of his experiences.

A remarkable fact is that some insurance policies placed on the books of the agency 40 years ago are still on his books. In those days the agencies did not have the standard insurance maps now issued by the insurance department at Austin. In fact there was no fire insurance commission in those days and the agent had to make his own maps. Mr. Cross has made risk maps of a number of Cameron buildings insured by the agency. He has been extraordinarily attentive to the duties of the agency and shows a personal interest in every risk on his books.

Mr. Cross was one of the early station agents for railroads and has had other valuable experiences. He has used the same style of bill head for many years in his business. His advertisement in the telephone directory is so written and arranged that it represents seven crosses. The walls of his office are pasted and hung with many slogans, sayings and interesting clippings and photographs.

CLARKSON

Helen Jennings was the week end guest of Mrs. R. K. Anderson of Jones Prairie the past week.

Fred Starnes, who has been employed with the Rosebud gin is now at home.

Estelle, Gale and Earvin Campbell and T. O. Mitchell were visitors of Hazel and Aubrey Douglas Saturday afternoon.

GOLDEN WEDDING FOR PIONEER COUPLE IS CELEBRATED IN CAMERON SUNDAY

The Golden Wedding Anniversary of Mr. and Mrs. Wm. Blumenthal was the occasion for a happy gathering of friends and relatives Sunday in the home of their daughter, Mrs. R. A. Tag.

A half century of inseparable companionship, mellowed by the love-light of home and friends found the aged couple, now walking into the sunset together, happy and surrounded by friends who gathered to make the occasion one of commanding esteem.

Mr. and Mrs. Blumenthal have recently moved to Cameron from Bellville, built a home and will live their lives out near their daughter, Mrs. R. A. Tag. On the occasion of the celebration of the wedding anniversary they add many friends to their increasing list of acquaintances in Cameron and these friendships will sweeten life in their declining years. Congratulations have been showered upon them. Fifty years of happy wedded life. They have been full years, busy with cares, but much time to be happy. From the store house of memories they will draw heavily and the occasion last Sunday will be a favored impression as they begin their residence among the good people of Cameron.

The living room and dining room of the home were decorated in yellow, symbolic of the golden anniversary. Yellow daisies were used in profusion in the living room. The center-piece for the dining table was a two-tiered white cake embossed in orange. At each end of the table there was an orange taper in an orange holder and further embellishment for the table was in the shape of vines twined around the edge.

The ceremony began with the entrance of the honor guests and their attendants, Mr. and Mrs. R. A. Tag, Mrs. H. N. Tate, Lee R. Tag and Rev. P. T. Ramsey. Mr. and Mrs. Blumenthal occupied a seat of honor about which the attendants were grouped. Mrs. Blumenthal was attractively gowned in maroon satin with lace trim and Mr. Blumenthal wore a dark business suit. Mrs. H. N. Tate in very pleasing manner read the following toast to the bride and groom of fifty years:

"My friends, we are assembled here today,

And some have come from far away,

To celebrate a happy event

Which fifty years have honor lent,

This is the golden wedding day

Of friends who have come to Cam-

eron to stay,

And have built them a cozy little home

And say they never more will roam.

In Bellville, Texas, Feb. 4, 1879,

Mr. William Blumenthal, Miss Ma-

linda Viorick were wed,

And since then most useful lives have

led.

So then let's toast the bridegroom,

The best old friend we know,

And the bride he won fifty years ago,

May this semi-centennial of earthly

love

Be the type of perfect centennial

above.

Here's to one who many years has

been a bride,

True and faithful by his side,

And we know that Heaven has bles-

sed you

Since the day he first addressed you.

IN DESPAIR

Run-down and Nervous
Woman Picked Up,
Got Strong.

"I can heartily recommend Cardui, because I have found it so helpful," declares Mrs. Norton Smith, of Warrenton, Georgia.

"I was very much run-down, and was hardly able to get about."

"I could not sleep at night, and was in a highly nervous condition. Nothing seemed to help me, and I was almost in despair. I decided to try Cardui and sent for a bottle."

"I soon began to improve. I got so I could eat. My appetite was good. My nerves got stronger, and I was able to sleep well at night. I picked up in weight and my color was much better."

Cardui is sold by all druggists. Try it.

CARDUI

Used By Women
For Over 50 Years

And both your cup of joy to fill
Have wrought for good and not for ill.
Now may you both be true to God
As you travel sweetly down life's road.

Here's to love and the wedding ring
That bind you;
May poverty always be a day's march
behind you.

And here's to marriage, that happy estate,

Which we today so fittingly celebrate.
Here's to bride and bridegroom,

We'll ask their success in our prayers,
And thru life's shadows and sunshine
May happiness ever be theirs.

May the blessings of God wait upon thee,

And the golden sun of glory shine
around thy head.

May the gates of plenty, honor and happiness

Be ever open to thee and thine."

Following this appropriate toast, Rev. Ramsey made a short talk on God's plan for marriage and the manner in which the venerable honor guests had carried it out. Then Lee Tag, grandson of Mr. and Mrs. Blumenthal, presented them with a huge spray of yellow calendulas. The service was closed with a prayer by Rev. Ramsey.

The guests were served a salad plate consisting of candle salad, heart shaped sandwiches, cheese balls, crackers, coffee and a slice of the white and orange cake. Plate favors were bouquets of violets tied with yellow ribbon. Assisting Mrs. Tag were Mrs. Lee R. Tag, Mrs. H. N. Tate and Miss Margaret McCown.

Mr. and Mrs. Blumenthal only recently moved to Cameron from Bellville, and they live in a little cottage in the rear of the home of their daughter, Mrs. Tag. When they came here, they moved from the house in which they had lived all of their married life, almost fifty years, and it was within two miles of the house in which Mrs. Blumenthal was born and reared. Mr. Blumenthal came from Germany when he was six years old and settled at Bellville. They have two children, Mrs. Tag, and a son living in Houston, who was unable to be here Sunday.

Guests invited for the celebration were Mr. and Mrs. J. D. Eplen, Mr. and Mrs. Leland Green, Mr. and Mrs. Harden, Mr. and Mrs. Sam Graham, Mrs. Henry Davis, Mrs. J. B. White, Mrs. Meta McCown, Mr. and Mrs. H. N. Tate, Rev. P. T. Ramsey, Mr. Jeff Kemp, Miss Willie Hefley, Miss Margaret McCown. Members of the family, other than the honor guests were Mr. and Mrs. R. A. Tag, Mr. and Mrs. Lee R. Tag and Harry Tag.

On Monday afternoon Mr. and Mrs. Blumenthal were hosts to Mr. and Mrs. Denker of Cameron who came to wish them the continued happiness of their past years. This visit added much to the joy of the occasion to Mr. and Mrs. Blumenthal and it will long be cherished in their memories.

The Herald extends congratulations to Mr. and Mrs. Blumenthal on their long and happy married life and wishes them many more years together.

JOE PORUBSKY

Joe Porubsky, age 27 years, died Wednesday morning, February 6, at the home of his parents. He was apparently perfectly well the evening before and died quite suddenly.

Funeral services were held Thursday morning at ten o'clock. Interment was in Oak Hill cemetery, with Coleman and Eplen in charge.

STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon S. M. Clark by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March 1929 then and there to answer a petition filed in said court on the 30th day of January 1929, in a suit, numbered on the docket of said court No. 10,166 wherein Mrs. Eliza Clark is plaintiff and S. M. Clark is defendant said petition alleging:

Plaintiff alleges that she and the defendant were married on the 20th day of July 1927, and the defendant

was an adventurer, and that he was guilty of cruel conduct toward her and cursed and abused her and refused to provide for her and his conduct was so outrageous toward her that it rendered her living together with him insupportable, and she now declares that she never again will live with him or cohabit with him as his wife, and she sues him for a divorce on account of such cruel treatment, of which he was guilty in Milam county, Texas, and for costs of suit, for the restoration of her former name, and for general and special relief.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of January, A. D. 1929.

Penn Wolf, Clerk,
41-tc Dist. Court, Milam Co., Texas

HOYTE CLUB

The club ladies met with Mrs. H. B. Pressley on Jan. 17th. Our home agent gave us a demonstration on tough meats and tender meats. The meeting was opened with the club prayer read by Mrs. Pressley and then we had our club song. Our visitors were Mrs. Gertrude Brown and Mr. Adolf Hanle and Mr. Robert Conner. Our next meeting will be on the 14th. It will be at Mrs. rank Winkler.

TUESDAY BRIDGE CLUB

The Tuesday Bridge Club met with Miss Mary Lake Henderson this week with every member present and one guest, Mrs. Meadow. Spring flowers of everykind furnished adornment for the beautiful colonial home of the Henderson's.

The four tables of players enjoyed three games, at the conclusion of which it was announced that Mr. Arthur Kruse had made high score and Mrs. Dan Tyson, low.

The party plate consisted of fruit salad served on red cabbage leaf, crackers, crystalized ginger and hot tea. This was followed by a dessert course of ice-box pudding topped with whipped cream. The hostess was assisted by Miss Winnie Henderson.

THE CAMERON HERALD THURSDAY, FEBRUARY 7, 1929

RIG IS MOVED ON LOCATION FOR DEEP TEST NEAR MILANO

Milam County Is Attracting Investors In Oil Properties

Greatest Activity In History County Is Shown; Real Search On for Earth's Hidden Wealth

Passing the stage of proven production in shallow oil fields Milam county is now attracting the earnest attention of the larger companies and the most intensive survey in the history of the county is now in progress for big pay sands.

The hidden treasures of the earth have since recorded time held out a strong appeal to the venturesome spirits of men and oil is magic with its romantic appeal of wealth and adventure.

An earnest effort is now being made for deep oil. The larger companies have been attracted by the showings in Milam county and the various structures and geological data gathered by scouts and research work have given encouragement to producers and all indications are that within the next few months belief that deep oil exists in Milam county will be proven in reality.

While operations in the county at present are confined to research work, not since the discovery of oil in paying quantities at shallow depths, has activity been so pronounced. At least two major companies, the Gulf and the Texas are now in the field with their crews of research men. Geologists and men in private practice of research work in connection with surface and sub-surface formations are now in the field, and all of them men of proven ability and experience.

Definite information regarding opinions held by these men and their companies cannot yet be obtained for publication but development indicate that their faith in the ultimate development of deep pay sands in this county will lead them to the most thorough survey and search ever made in this section of Texas. Logs of deep test wells, formations, topography and structures are being brought under close scrutiny and reports are being furnished of findings.

At this time the center of interest is at the locality of the Johnson well near Thorndale where after 2000 feet of drill stem has been sunk, oil flows from the earth and promise of deep production is in prospect.

Despite the disappointing indications from the Louis test in the Thorndale wildcat four miles northeast of that city Wednesday, there is a feeling of great interest in the well and acreage continues to bring good prices. It is known that two of the major companies have made investments and local men as well as oil men from other portions of the Southwest have bought freely and a commanding figure is noted in all acreage transactions as well as royalty contracts.

In the test Wednesday the fluid rose in the drill stem 14 doubles or 560 feet in 30 minutes with a topping of oil of two doubles or 80 feet of oil. Press reports say that oil men from Luling and Fort Worth and Corpus Christi believe the well is a small producer but the showing of this well assures that section of an intensive drilling campaign. Until a core taken Wednesday is reported on the exact status of this well will not be known.

Blocking of acreage in another section of the county has been completed and public announcement of location and all details of the test will be available within a few days.

In the meantime oil men continue to come into the county and with a continued good weekly production schedule in the Rockdale and Minerva fields the atmosphere of oil development is pronounced.

Abstracting firms in Cameron are kept busy almost day and night in connection with investments in acreage and royalty and Cameron extends a warm welcome to the fraternity of oil men.

Oil Drop Is Posted On Minerva Crude

A reduction of 20c per barrel in the price of Rockdale-Minerva crude oil now brings the price down to \$1.21 per barrel for 39-gravity.

This further reduction of the price of crude is very unwelcome news to producers in Rockdale, Cameron and Minerva and will not be useful in stimulating further development of the field. The continued low price of crude has had the effect of holding up development. Despite this drop however, the field continues to pay the producers.

Minerva Refinery Sale Recalls Bit of Local History In Field

Sale of the Kent-Middleton oil interests, including the refinery at Minerva and all the holdings of the field to the Central Texas Refining Company with assets totaling \$1,600,000 recalls a bit of interesting history in connection with the property and development of the field.

The late John S. Owens who died in 1928 in Brownwood built this refinery in 1922 at Minerva. The site for this refinery was purchased by the Cameron Commercial Club and given as a bonus to the builder. Officers of the Owens Refining Company were maintained in Cameron and this city knew greater prosperity as a result of the operation of this plant by Mr. Owens.

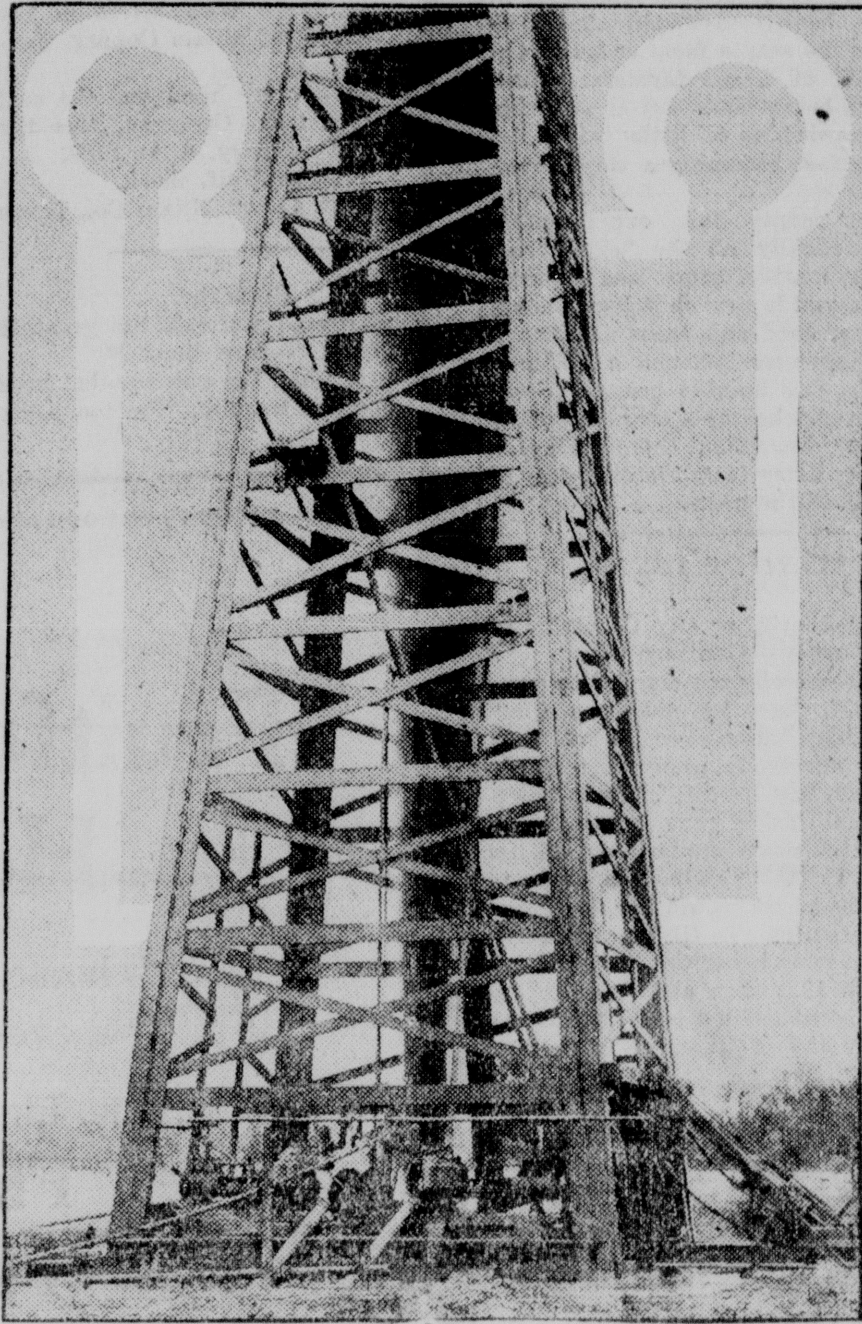

The refinery was constructed when the field first began to show signs of paying production and after its completion the field was rapidly developed, extending to the very limits of the city of Rockdale. The field is said to be one of the best shallow production areas in the Southwest with an especially good grade of oil with a high gasoline content.

R. J. LONG TAKES OVER HUMBLE AGENCY HERE

R. J. Long who has been agent here for the Pennant Oil Company has been made local agent for the Humble Oil and Refining Company to succeed W. B. Skelton, who is now with the Texas Company.

Mr. Long has been quite active here in oil circles having begun business here with the Owens Refining Company. A large number of pumps have been installed at the Humble stations here.

THIS WELL ONCE GAVE CAMERON BIG THRILL; OIL AND GAS SHOOT OVER BIG DERRICK OF POSEY WELL NO. 1

THE POSEY WELL

This photograph of the Posey No. 1 east of Cameron in the sand country was made on the occasion of a barbecue sponsored by the Chamber of Commerce in co-operation with I. C. Bell and associates who drilled the well. This well was never a producing well but showed a strong pressure of gas and when caught by the camera was sending water, oil and mud over the 100 foot derrick. The well was abandoned but the discovery of gas in what is believed until this day to exist there in paying quantities, led a few venturesome spirits to consider (Continued on last page, this section)

Cedar Creek Property And Booher Tract To Get Test As Big Rotary Installed

Lease Money Pouring Into Pockets of The Land Owners Here

Lease money in great volume is pouring into the pockets of Milam county land owners.

The office of the county clerk is a busy place these days recording oil leases. Prices ranging from \$1.00 per acre to five hundred dollars per acre and more are being paid for leases.

A surprise development of the week is the leasing of the Branchville community again. Indications are that this section will soon get development and one tract of land was leased there for \$1400 this week.

The highest prices being paid are in the vicinity of the Johnson well at Thorndale where production seems assured.

Leases filed are in such numbers that the Herald could not get all of them for lack of time.

One of the big developments of the week in Milam county oil development was the location of a well on the Booher tract near Milano on Cedar Creek.

A big rotary rig was moved on location Monday of this week by Chas. McDermott for the drillers to begin work.

The deep test is expected to be spudded in sometime within the next few days.

While little detail could be gathered for this story covering the operations in this sector of the county, it is understood that the drillers are experienced men and have considerable backing to give the Cedar Creek property a thorough test.

A big block of acreage was leased there some months ago. Those interested in oil development have watched this leasing with interest.

The well is strictly a wild cat well and in some well informed circles will (continued on last page, this section)

J. T. Leach, Veteran Operator, Has Faith In Milam To Yield

J. T. Leach, veteran oil man, has faith in Milam county to yield the big pay when proper development is undertaken.

Mr. Leach made the discovery well in the Mexia gas field and has been in Cameron since 1918 and has great faith in the structure in this section of the county.

He has made an intensive study of geology and there is no prospective structure in the county with which he is not thoroughly familiar.

He holds to definite convictions about development and believes that wells drilled in certain sections will yield big pay.

MINERVA REFINERY IS MERGED IN BIG DEAL

CENTRAL TEXAS REFINING CO.
ACQUIRES KENT-MIDDLETON
HOLDINGS IN COUNTY

(Rockdale Reporter)
The Kent-Middleton oil interests in Milam county, including the refinery at Minerva, passes to the ownership of a corporation with holdings valued at \$1,600,000, according to a news story in the Brownwood Daily Bulletin of January 26. The news story as printed by the Brownwood paper follows:

Reorganization Effected
The Central Texas Refining Company completed a reorganization at a (continued on last page, this section)

Seven tubes completely shielded using same circuit as Model 72. Majestic Super Dynamic Speaker. Volume control, instantaneous in action. Single dial control.

Cameron, Texas **C. N. GREEN & BROTHERS** Cameron, Texas

Texas and Texans

By Will H. Mayes

Texas Industries Needed

Most of the Texas chambers of commerce are placing special emphasis on securing more industries during 1929. Most of them, however, fail to state just what industries they expect to secure and how they expect to go about securing them. Organizations, like individuals, often start off the New Year with bombastic resolutions to do things that are soon forgotten. Most of them mean well enough, but do not stick closely enough, to one effort until it succeeds, or else they strive for something impossible of attainment instead of trying to do the things that can be done in their own communities.

Texas needs industries just now more than it needs more farming, more merchandising or more banking. Farming especially is suffering because there are not enough industrial workers to buy farm products at prices to pay the farmers for their labor. Bank vaults are full of money that can't be loaned to advantage, but that should find an outlet in factory investments and loans.

Small Factories Overlooked

The trouble with most chambers of commerce is that they overlook the opportunities for small industries and do not give enough encouragement to them after they are secured. For instance, there are a large number of small mattress factories in Texas making good mattresses, but it is hard to find a Texas-made mattress in a Texas store, and Texans do not insist on having the home-made article that is much better than the one made "up North" and sold at the same price. Texas-made work clothes are being shipped to Northern markets, given a Northern brand or trademark and shipped back here and sold because Texas people seem to prefer to buy what they believe to be Northern products.

The most successful nationally-known industries are those that have been started in a small way and built up from local to national reputations.

There is hardly a Texas town that does not have an opening for some small industry that could be established with local capital if only it could be assured the support of the members of the home chamber of commerce.

We need to develop in Texas a greater pride in our Texas-made products, after which it will be easier to get more and bigger industries established.

Texas-Made Silk Hosiery

I have just seen that there is a factory in Dallas that is making silk hosiery as nice looking and as good as made anywhere. The factory is importing its silk and making it up, and is hoping to find near-by markets. It employs 35 people at present and can make 360 pairs of hosiery a day.

I am wondering how many Texas merchants—members of chambers of commerce, if you please—are trying to get their customers to buy Texas-made hosiery in preference to that made elsewhere. I do not remember ever to have seen an advertisement of Texas-made hosiery and certainly have never had a merchant offer to sell me the Texas article.

There is a Texas factory making a specialty of sheets and pillow slips, but I doubt if a store in Texas made a window display of these Texas products during the January white goods sales.

Texas cheese factories are making a reputation for themselves, but if I have eaten any Texas-made cheese I have not known it and my grocer has

not tried to sell it to me as a Texas product.

So, all along the line we are woefully neglected in our patronage of Texas industries and chambers of commerce should hammer this shameful fact into the heads of the people.

School Book Matters

There appears to be merit in a bill introduced in the Texas Senate to apportion the school book funds of the State to the school districts and let them buy their own books. No good reason, except that the economy, can be given for using the same text books in every school in the State, and at the prices at which Texas has been buying books there seems to have been no economy in buying in large quantities.

Why not have the text book board approve lists and prices of several books in each study, and leave the counties or school districts free to make their respective apportionments? This would at least scatter the text book scandals and might stop them altogether.

Enlarging Scope of Schools

An effort will be made to have the name of the State Teachers' College at Kingsville changed by the present legislature to the South Texas Technological College and to enlarge the scope of its teaching. The Texas Technological College at Lubbock has rapidly taken up the work of a university and will soon be in reality, if not in name, a North Texas University. The western part of the State is hoping to have the School of Mines at El Paso become a University for that part of the State and it already is doing the work of a State-supported junior college. The University of Texas is devoting more and more attention to research and to "bureaus" of one kind and another, carrying its "extension" work to all parts of the State. The A. & M. College is constantly broadening its extension activities. In some particulars there is an apparent overlapping of the educational activities of the numerous schools and of the State Department of Education.

All of which goes to show that Texas has reached the point where its educational system needs the close supervision and management of a certain board of education if there would

be economy in school administration.

Railroad Encroachments

Having secured control of certain bus lines in South Texas, the Missouri Pacific line is seeking a permit to extend its lines to include Houston and Galveston, and the Southern Pacific is now asking for permission to operate a bus line from the western line of the State into El Paso.

It begins to look like, unless there is some legislative action to prevent it, the railroads and their subsidiary companies will soon have exclusive control of passenger and freight traffic on the State highways, and the people will be footing the bills for road building and maintenance.

Diversification Pays

Wherever you find an unusually prosperous community you will find that there is diversification of products. The dairy and poultry interests of the State, since they have been recognized as profitable side lines in farming, have contributed almost as much as the staple farm crops to the prosperity of Texas farmers. Much money is being made out of products once regarded as of little value. Pecans are fast becoming a staple Texas crop.

Burnet county has experimented with practically all the "side-lines," including marble, stone and mineral products, and is now shipping peanuts by the car load and these are bringing the growers "around a dollar a bushel." The humble peanut should not be overlooked as a money producer. The Carolinas' unprecedented prosperity dates from the discovery of the value of the peanut.

STATE OF TEXAS

To the Sheriff or any Constable of Milam County,—Greeting.

You are hereby commanded to summon S. M. Clark by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March 1929 then and there to answer a petition filed in said court on the 30th day of January 1929, in a

suit, numbered on the docket of said court No. 10,166 wherein Mrs. Eliza Clark is plaintiff and S. M. Clark is defendant said petition alleging:

Plaintiff alleges that she and the defendant were married on the 20th day of July 1927, and the defendant was an adventurer, and that he was guilty of cruel conduct toward her and cursed and abused her and refused to provide for her and his conduct was so outrageous toward her that it rendered her living together with him insupportable, and she now declares that she never again will live with him or cohabit with him as his wife, and she sues him for a divorce on account of such cruel treatment, of which he was guilty in Milam county, Texas, and for costs of suit, for the restoration of her former name, and for general and special relief.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of January, A. D. 1929.

Penn Wolf, Clerk,
41-4tc Dist. Court, Milam Co., Texas

Restraint

"What would you call the greatest invention of modern times?"
"If you mean the automobile," said Mr. Chuggins wearily, "I'm too polite to tell you."

PAPER 128 YEARS OLD TAKES READER BACK TO EARLY HISTORY OF COUNTRY

A copy of the Ulster county Gazette, published at Kingston, New York, on Saturday, January 4, 1800, the paper being more than 128 years old, is in possession of C. G. Stokes of 508 13th avenue. The paper, remarkably preserved, contains many interesting accounts dealing with events of the time.

A report of the meeting of the American congress, Tuesday, December 10, 1799, signed by John Adams, appears in the first column, first page followed by report of the meeting of the senate. A speech made to the president shows that problems were being encountered. A section of the speech follows:

Prompt Action Praised

"While we devoutly join you in offering our thanks to Almighty God for the return of health to our cities and for the general prosperity of our country, we cannot refrain from lamenting that the arts and callings and designing men, have excited open rebellion a second time in Pennsylvania, and thereby compelled the employment of the military forces to aid the civil authority in the execution of the laws.

"We rejoice that your vigilance, energy and well timed exertions, have crushed so daring opposition, and preventing and spreading of such treasonable combinations. The promptitude and zeal displayed by the troops called to suppress this insurrection deserves our highest commendation and praise, and affords a pleasing proof of the spirit and alacrity with which our fellow citizens are ready to maintain the authority of our excellent government.

Protection Is Stressed

"Knowing as we do, that the United States are fiercely anxious for a fair and liberal execution of the treaty of amity, commerce and navigation entered into with Great Britain: we learn with regret, that the progress of adjustment has been interrupted by a difference of opinion among the commissioners. We hope, however, that the justice, the moderation and the obvious interest of both parties will lead to satisfactory explanations and that the business will then go forward to an amicable close of all the differences and demands between the two countries.

"When we reflect upon the late uncertainty of the result of the late mission to France; and upon the uncommon nature, extent and aspect of the war now raging in Europe, which affects materially our relations with the powers at war and which has changed the condition of those colonies our neighborhood; we are of opinion with you, that it should be neither wise nor safe to relax our measures of defense or to lessen any of our preparations to repel aggression."

Advertising in Rhyme

Advertising had its fine points in those days, just as it does now. Here's a fine sample:
"Luther Andres and Co. have this day Been opening goods fresh and gay He has received near every kind That you in any store can find And as I purchased by the bale I am determined to retail For READY PAY a little lower Than ever have been had before I with my brethren mean to live But as for credit shall not give. I would not live to rouse your passions or credit here is out of fashion. My friends and buyers, one and all It will pay you well to give me a call You may always find me by my sign A few rods from the house divine.

The following articles will be received in payment: Wheat, Rye, Buckwheat, Oats, Corn, Butter, Flax, Ashes and Raw Hides. These articles will be taken in at the Esopus prices. CASH will not be refused. Warfink, Dec. 24, 1799.

Negro Wench on Block

Another ad reads: "For sale, the one half of a saw mill with a convenient place for building lying in the town of Rochester. By the mill is an inexhaustible quantity of pine wood and also,

A STOUT, HEALTHY, ACTIVE NEGRO WENCH

Any person inclined to purchase may know the particulars by applying to John Schoonmaker, jun., at Rochester, December 23, 1779."

Four Pages to Paper

An unusual amount of news was moulded into the four pages of the paper. Most of the type is small. The totalsize of the paper is 15 by 12 inches. Four columns appear on each page. The letter "f" is used in the reading matter, frequently in place of "s" appears in such words as lordships, battalions, but doesn't in circumstance reading circumstance.

It seems that there was a need for ashes, at least to the extent that they were taken in at the stores. Men were selling property in those days, just as they are now, while husbands were at odds with their wives, as the following notice will attest:

"Second notice of my wife, Hannah, is hereby given, forbidding all persons whatever from harboring or keeping her, and for intrusting her on my account, as I am determined to pay no debts of her contraction. Matys Van Steenberg, Saugerties (Kingston precinct) Nov. 18, 1779."—Meridian Star.

Good steel water tank tower for sale cheap. J. L. Barmore.

UNIQUE TORSION NEUTRALIZER USED IN NEW HUDSON MODELS

Although Hudson engineers have for years paid special attention to smoothing out the flow of power as it issues from the engine and is passed, through flywheel, clutch, drive shaft, universal joints, etc., to the rear drive, they have this year contrived to crown their efforts with a device that removes the last remaining tendency to unevenness that might develop in long continued driving.

The new contrivance is incorporated in the cork-studded clutch plate and is, rather aptly, called a "torsion neutralizer." The neutralizer gives the clutch plate a two-unit construction, the two units being made inter-acting thru the medium of small spiral spring which not only absorb the shocks of starting and sudden stopping, but in addition smooth out such torsional or power impulses, ordinarily communicated to the transmission and final drive.

DOROTHY DENSON MAKES EXCELLENT RECORD AT SOUTHWESTERN SCHOOL

Miss Dorothy Denson, daughter of Dr. and Mrs. T. J. Denson of Cameron student at Southwestern University at Georgetown, has been complimented by the faculty for her excellent grades. She is among the students on the honor roll, having made a grade of 90 and more during the fall term.

FLORELLE COATS HEADS T. P. C. FRESHMEN

Miss Florelle Coats of Milford has been elected president of the Freshman class of T. P. C. She is also a member of the French Club and a member of the basket ball team.

The other officers of the class are: Rebecca Delinger, vice president; Jean Trull, secretary and treasurer. and Kathleen Varner, reporter.

BUILDERS CLASS

Members of the Builders Class of the Christian church Sunday school met with Mrs. G. C. Walters Tuesday evening for the purpose of electing officers. Mr. Raymond Beard was elected president; Mr. Ed Lovick, vice-president; Miss Annie Woolley, secretary and treasurer; Mrs. H. Starling, teacher, and Mrs. Martin Killian, assistant teacher.

Following the business session, those present enjoyed games and tunts. Mrs. Walters served a sweet salad and coffee.

BRIDGE CLUB

Mrs. R. P. Jeter was hostess to members of the Bridge Club last Friday afternoon. Spring flowers such as violets, narcissi and fire-on-the-mountain, were used in the rooms where the tables were placed.

Mrs. Oxsheer Smith made high score and was awarded a china basket for flowers. Mrs. Jim Coleman, who won low score award, was presented with a doll pin cushion.

The hostess, assisted by Mrs. Geo. Graves, served a salad plate, hot tea and a dessert course.

LONE AMERICAN BLOCKS MOVE TO BOOST RUBBER

HARVEY S. FIRESTONE STOPS JUMP IN TIRE PRICES BY BREAKING MONOPOLY

The average motorist, who today is paying less for his tires than at any time in history, does not realize that but for the courageous stand taken by the well-known tire manufacturer, Harvey S. Firestone, tire prices would probably be at exorbitant levels.

Several years ago, British rubber growing interests agitated for government control of production in order to place the industry on a more lucrative basis. The planters succeeded in winning over their government and in November 1922, the well-known Stevenson Restriction Act went into effect.

Under this scheme, British rubber growers were to restrict their output to about 60 per cent of normal until the price of crude rubber reached a certain level. Shortly thereafter, the market jumped to over \$1.00 per pound and but for Mr. Firestone's intervention, it is likely the market would have soared much higher.

Realizing what such conditions would soon mean to the motor vehicle owner, Mr. Firestone called a meeting of rubber and automotive heads in Washington, D. C., and there steps were taken which first found expression in a decision by the United States Government to appropriate \$500,000 to be used by the Federal Departments of Commerce and Agriculture to investigate and report on new sources of supply.

This investigation was augmented by a survey made by Mr. Firestone who late in 1925 completed negotiations with the Republic of Liberia whereby that government leased to the Firestone Plantations Company for 99 years, 1,000,000 acres of excellent rubber growing lands.

That crude rubber prices should today be back to normal and that tire prices are lower than ever before in history, may be credited to the courage and foresight of Harvey S. Firestone, who practically single handed, opposed foreign interests controlling a larger part of the rubber plantations of the world.

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your

community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to: Tyler, Texas, or to

Voices in the Night

A little girl was put up in an upper berth of a Pullman sleeping car for the first time. She kept crying, till her mother told her not to be afraid because God would watch over her.

"Mother, you there?" she cried.

"Yes."

"Father, you there?"

"Yes."

A fellow passenger lost all patience at this point and shouted: "We're all here. Your father and mother and brothers and sisters and aunts and uncles and cousins. All here; now go to sleep."

There was a pause; then very softly, "Mama."

"Well."

"Was that God?"

NEW ELECTRIC INVENTION IN USE IN RESEARCH WORK BY CREW OF THE GULF REFINING COMPANY

An electrical invention by a noted Swedish scientist is being used for the first time in connection with research work in Milam county, it became known here this week with the arrival here of a crew of operatives for the Gulf Refining Company.

This instrument working on the principle of the radio has attracted the attention of the oil fraternity and keen interest is being shown in its use here in connection with research work. Structures, salt domes and other discoveries of a geological nature are recorded with the use of this invention.

It is said that Milam county has been the mecca for as intensive research work as has been noted in any county in Texas with an equivalent of prospects.

Residents here recall the work done here last year by a crew operating the Seismos for one of the large companies. The Seismos records facts concerning earth formations when used in connection with explosives, a photo-

graphic process being a part of the invention. By the use of this and other scientific methods stratas are discovered where oil is trapped and exists in paying quantities.

So far as known no proven method of scientific discovery of oil or minerals has been advanced. The discoveries are always taken into consideration and developed with plain geology and from the reports the geologist gives an opinion as to prospects for oil. Without these scientific methods and the work of geologists the search for oil would be confined altogether to wildcat ventures and would entail greater expenditures on the part of the companies continuously searching for new supplies of oil.

While the wildcatter still remains a commanding figure in the world of production and discovery his world of romance is being rapidly circumscribed by the spread of science and the enlightening developments of higher geology.

has so much activity been noted and the abstract office feels the pulse beats of the development.

FIDELITY ABSTRACT CO. REPORTS BIG BUSINESS

MISS ANNIE STALLWORTH OFFERS REAL ABSTRACT SERVICE TO INVESTORS

The Fidelity Abstract Company with its records and complete abstracting plant is feeling the results of the oil activity in Milam county and the plant is doing a big business.

Miss Annie Stallworth, manager of the plant, with her experience is providing a real aid to the oil men and to investors in royalty contracts and leases.

Operations in various sections of the county has brought much business to this firm and the plant is working almost day and night to serve the buyers of abstracts.

An influx of oil operators, scouts and geologists is giving much interest to developments in Milam county. The abstract office is necessary in this business and Miss Stallworth is giving them the service they demand.

With the location of a rig near Milano and the developments at the Johnson well near Thordale the county is now the mecca for those interested in development. Not since 1924

Tailoring Head Visits Cameron On Way West

Louis Pall and wife of Cincinnati, Ohio, were in Cameron last week on their way to California for a vacation trip. Mr. Pall is head of the Pall Tailoring Company of Cincinnati, one of the largest firms in that city.

W. M. Huff is the local representative of the tailoring firm. He is in Brenham this week on business. This is the first time in the history of the city the head of an outstanding tailoring firm has visited his territory of representatives and his visit is a compliment to Mr. Huff.

WESTBROOK IS NAMED WEIGHER FOR CAMERON PRECINCT NUMBER 1

Ed. Westbrook former public weigher at Ben Arnold, has been appointed public weigher for Precinct No. 1 at Cameron, according to dispatch from Austin following action of the Senate Saturday.

Mr. Westbrook has been a resident here for several months. He will have charge of the weighers yard this fall, weighing cotton. In idle months Mr. Westbrook is a farmer.

Trade Briefs

Mrs. B. F. Bonds will leave this week for market to buy goods for her residence shop here. She expects to be back in the city after next week and to arrange for an opening display on Tuesday, February 12.

Henry Lippman's popular store is making a hit with the big line of popular and late style shoes for women. Hy Rosenthal is in charge of the department and is an experienced shoe man.

Cecil Cone of the Cone Implement Company is finding business good these days. International Harvester Company Implements and Trucks and Farmall Tractors are proving attractive investments for farmers in improving their farm equipment. Mr. Cone expects a big business this year. Already a large number of trucks and tractors have been placed.

"Our implement business has been good," said Judd G. Davis of the Milam County Hardware Company on his return here last week from the convention of hardware dealers held in Dallas. The hardware store has a large stock of implements and expects a big business this year. The store is featuring a new iceless refrigerator that operates on kerosene for 2c per day, just the thing for farmers.

Mr. Lemm, manager of the Maytag Shop says the reception given him here has been very encouraging. He declares he is booked for two weeks ahead on demonstrations. The shop is located at the Keith Electric Company and several models of machines are on display. The Maytag is the largest output of washing machines in the world.

Frank Stewart, manager of the Nuway Grocery, reports a good business. The store has not missed an issue of Cameron papers since opening here with advertising matter. Prices are quoted and Mr. Stewart says his business is increasing.

J. T. Parma, pioneer in cash grocery business in Cameron has another list of red hot specials for Saturday. He is now in his 21st year of business in Cameron and his store has lost none of its popularity among the people. He is an advertiser of force and power and attributes his success in a large measure to advertising.

"Just whistling along," is the way

J. D. Dobbins puts it. An attractive display advertisement in this issue tells of great grocery bargains at the cash store. Mr. Dobbins finds it hard to wait on the people, especially on Saturday. He believes in advertising.

The McLane grocery, in the legends of advertising is known as the "Ham House" reports good business. The big store is always a place for grocery bargains. The McLane Brothers are good merchants and know how to run a grocery store. "Our business is good" said "Little" Bob in discussing the outlook.

Hubert Hefley Motor Company has received a number of shipments of new Ford cars and can make immediate delivery. Business in new Ford cars is brisk these days with the big agency here. The new building will soon be completed and when the new unit is added the store will be one of the largest in this section of Texas.

"I wish I had ten car loads of Chevrolet cars," said Chas. Coleman of the Coleman Chevrolet Company. The company has a large number of orders that are to be filled when the new cars reach here in sufficient quantities. The new Chevrolet Six is proving a popular seller.

W. B. Levy will go to Dallas next week to purchase goods for his store here for spring and summer trade. He expects to buy a heavy stock and be well prepared for the trade when the season opens. Merchants generally are not yet displaying new spring goods but within a few days the stores will have their stocks on display.

Mrs. Copus at the Specialty Shop will leave for Dallas to purchase goods some times within the next few days. She expects to purchase a good line of merchandise and will have the goods on display in a short time.

C. W. Bradbury of the Pierce and Bradbury dry goods store in Cameron will leave for the markets within the next two weeks. Mrs. Bradbury will in all probability accompany Mr. Bradbury. A full line of spring and summer goods will be purchased for the trade of this store. Mr. Bradbury is a very successful merchant and a good buyer and hopes to bring back many new style creations for the customers of the store.

At the Cheeves Brothers store new goods are being unpacked for the spring and summer trade. The buyer,

Mr. Cheeves, expects to receive a large shipment of spring goods soon, having gone each year to the markets for this big store. Mr. Cheeves has been elected president of the First National Bank and has been quite busy this week. Sam Cheeves, following his college days has been in the store for the past two years and is one of the most successful of the young merchants of the city. Mr. McIntosh has been ill but is back at his post of duty at the store.

Cameron Seed Company Serves Planters Here

One of the interesting displays in the city at this time is at the Square drug store, headquarters for the Cameron Seed Company. W. L. Turner, druggist and world war veteran, has a most attractive display of seen both garden, fruit and field seed.

The Cameron Seed Company is owned by Mr. Turner and Dr. Sutton and was established here several years ago and has served a definite purpose for planters.

"You would be surprised to know the amount of seed we sell," said Mr. Turner. "We have added field seed to the line this year. One of our biggest sellers is water melon seed. If we would work out some plan of handling melon shipments this community would find the watermelon one of the best investments among all the crops of the farm."

Attention is called to the large display advertisement in this issue of The Herald on the seed shown at the store. All of the seed sold is tested and selected seed, says Mr. Turner. Many varieties of melon seed are shown and large quantities of other seeds are on display.

There are many reasons for the ease of steering the new Ford

The new Ford is exceptionally easy to steer because of the well proportioned weight of the car, the steel-spoke wheels, the co-ordinated design of springs and shock absorbers, the size and design of the steering wheel, and the simple mechanical construction of the steering gear.

The Ford steering gear is of the worm and sector type used on high-priced cars and is three-quarter irreversible.

In simple, non-technical language, this means that the car responds easily and quickly to the steering wheel yet there is no danger of the wheel being jerked from the hands of the driver by ruts or bumps in the road. A light touch guides the car, yet you always have that necessary feel-of-the-road so essential to good driving.

Strength of materials and careful workmanship give unusual stability to the Ford steering gear and housing.

The steering worm, for instance, is splined to the steering worm shaft and is stronger, of course, than if a single key were used to hold the shaft and worm together. The steering worm sector is forged and machined in the same piece with its shaft.

The housing of the steering gear mechanism is made of three steel forgings, electrically welded together. This housing is then electrically welded to the steering column. Such a one-piece steel unit is naturally much sturdier than if several parts were used and bolted or riveted together.

Throughout, the steering mechanism of the new Ford is so simple in design and so carefully made that it requires practically no attention.

The only thing for you to do is to have the front steering spindles, spindle connecting rods, and drag link lubricated every 500 miles and the steering gear lubricated every 2000 miles. This is easy to do because of the high pressure grease gun lubricator fittings provided for these parts.

For this work, you will find it best to consult us. We are specially trained and equipped to help you get the greatest possible use from your car over the longest period of time at the least trouble and expense.

Senators From Texas

IN THE UNITED STATES
CONGRESS 1845—1930

RICHARD COKE
(1877-1895)

Richard Coke was born in Williamsburg, Virginia, March 13, 1829. He was a son of John and Eliza Coke. His early education was obtained in the common schools of his county, and at the age of sixteen he entered William and Mary College, where he was graduated in 1849. Immediately after his admission to the bar in 1850, he removed to Waco, Texas and began the practice of law. He was married in 1852 to Mary E., daughter of James L. Howe of Waco.

He enlisted in the Confederate service in 1861, and at the close of the war he had attained the rank of captain. Resuming the law practice in 1865, he was immediately appointed judge of the district court at Waco, and in the following year was elected associate justice of the supreme court of the State. General Sheridan removed him from the latter position in 1867 on the ground that he was an "impediment to reconstruction," but that act of injustice greatly increased his popularity and endeared him to all classes. He was thereafter known as a leader in Democratic politics, and by his ability and eloquence helped to gather the scattered forces into an efficient organization.

At the general election in 1873, Judge Coke was elected governor on the Democratic ticket by a majority of 50,000, together with the delegation to Congress and the greater part of the State legislature. This was an almost complete sweep for the Democrats, and incited their political opponents to extraordinary measures to, if possible, undo the verdict of the people. One Jose Rodriguez, a Mexican, was incited to apply for a writ of habeas corpus in the supreme court, alleging that he had been unlawfully restrained in his liberty for an alleged election offense. The case was styled "Ex parte Rodriguez," and although the district attorney refused to appear on the ground that it was a fictitious and fraudulent cause, it was tried and resulted in a verdict declaring the late election illegal and void.

A proclamation was, therefore, issued by Governor E. J. Davis, prohibiting the newly elected legislature

from assembling; and when that body, ignoring his orders, proceeded to the discharge of its duties, Governor Davis declined to receive any communications from it. As a last resort, in his party's extremity, Governor Davis appealed to President Grant, who, refusing to interfere, left him no course but to resign. Judge Coke was, therefore, peacefully inducted into office, being inaugurated on January 15, 1874. One of his first acts, on the basis of a legislative amendment to the constitution reorganizing the supreme court of the State, was to remove the three judges of "Ex parte Rodriguez" fame.

The administration of Governor Coke marks the return of order and prosperity and the abolition of party machine government in Texas. The constitution forced upon the State by military authorities was supplanted by the one framed in 1875, which forms the present organic law of the State. This constitution having effected a change in the term of official tenure, Governor Coke was reinaugurated in April, 1876.

In 1876, Governor Coke was elected to the United States Senate, to succeed Senator Morgan C. Hamilton, but, continuing to perform his official functions until December, he took his seat in the Senate on March 4, 1877.

He was re-elected in 1883, and again in 1889, his last term of office expiring March 3, 1895, thus completing a full eighteen years in the United States Senate. No public official ever more jealously guarded the interests of his constituents. Possessed of the utmost determination and the strongest of convictions concerning right and justice, he was ever a champion of popular causes against the oppression of corporations and legislative corruption.

As a member of the Committee on Commerce, he secured large appropriations for the improvement of the rivers and harbors of Texas, and on the Judiciary Committee his fine talents and high legal attainments made him the author of many important and valuable measures. He earned the reputation of a powerful orator—a giant in debate. He was preeminently a man of the people.

Senator Coke died in Waco, on May 14, 1897.

MILAM COUNTY ABSTRACT COMPANY BUSY PLACE

**JOHN B. HENDERSON REAL AID
TO MEN WITH COMPLETE
ABSTRACT PLANT**

The Milam County Abstract Company with its complete abstracting plant is a busy place these days.

Renewed oil activity in Milam county has brought a great rush of business to the office, declares John B. Henderson who is proving a real aid

to oil men who visit here in connection with lease and royalty investments.

"Business is better than it has been since 1924," said Mr. Henderson. With his force he is kept busy almost day and night turning out abstract work for oil firms.

According to records the Johnson well showing at Thorndale has produced more activity than any development in recent years in this county.

Geologists, scouts and investors continue to come in. The abstract office is indispensable to their investments and Mr. Henderson with his complete plant and records and maps is doing a real service to the investors.

COUNTY AND STATE ARE REPRESENTED AT FARM DEMONSTRATION CELEBRATION

Begun in the south 25 years ago to check the boll weevil, cooperative farm demonstration work will be honored in a silver anniversary celebration at Houston, Texas, February 5 to 7.

Lauderdale and Newton counties, together with Mississippi A. & M. college will be represented at Houston, Texas, from February 5 to 7, when the south will celebrate the 25th anniversary of the founding of cooperative farm demonstration work. Miss Katherine Staley, home demonstration agent for Lauderdale county and Miss Myrtle Kinds, home agent for Newton county, will attend from this section, having been granted official leave of absence by Director R. S. Wilson of the extension department, A. & M. College.

Dr. Wilson plans to attend the event as does Miss Mary B. Giesen, state supervisor of home demonstration work. It was at Houston that the first special agents fared forth in 1904 on a mission that now has expanded to more than a million farm families. They went out to conduct a lone demonstration of better farming as a protection against the cotton boll weevil, but they laid the foundation for a practice which, with state and federal aid, encompasses every phase of farm and home life and is carried forward today by more than 2300 county agricultural agents and more than 900 county home-demonstration agents.

Boll Weevil Scare

The story unfolds logically and rapidly. Sweeping up from the Mexican border in 1901 and 1902, the boll weevil devastated cotton in Texas and threw the entire state into a panic. Citizens of Terrall, Texas, invited Dr. Seaman A. Knapp, one of the country's foremost agriculturalists to address them. They had heard of his theory that most farm ills could be corrected by proper methods of farming. They asked for a demonstration.

A guaranty of \$1500 to protect the farmer-demonstrator against possible loss was subscribed, and Walter C. Porter volunteered his land for the venture. One hundred acres were devoted to a demonstration of diversified farming—cotton, corn and cowpeas. Good preparation, cultivation and the use of good seed resulted in Porter making \$700 more from his land than the community average.

Evans One of First

The demonstration made such an impression that in February, 1904, Dr. Knapp sent 38 "special agents" from his Houston headquarters to work in East Texas and Louisiana. Among

them were J. A. Evans, now assistant chief of the federal office of cooperative extension, and W. D. Bentley, assistant director of Oklahoma agricultural and mechanical college extension service. They drove hundreds of miles by horse and buggy to demonstrate the efficacy of "book farming."

Soon the idea of making boys the demonstrators of better farming was launched and captivated the whole country. In 1908 boy corn clubs were formed and the youngsters became so eager to join the work that they hitched up calves, colts and any animal they could get in harness to pull their plows and planters.

600,000 Club Members

Cotton clubs were created in 1909 and pig clubs in 1911. Today more than 600,000 farm boys and girls continue the practice through their 4-H club projects, ranging from poultry and dairying to gardening and canning. Miss Marie Cromer, instigator of home demonstration work, organized the first "tomato club" for girls in 1910 in Aikon county, South Carolina.

A decade after Dr. Knapp began the popularization congress passed the Smith-Lever act, which provided financial assistance to all states supplying funds equal to federal appropriations for "disseminating agricultural and home-making information." Broome county, New York, already had originated the county agent system.

Easy Riding Feature of the New Ford

One of the things for which the new Ford car has already become famous as its exceptionally easy riding qualities over rough roads. Many factors contribute to this, especially the low ratio of unsprung weight to sprung weight, the flexible transverse springs, Houdaille hydraulic shock absorbers, etc., but perhaps none more than the so-called torque tube drive. This principle of taking the thrust from the rear axle was first introduced into automotive practice by the Ford Motor Company on the Model T car and has later been adopted on many of the finest European and American cars including the Lincoln.

The torque tube is a metal housing surrounding the driving shaft. It takes the driving thrust from the rear axle and carries it to the universal housing, a point well forward on the chassis so that the car is really pulled rather than pushed over the road.

This construction also relieves the rear spring of any function except that of supporting the load. This permits the leaves of the spring to be made flexible and shackled at both ends, resulting in free and normal action and an easy absorption of road shocks.

Radius rods join the torque tube at the forged steel housing of the universal joint adding strength and rigidity, keeping the rear wheels in perfect alignment and further resulting in improved riding qualities.

JONES PRAIRIE

By MRS. R. K. FONTAINE

(Left over from last week)
Connie Mae Hickman spent Saturday and Sunday at home.

Mrs. Birt Thrasher and children spent Tuesday with her mother, Mrs. John Bailey.

Rev. Dobson preached at Little River Sunday.

The Senior B. Y. P. U. had a social at the Jones Prairie school house Saturday night. Many games and contests were enjoyed with Rev. Dobson as leader. At a late hour hot chocolate and cake were served to those present.

Mrs. Annie Jennings now of St. Louis, who has not been in the community for over 22 years visited with Mrs. W. J. Fontaine Friday afternoon. Mrs. Jennings' husband taught at the Tarver Grove school over 25 years ago. Mrs. Jennings was called to the bedside of her son who is quite ill at Baylor.

Miss Bill Fontaine and friend attended the show in Waco Saturday night.

Mr. and Mrs. Carl Black and son, were visitors in Milano Sunday.

Dr. W. J. Fontaine, wife and daughter were Sunday dinner guests at the Rodney Fontaine home Sunday.

Rev. Red preached at Sneed's Chapel Sunday.

Selma Jamison and Lois Brown visited at the Hickman home Sunday.

Wats Weise and Miss Inez Newman and Joe Hickman and Ruby Smitherman motored Miss Jewell

Smitherman to her school Sunday afternoon.

Mrs. Alma McKinney was able to return to her school Monday after being absent a week on account of illness.

Miss Evelyn Harrell, who is a student at Baylor was one of the unfortunate girls of Baylor College who lost part of her clothing in the fire.

Mrs. Rodney Fontaine and son spent Monday afternoon with Mrs. Carl Black and son.

Former Poor Boy Is Now Executive

A few years ago a poor boy, believing that business held a real future for him, went to a banker friend with a request for a loan to put him thru Tyler Commercial College, Tyler, Texas. The banker, believing both in the lad and in the efficiency of T. C. C. training, advanced him \$210.

Today that former poor boy, as a result of that loan and the course it enabled him to take, is one of the most respected citizens of Austin, Texas, chief executive of a thriving life insurance company, which nets him an income of over \$5000 a year. That young lad was no other than Mr. F. W. Woolsey.

During his course at T. C. C., young Woolsey became interested in banking and it wasn't long after he was graduated until he was occupying a book-keeping position in a Bay City, Texas, bank. After rising to the position of Assistant Cashier, he accepted a position with the State Banking Department. While in that position he became interested in the insurance business and bought an interest in the Austin Mutual Life Insurance Com-

S. P. CROSS

Insurance, Farm Loans

& Security Bonds

THE CAMERON HERALD

CLUB ENDORSES AIR FIELD PLANS HERE

DECLINE TO ACT ON PERMA- NENT PAID SECRETARY AND COMMITTEE DISCHARGED

The Commercial Club, although somewhat hesitant, endorse the effort now being made here to secure landing facilities for airplanes. The club, very conservative in matters of action sought at first to have the matter referred to a committee for investigation, but later voted to endorse the proposition.

An endorsement was sought to give the plans greater impetus. The matter was presented to the club by J. B. White, editor of Cameron Herald, who believes that air transportation cannot longer be ignored.

Cameron Commercial Club has again declined to take the progressive step necessary to employ an all time secretary and to take the club's business to a more active plane.

J. D. Dobbins, chairman of the committee appointed at the beginning of the present period, said that he did not believe the funds could be raised and an adverse report was made and the committee discharged. The club will continue under the present management indefinitely.

Below will be found a limited mention of activities as handed out by the secretary.

Unfinished business was stressed at the Commercial Club meeting Monday night. A number of committees that had been out for several weeks made report of progress and were continued or discharged, thus clearing up all business that was in arrears.

T. S. Henderson, Jr., for the tick eradication committee asked for further time, which was granted.

J. D. Dobbins for the full time secretary committee made an adverse report and the committee was discharged.

Financing committee for dairy cattle was granted further time.

On motion by J. B. White, the program of the airport promoters was indorsed and the chair was authorized to appoint a committee to co-operate with them.

J. C. Tucker advocated the formation of Pure Bred Bull circles as the best aid to the dairy movement.

Geo. Banzhaf indorsed this statement saying that the Thorndale Commercial Club had already helped to form three such circles.

Mr. Henderson suggested that landlords ought to be encouraged to furnish tenants purebred stock on shares.

Mr. Tucker moved that the president and secretary with Mr. Reese, arrange an itinerary of dairy meetings with other Commercial Clubs, with four or five members attending. The president named a committee.

Those present at the meeting were C. S. Peyton, J. D. Dobbins, J. C. Tucker, W. R. Hoover, F. S. Lesovsky, Geo. T. Graves, W. H. Shipp, J. B. White, Geo. Banzhaf, T. A. Fisher, J. E. Mangum, Rev. E. S. Hutcherson, Moulton Cobb, Dan Collins and W. M. Cobb.

MAYSFIELD

(Left over from last week)

Miss Nell Massengale of the Cameron Hospital, spent Sunday night with her parents, Mr. and Mrs. Alfred Massengale.

Warren and Valter White with their sister, Miss Mary, were entertained in the home of Mr. and Mrs. Cooper Monday evening by Mr. Griffin who gave them some splendid music on the violin.

Mrs. V. L. White, Mr. and Mrs. H. W. Massengale, Herbert Massengale, Messrs. Valter, Ralph and Neville White attended the show "King of Kings," in Calvert Friday night.

The following young people enjoyed

a trip to the skating rink at Hearne last Tuesday night: Misses Mary White, Mildred and Mary Ethel Massengale, Mary Randolph and Mrs. P. Porter; Messrs. Valter White, Robert Massengale, Warren White, Seth and Troy Cooper, LeRoy Massengale and Paul Porter.

Miss Bertha and brother, Elmer Floyd and Miss Ada Lee Massengale motored to Buckholts Sunday, taking Miss Oleta Elliott home, she having spent the week end with Miss Floyd.

Mr. and Mrs. Roy Yates and little daughter, Rosemary, and Mrs. Porter of Branchville enjoyed the picture "King of Kings" at Calvert Friday night.

Mr. and Mrs. Herbert Massengale and family were Sunday dinner guests in the home of Mrs. V. L. White.

Mr. and Mrs. Webb Todd of Chicago, Ill., are visiting her father, Chas. Butts.

Miss Mary Ethel Massengale, a student in high school at Cameron spent the week end with her parents, Mr. and Mrs. Herbert Massengale.

Miss Nell Red failed to attend school Tuesday on account of illness.

Mrs. Robbins, County Superintendent visited the Maysfield school the the Mexican school located on Jim Barmore's plantation, taught by Miss Lorene McMillan of Houston, Tuesday.

The Presbyterian ladies of Maysfield met in the home of Mrs. J. L. Yeager Tuesday afternoon with eight members present. Mesdames J. L. Yeager, R. B. Mayes, Roy Newton, E. G. Newton, Hartsfield, Ernest Kelso, Hubert and R. L. Nicholson were present. The society is glad to welcome

Mrs. Hartsfield back into its midst, she having lived here formerly when she was a faithful church worker. The president not being present, the vice-president presided, the meeting opening with sentence prayers and Scripture reading. Officers were elected and plans for the year's work were discussed. The business session closed with the Lord's prayer repeated in concert, after which a pleasant social hour followed, during which the hostess served delicious fruit and candy. The next meeting will be in the home of Mrs. Roy Newton on Wednesday, Feb. 13th, this also being Mrs. Newton's birthday.

Federation Societies Hold Meeting Here

The Cameron Federation of Missionary Societies met in quarterly session at the Christian church Tuesday afternoon at 3:30 o'clock. The president Mrs. J. P. Love, called the meeting to order and asked Mrs. Graham Gillis, superintendent of prayer, to conduct the devotional, which was on the subject of worship. The hymn, "O Worship the King," was sung by the group after which Mrs. Gillis read the 63rd Psalm and this was followed by a prayer.

Miss Lorene Wade sang as a solo "My Task." She was accompanied by Miss Grace Eplen.

Mrs. Charles Pollard acted as secretary in the absence of Mrs. John A. Green. Reports from the various committees were given during the business session, and the matter of the World Day of Prayer, which is to be observed on February 15, was discussed.

The remainder of the time was devoted to a round table discussion concerning the problems of the Federation, with Mrs. W. O. Triggs acting as chairman.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 13th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the

District Court of Milam County, Texas.

(continued from first page, this sec.) meeting held in Fort Worth yesterday in which the capital stock of the company was increased to \$1,250,000 and several of the best known oil men and business men of Texas were added to the already strong personnel of the ownership and management. The capital stock heretofore has been \$100,000.

C. A. Middleton of Corsicana, of the Kent-Middleton Refinery interests, who with John S. Owens and E. T. Green organized the Central Texas, will continue as president and general manager of the company. General headquarters will be in Corsicana and western division headquarters will be maintained in Brownwood.

New Properties

In addition to its Brownwood and Brown county holdings, which are being extended, the company by the reorganization and expansion has acquired 160 producing wells in the Corsicana and Minerva fields, 150 additional miles of pipe line, a 5000 barrel refinery at Angus, six miles south of Corsicana, a 3000 barrel refinery at Minerva, numerous trucks, several filling stations and other properties.

An appraisal of the properties made by the engineers of the L. E. Cahill company of Tulsa places the value of the holdings of the concern now at \$1,600,000.

The Personnel

The following directors are added to the company: E. L. Smith, of Mexia, head of the E. L. Smith Oil Company; John Calhoun of Corsicana; Frank Lemon, Corsicana; R. L. Wheelock, I. N. Cerf and W. C. Strouble, Corsicana; Harry Reynolds of Cisco, secretary and treasurer and general manager of the Cranfill & Reynolds Company, Lawrence Treadwell, Corsicana, and Mrs. John S. Owens of Brownwood. All the former directors remain on the board. They are: C. A. Middleton, Corsicana; E. T. Green, Sherwood B. Owens, J. H. Edwards and George P. Mann, Brownwood.

The officers of the company are: C. A. Middleton, president and general manager; Sherwood B. Owens, of Brownwood, vice president and assistant general manager; E. T. Green, vice president in charge of production of the western division; John Calhoun vice president and director of sales; Frank Lemon, secretary; I. N. Cerf, president of the State National Bank of Corsicana, treasurer.

The new organization will become effective February 1.

Cedar Creek Well

(continued from first page, this sec.) create wide interest because seemingly off the pre-conceived lines of pay as determined by geological research.

However, the wildcatter has been the one big producer in the history of the oil business. To them goes the credit for some of the greatest discoveries in history notwithstanding the fact they flew in the face of geology.

The Cedar Creek well is about 12 miles southeast of the old Posey well that had a strong showing of both gas and oil. It is some miles away from the deep test drilled on the H. F. Smith tract some months ago. It is well within the defined territory of possibilities and will be watched with interest.

It is certain that men of the experience noted in connection with this development, have high hopes of discovery or their undertaking would not be so well planned and elaborate. This well marks the opening of another active drilling area in Milam county.

other active drilling area in Milam county.

The Herald will present in the next issue a detailed description of this property together with as much information as can be gathered from the operators.

Posey Well

(continued from first page, this sec.) er a natural gas franchise for Cameron.

This photo is republished in connection with interest that is now being shown in the blocking of acreage for a test in the Milano section. Other wells have been drilled in this section of the county with the uniform result. Renewed activity in this and other sections of the county gives rise to a wide interest in the structures of this section.

The Posey No. 1 was a freak and has never been quite satisfactorily explained even to oil men. The showing in this well led the oil fraternity to expect much from this tract of acreage. Hope has not yet been fully abandoned for production and natural gas in paying quantities is assured here. The well blew in heavily as the people were about the barbecue tables, a roar and a column of oil and gas and water shot above the big

derrick. This photo has no especial bearing in the development work now under way in this county but is published because of the keen interest manifested at the time.

Cameron Boy Now With Standard Oil In South America

Stuart Epperson, son of Dr. and Mrs. A. S. Epperson of Cameron is now in Venezuela with the Standard Oil Company. He is making rapid progress in the science of the Seismos and other inventions used in higher geology and is now operating one of the instruments for the company.

His first contact with the Seismos was at Taylor some years ago when Dr. Menthrop, inventor and other German men of science first tested this instrument on structure there. From this experience he developed interest for the work and now has a place of responsibility with the Standard.

STATE OF TEXAS

To the Sheriff or any Constable of Milam County,—Greeting.

You are hereby commanded to summon Jim Terry by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper

published in your county, to appear at the next regular term of the District Court of Milam county, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March, 1929 then and there to answer the First Amended Original petition filed in said court on the 30th day of January 1929, in a suit, numbered on the docket of said court No. 10,133, wherein A. H. Baskin, A. J. Lewis, and W. A. Morrison are plaintiffs and Ford Terry, Charlie Terry, Marshall Terry, John Terry, L. L. Terry, Homer Terry, Cage Terry, Claude Gray, Joe Gray, Essie Gray, Daisie Gray, Sam Bailey, Jessie Bailey, and Jim Terry and First National Bank of Cameron are defendants.

Said petition alleging:

That this suit is for partition and that plaintiffs are the joint owners with the defendants in certain 3 tracts of land containing 200 acres in the aggregate, situated in Milam county, Texas, about 7 miles East of Cameron, at Belmena School House, out of the J. K. Tyler League as said 3 tracts of land are fully described in the judgment of the District Court of Milam county, Texas, in cause No. 7202, dated May 26, 1916, and of record in the Civil Minutes of said Court in Vol. H, page 410 et seq., and also described in defendants' answer herein and to

which descriptions reference is here made.

Plaintiffs charge that W. A. Morrison owns 40.9 acres plaintiff A. J. Lewis 13.63 acres and the plaintiff A. H. Baskin 18.18 acres and that the defendants John Terry, Cage Terry, Luther Terry, Charlie Terry, and Marshall Terry each own 9.09 acres and defendants Claude Gray and his three children, Essie Gray, Daisie Gray and Joe Gray, own jointly 9.09 acres, and that the defendants Ford Terry, Homer Terry, Jessie Terry Bailey and Jim Terry each own 18.18 acres and that said parties, plaintiffs and defendants own all of said 200 acres of land in the amounts and proportions stated above, and that said land is incapable of partition and should be sold for partition, and that the defendants have converted all of the rents to their own use, and that plaintiffs pray for a lien on said defendants' interest to secure plaintiffs' portions of said rents, and that defendant First National Bank of Cameron claims a lien on the portion of said land belonging to defendant Jim Terry, and that it be required to set up such interest in this suit or be declared to have none.

Plaintiffs pray for a partition of said land, for rents, for an accounting and for the appointment of a receiver, for the sale of said land for partition and for general relief.

Herein fail not, but have before said

court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of January A. D. 1929.

Penn Wolf, Clerk,
41-4tc Dist. Court, Milam Co., Texas

Yesterday

the small isolated power plant was fairly capable of serving the simple needs for electric service. The use of electricity were few. It had not then assumed the importance in daily life which it now holds.

To day

the isolated power plant is not capable of meeting the modern demand for electric service. Great generating stations produce electric power which is transmitted over high tension power lines for many miles, thus making possible metropolitan electric service in the smallest towns. The Texas Power & Light Company pioneered this type of electric power in Texas and is now its leading producer.

the PURPOSE of the Texas Power & Light Company as a Texas Institution

Display of Millinery
Ready-to-Wear and
Accessories at her

Residence Shop

Tuesday
February 12

While Texas produces almost 50% of the Pecans grown in the United States, you will find Pecans from many other sections on sale in Texas stores which do not feature Texas pecans. It is possible to produce much new wealth in Texas by proper marketing of Pecans.

The Texas Power & Light Company was established sixteen years ago for the purpose of rendering electric service to Texas cities and towns.

It was evident, even sixteen years ago, that isolated power plants would not be able to supply the rapidly multiplying needs of Texas people for electric service.

After long study and experiment the engineers of the Texas Power & Light Company, together with other leading electrical engineers throughout the world, found that electric energy could be transmitted over high tension power lines for great distances from large generating stations, thus making possible a metropolitan type of electric service for smaller communities.

From that day until this it has been the purpose of this Company to render an electric service adequate to the needs of Texas people, in order that any user in any community served could at any time of the day or night, press an electric

button and receive instant, dependable electric service at a reasonable cost.

Revolutionary changes have been made in the methods of generating and distributing electric power. Changes are rapid, so rapid, even now, that equipment which is the last word today will be obsolete tomorrow. Electric service has become so inseparably a part of our daily life that it would be impossible for us to move through a day without its aid. The tremendous burden of responsibility which is thus thrown upon the Texas Power & Light Company is borne with true American efficiency.

Through all the changes within its own industry, through poor years and good, through prosperity and depression, into this present era of stabilized and sound development, the Texas Power & Light Company has held unwaveringly to its great purpose. As a result those Texas cities and towns served by this Company have unrivalled electric service.

TEXAS POWER & LIGHT COMPANY.

It is pleasant to think, just under the snow,
That stretches so bleak and blank and cold
Are beauty and warmth that we can
not know,
Green fields and leaves and blossoms
of gold.—Hempstead.

We find plenty of people who are insane over making money. There are thousands of folks who are bug-house over the idea of getting into higher saw-ciety and the lime light. Then quite a sprinkling—a heap too many—are religious fanatics and crazy infidels. The army of lunatics over love is immense. Everybody (except you and I) are a little cracked on some subject.

A group of scientists come to Texas to look for three toed horses said to have existed on this hemisphere some five or six million years ago. At Cameron as well as elsewhere in Texas as bones of pre-historic animals have been unearthed. Texas is young, the geologist tells us, in fact too young to give much evidence of what lives underneath its surface. This is especially true of the southern part. The theologian has figured out and put on the margins of the Bibles that the earth is only six thousand years old. One of the really startling things is to learn that this portion of the earth is really young, five or six million years not having been a sufficient lapse of time to make geology anything like a certainty.

February 12 is the birth date of Abraham Lincoln of whom E. G. Wells says is one of the seven greatest men of the race. Unfortunately men are emphasized in times of great national stress. Lincoln knew the Civil War, Woodrow Wilson the World War. The sword has been the measure of greatness says the verdict of history but the future will discard it. Here is a letter Lincoln wrote to a mother who gave five sons to die for the country:

Dear Madam: "I have been shown in the files of the War Department a statement of the Adjutant-General of Massachusetts, that you are the mother of five sons who have died gloriously on the field of battle. I feel how weak and fruitless must be any words of mine which should attempt to beguile you from the grief of a loss so overwhelming. But I can not refrain from tendering to you the consolation that may be found in the thanks of the Republic they died to save. I pray that our Heavenly Father may assuage the anguish of your bereavement, and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom.—Abraham Lincoln.

"Under the spreading chestnut tree," nearly every reader of these lines can remember when the blacksmith shop was the nucleus of the town. But the town progressed—the candles gave way to oil lamps and the oil lamps to electric lights, the garage and the filling station came in place of the blacksmith shop and the livery stable and the town moved up into the class of a modern city with pavement water and sewer and the things that go to make a modern American city.

All this did not just happen. It came about because there existed in the community a desire for something better—for more comforts, for progress and development. The present age demands even more development if Cameron is to hold its place and keep pace with the cities about us. It demands greater co-operation and concentration of effort and resource. Towns can no longer drift with the tide. They must make an aggressive fight against the current that would drag them down to the commonplace level.

Cameron has the energy, and the resource to make of herself anything she desires. Let's unite and work and plan and study for a better and a bigger Cameron.

Urge Revival of Band As Committee Pleads For Voted Funds

The committee on taxation of the city council has under advisement the request of the Chamber of Commerce committee for a municipal band.

The committee named by President C. S. Peyton on request of the club Monday night met with the council on Tuesday night.

The city some years ago voted a 10c band and park tax. When the municipal band ceased its work three years ago the tax was diverted to payment of park indebtedness.

The committee went to the council following the action of the club Monday night.

Mr. Devers, former resident here, now director of the band at Ennis, has made application for the place as director of the local band. Mr. Devers has taken three state prizes in succession with his band.

The club believes the tax should be used for the band or should not be levied against the property owners.

SCOUT TROOPS PROGRAM AT THE K. OF C. HALL

ANNIVERSARY WEEK TO BE CELEBRATED BY ALL TROOPS PUBLIC IS INVITED

During the week of February 8th to 14th 1929, the Boy Scouts of America will celebrate their 19th birthday. A basic principle in the National Character of the observance of this week. At this time, Scouts from the poorest village to the biggest city, from East to West, North to South, will be united at this time in celebrating the birthday of Scouting in America.

In emphasizing the idea of this great world brotherhood of boys, on Friday evening at 7:30 Troop one under the leadership of Joe Matula, Troop 39 under the leadership of Larry Hackabeil and the Scout Executive Committee will be the guests of Troop 52 in the Knights of Columbus Hall under the leadership of Joe Lindle, S. M.; Frank J. Hanel and Pete Mikula, Assistants, a short program has been arranged for the occasion. At 8:15 P. M., these Scouts as well as Scouts all over the whole United States will stand at attention and renew their obligations to the Scout oath and law.

A solemn and touching thought that on this night 600,000 young boys together with 200,000 unselfish men, who are giving of their time to Scouting, will re-dedicate themselves to those ideals on which the Scout program is based.

On Saturday the boys will be given an opportunity for an all day camp and hike, conducted by Chas. Pollard. On Sunday afternoon at 3:30 p. m., there will be an anniversary program at the Yoe High School auditorium.

Exhibit at Lyons
The public is urgently requested to pause for a few moments at Lyons Dry Goods Store show window and observe the Scout exhibit which will be on display Friday night, Saturday and Sunday.

A few moments of time will greatly encourage these boys to greater deeds.

On Friday evening February 15 there will be a Court of Honor at the Yoe High school at which time the scouts will be awarded with badges, according to their advancement. The public is requested to attend.

MATULA CASH GROCERY IS WELL PATRONIZED

FIRST DAY OF OPERATION BEAT CREDIT STORE DAYS SAYS FELIX MATULA

The New Cash Grocery of Felix Matula and Company, was opened for business last Saturday. Despite weather conditions the business of the store was much better than on clear days under the credit system, said Mr. Matula in discussing the opening day.

"While the weather conditions Saturday were unfavorable, we are more than satisfied with the volume of business given us on opening day and the succeeding days of this cash store. We are offering some wonderful grocery prices this week again as our advertising will show."

Mr. Matula has been in business here for a number of years and his store is well known. In changing the store from the credit to the cash system he is able to eliminate credit losses and expense of bookkeeping and delivery charges. Grocery buyers will be interested in the prices offered by Mr. Matula this week.

Mack L. Harvey Weds Miss Patterson In Dallas On Tuesday

News was received in Cameron late Wednesday of the marriage in Dallas on Tuesday of Mack L. Harvey, formerly of Cameron, and Miss Patterson of Dallas. They will make their home in Dallas according to information received here. Mr. Harvey is in the insurance business in Dallas, formerly lived here and is well known.

PACKARD SHOES FOR MEN AT CHEEVES BROS. STORE

Sam Cheeves, enterprising young business man with the Cheeves Bros. Store, has an announcement of interest in this issue of The Herald. The Cheeves Bros. Store has recently stocked a large and complete line of Packard shoes for men and young men.

Some special values are offered on these shoes. All new fresh stock and for men and young men in all walks of life.

To Mark Site of Early Missions In Milam County; Ruins are Found Near Gause By Spanish Priest

Mission ruins recently said to have been discovered near Gause in Milam County linking early Texas history with the coming of the Franciscan Friars in the 17th and 18th centuries are to be marked by erecting a monument of native stone by the Yoe High School History Club under Miss Mary Lake Henderson, history teacher.

These ruins are of recent discovery. Ruins near San Gabriel have been known to explore for a number of years, with still other historic spots where missions were erected, unknown.

Cameron people read with interest a recent published report of Rev. Gabriel Tous of Waco, who made the discovery near Gause on information he brought with him from Spain some years ago.

This mission known as Our Lady of Sorrows, erected in 1771, is said to be the first of three missions erected in the territory now known as Milam

county. Documents brought here from Seville, Spain, by Father Tous, leads him to believe that the Mission La Defonso was located on Little River. The third mission, Our Lady of the Candles, is still a mystery.

Legends among people of the Spanish tongue who have lived in the Gause country for many years, coupled with documents have lead to almost a certain location of the mission there. Aged walls now covered with earth and timber growth have been found there.

The History Club plans to mark all the historic spots in Milam county.

1200 POUNDS OF MILK FIRST DAY REPORTED

MILK PRODUCTS PLANT GETS AWAY TO GOOD START ON FEBRUARY FIRST

Weather conditions failed to arrest the enthusiasm of dairy farmers and the American Milk Products Company received 1200 pounds of milk on opening day.

Information discloses that in the opening day of the big plant at Marshall recently only 800 pounds of milk was received on opening day.

The opening of the plant here on last Friday was well advertised with both Cameron papers printing special editions to carry the benefits of dairy farming to the people.

With the opening of the plant the city was served with Pasteurized milk and the first batch of cheese was made Monday afternoon, a most unusual sight witnessed by a number of Cameron people.

With the coming of spring and peak season the plant managers believe that the dairymen will bring the average daily sale of milk to at least 10,000 pounds.

The price of 53c per pound for butter fat is a commanding price. It is said that the price will be a fair schedule set by this plant for time to come.

With the opening of the plant Cameron received the first definite income from dairy cows on a commercial scale and it is believed that prosperity will soon come to the farms that own cows and sell milk.

TEMPEST AND SUNSHINE BY LITTLE THEATER

VETERANS OF LOCAL STAGE UNDER JOE LINDLE OFFER SOUTHERN PLAY FEB. 11

"The Little Theatre" presents a four act Southern drama, "Tempest and Sunshine" Monday evening, February 11, 1929 in the Knights of Columbus Hall.

The play talent is under the direction of Joe Lindle who has staged a number of successful local talent plays. On account of the familiar story by Mary J. Holmes the play will draw a big crowd. The following are the characters:

Tempest, Mrs. Joe Lindle.
Sunshine, Francis Kuhn.
Joshua Middleton, Bill Richter.
Richard Wilmont, Pete Mikula.
Mammy Sue, Faty Turner.
Bobaway, Alfred Ondrej.
Hugh Stanton, Pete Kunz.
Joseph Dunn, Vince Matula.
The story, Tempest and Sunshine, has been read by countless thousands of readers and today, interest and (continued on page 6)

WESTERN UNION OPENS ATLANTIC CABLE BETWEEN NEWFOUNDLAND AND AZORES FOR COMMERCIAL TRAFFIC WEDNESDAY

Simultaneously with the announcement made today by the Cameron office of the Western Union that the newest Western Union trans-Atlantic cable between Newfoundland and the Azores has been opened for commercial traffic effective February 5, Newcomb Carlton, president of the Western Union Telegraph Company, said, "The fact that the cable traffic showed an increase of 11 per cent for 1928 as compared with 1927, and that a further increase was anticipated when the decision was reached to lay the new cable to the Azores is one of the principal reasons for this new communication link. Also, this link be-

tween Newfoundland and the Azores was made desirable by a substantial surplus of cable capacity that has existed for some time between the Azores and Germany, Spain, Italy and Africa. This new Western Union cable to the Azores permits of the utilization of this surplus capacity, speeds up communication with the affected countries and provided the necessary flexibility for development of additional traffic."

Mr. Carlton also stated that he expected a substantial increase in the international business through the extension of the conventional night letter as an overseas service.

DRILLING RESUMED ON JOHNSON TEST WELL

INTEREST CENTERS ON LEASE AND ROYALTY CONTRACTS BEING MADE

(Thorndale Champion)

Michalka and Clark, promoters of the Johnson test well being drilled on the W. T. Johnson farm, four miles north of Thorndale, will resume operations on the test today, Thursday January 24th, following several weeks of inactivity during which time they have been busy overcoming some legal technicalities of their lease holdings, however, we understand that these are in shape and the work now will be pushed to completion at an early date.

Much interest continues to center on leases and royalty, both within close range of the test and considerable distance from the well in what is considered "new territory." Leasing has spread to a distance of 6 and 7 miles from the well, bringing all the way from \$3 to \$5 an acre, depending on the direction. That confidence has not waned in the outcome of the test was demonstrated this week when W. O. Ellison sold royalty of 1-16 off of 19 acres of his mesquite pasture, about 1-2 mile of the well for \$50 an acre, which is on the basis of \$100 an acre royalty. W. T. Johnson also consummated a deal this week whereby he sold a .64 royalty on forty acres near the well for \$35 an acre. Many other deals were made during the week, however, they seemed to be of a confidential nature.

Scouts of the major operators who come and go, without making their identity or connections known, are said to be watching very closely the activities of the test which continues to run a slow steady stream of oil from around the drill stem.

The Champion is informed by reliable authority that considerable leasing is being done in the Sharp neighborhood, about ten or twelve miles northeast of the local test, preparatory to putting down a test well in the vicinity.

Jack Hearrell Given Treatment for Badly Cut Foot in Accident

Jack Hearrell of Cameron was painfully injured near Austin Monday while working with a crew of men running a high line for the Texas Power and Light Company.

An axe wielded by one of his fellow workmen missed a tree limb and cut his foot. He was taken to the Seaton hospital in Austin where he was given treatment.

Jack was having some brush cleared away for surveying instruments when the accident occurred. He is in charge of a crew of men building a high line out of Austin for the Texas Power and Light Company.

ELMO VAUGHN CONTINUES BIG CLEARANCE SALE

Elmo Vaughn Dry Goods Company in a special announcement in this issue continues the big clearance sale of goods. In this sale Mr. Vaughn has made some remarkable prices, in fact has placed merchandise in all lines of the store on sale at actual invoice cost.

"I believe in telling the truth always," said Mr. Vaughn. "When I put on a sale I mark all my goods down and stand behind my ads. I do not mark some down and some up, but believe in a real sale when I have one. We have some lines of goods that are to be closed out and we have many items left all over the store that are going at cost in this sale."

LYON HOSE AND SHOE SALE OFFERS BARGAINS

Lyon Dry Goods Company this week announces a sale on Hose and Shoes. This announcement will be received with interest by the people at large. Mr. Lyon is a live wire, able merchant and believes in advertising his goods.

Mr. Lyon came to Cameron about two years ago and began business here. He has made many friends and his store is a popular place to trade.

Would Mark Streets Club Here Urges

Cameron streets should be marked according to sentiment expressed Monday night at the meeting of the Chamber of Commerce. The matter was discussed at length, being presented by E. S. Hutcherson and W. R. Hoover. A motion was carried to appoint a committee to confer with the city council with the view of asking the council to do this important work.

The council has at various times discussed this matter and it is believed the council will be favorable to the work at this time.

E. VOGELSANG, SR. IS BURIED AT BURLINGTON

CONFEDERATE VETERAN AND TEXAS PIONEER DIES AT AGE OF 91 YEARS

Funeral services for Earnest Vogelsang, Sr., 91, aged Confederate veteran and Texas pioneer, were held Thursday afternoon, January 31, 1929, at the residence of Mrs. F. Vogelsang at Burlington. Mr. Vogelsang died at his home three miles east of Burlington at seven o'clock Wednesday morning, January 30, 1929.

Rev. R. Kalkbrenner of the Env. Lutheran church, conducted the services which were held at 2 p. m., with interment in the Burlington cemetery.

Mr. Vogelsang, Sr., was a widely known pioneer and had seen much of history in the making in Texas. The funeral arrangements were directed by Green Brothers. The following were pallbearers: F. Ohlenbusch, John Stoebner, Fred Fricke, W. Kuhn, Arthur Challott and Erward Schuetze.

Earnest Vogelsang, Sr., was the son of J. A. and Meta Vogelsang, pioneer Texas settlers. He was born December 15, 1837 in Oldenburg, Germany, and on December 15, 1928 was 91 years of age. He came to Texas with his father's family in 1850, settling on a farm in Austin county.

He led an active life and being a man of great industry he was prosperous. In 1883 associated with his brother, Fritz Vogelsang, they purchased 5000 acres of land east of Ben Arnold and Burlington in Milam county and moved their families on this vast acreage.

Mr. Vogelsang in 1886 was married to Miss Marie Wilkens. To them 3 sons were born, two dying in infancy, the other, Fritz, Jr., living until two years ago.

As one of the gallant men of the South believing in the cause he followed the fortunes of his state and entered the Confederate army where he served with distinction and bravery. After the war he returned to his home in Washington county where he took up his duties as a citizen and along with other pioneer spirits gave to his state and community a devotion few men have shown. He served his county as county commissioner for a number of terms and also served as Justice of Peace in his district in Austin county.

The father, J. A. Vogelsang, having taken out final citizenship papers in 1855, the son Earnest, automatically became a citizen of America.

Mr. Vogelsang was a man of great hardihood and led an active life of work and supervision of his property. Until a few days before his death he was active in duties about his home.

Another name has been stricken from the ever lessening roll of pioneers, ever lessening roll of the pioneers. Earnest Vogelsang Sr., now belongs to the ages. His life is written large upon traditions of his beloved South and his state and community. Men will revere his memory for his good deeds and his example of good citizenship, his loyalty to country and to his loved ones.

He is survived by his widow, daughter-in-law, Mrs. F. Vogelsang, Jr., and four grand children, Erwin, Egon, Monroe and Irene Vogelsang.

The sympathy of the people of the community in which he lived and those of the county at large is extended to the bereaved family and friends.

Discuss Plans For Tick Eradication In Milam County

Although no definite action has been taken by the Commissioners' Court toward tick eradication work, the committee from the Chamber of Commerce, were able to report proceedings of a meeting held here Monday with a number of livestock sanitary commission men and inspectors. Plans for the work were discussed in the office of T. S. Henderson, Jr., chairman of the committee with Raymond Beard, Milam inspector in attendance.

Dr. R. F. Krenke of the federal bureau of animal industry, was present for the discussion. R. B. Dennis, with the federal bureau and in charge of work in Bell and Falls counties and T. N. Cross of Lee county, were present for the conference.

Mr. Dennis said that 95 per cent of Bell county is free and Falls county has been released.

Dr. Krenke has been in charge of work in Lavaca county and is now working in Lee and Burleson counties.

The question of tick eradication is vital at this time as shipment of dairy cattle is hindered by the infested territory, as well as movement of all other livestock.

For One Week Beginning February 7th

I WILL MAKE SPECIAL REDUCED PRICES ON REFINISHING YOUR OLD FURNITURE IN LAQUER OR VARNISH.

All work is done by the modern spray method which assures you the finest finish.

With this improved method you can have practically the same finish that you get in new furniture.

There are some thirty colors to select from. These colors shaded properly make your furniture very attractive.

Wicker furniture and breakfast suites can be refinished at a very reasonable cost.

I will be glad to call at your home and make you prices on anything that you care to figure on refinishing.

IN THE COURT

The final account of L. T. Lewis, guardian of the Estate of Faure Mar-burger was examined and approved and guardian was directed to turn over to ward the estate in his hands be-longing to ward. And upon filing and recording written release from ward to guardian, guardian and his bond will be released and estate closed.
Bettie Washington was appointed temporary guardian of the estate of Julia Lee Washington.
The will of Mrs. Lizzie A. Triggs deceased was admitted to probate. W. H. Triggs was appointed Independent Executor without bond. W. S. Lam-kin, Geo. T. Graves and J. G. Davis were appointed appraisers.
The will of Lou Foster, deceased, was admitted to probate. Y. A. Gjedde was appointed executor. Bond was fixed at \$3000. H. G. Perry, E. B. Phillips and L. H. Hillyer were ap-pointed appraisers.
Jno. Bush was appointed guardian of the person and estate of Lafete Bush et al.
Lola White was appointed tempo-rary guardian of the estates of Flor-ence, Gertrude, John, Minnie, Tommy, Louise, Harry, Eula Mae, Harding, Nadine, Robert and Melvin White. J. L. White, L. W. Raley and L. J. White were appointed appraisers.

TREBLE CLEF CLUB MEETS WITH MISS SLAUGHTER

The Treble Clef Club met in regu-lar session Monday afternoon at four o'clock at the home of Euline Sla-

ughter. A short business session was held, after which the meeting was turned over to the program commit-tee.

Foldine Rylander gave two read-ings, "At the Beach" and "On the Golf Links," and Geraldine Slaughter rendered a piano solo. Impromptu numbers were songs by Inez Evans, Dora Emily Moore, and Helen Blay-lock with Geraldine Slaughter accom-panying.

The hostess served sandwiches, pick-les, olives, fruit cake and hot choco-late. Plate favors were dainty valen-tines on the back of which were writ-ten the occasion, the date and the name of the hostess.

Little Inez Slaughter, young daugh-ter of Mr. and Mrs. Lester Slaugh-ter, favored the members with vocal selections after the service.
The club will meet next with GERALDINE SLAUGHTER on February 18.

FORTY-TWO CLUB

Mrs. John Mangum was hostess to the Forty-Two club in a special meet-ing last Thursday afternoon, when she used spring flowers as a pleasing note of decoration.

Four tables of players assembled for the games, including the following guests, Mesdames R. D. Brown, Geo. Graves, James Watson and John Watson, all of whom were members of the original Forty-Two Club and have re-signed.

Mrs. Mangum served a salad plate and hot tea. Table favors, which were green candy jars filled with home-made candy, were successfully cut by Miss Clara Thomas, Mrs. Jim Watson, Mrs. George Graves and Mrs. R. J. Long.

Surely Not

Cohen of Cohen & Kahn, entered their office one morning recently with a very long face.

"Vot's the mattah, Reuben," asked Kahn.

"Mattah enough," wailed Cohen. "My wife she has run away mit another man in my car."

"Mein Gott, Reuben," exclaimed Kahn, "you don't mean your new car."

Lesson for February 17

PRAYER

LESSON TEXT—Matt. 6:5-13; Luke 11:9-14; 1 John 5:14, 15.

GOLDEN TEXT—If ye abide in me, and my words abide in you, ask whatsoever ye will, and it shall be done unto you.

PRIMARY TOPIC—Talking With God.

JUNIOR TOPIC—Talking With God.

INTERMEDIATE AND SENIOR TOPIC—Why Should We Pray?

YOUNG PEOPLE AND ADULT TOPIC—The Christian's Prayer Life.

I. False Prayer (Matt. 6:5-7).

This consists in

1. Praying to be seen and heard of men (v. 5). Many prayers uttered in a public sanctuary are false for there is more consideration given to what the people think than to what God thinks.

2. In using vain repetitions (vv. 7, 8).

This does not mean that we should ask but once for the thing desired, for we have examples of both Christ and Paul praying three times for the same thing (Matt. 26:39-46, II Cor. 12:7, 8), but rather, it means the use of meaningless repetitions.

II. True Prayer (Matt. 6:6).

Since true prayer is a definite transaction of the soul with God, the communion of the human personality with the divine personality, there should be a real desire for fellowship with God, and then a going to Him in secret. God will abundantly reward those who thus seek His fellowship. We should have our closet prayers when all the world and its cares and pleasures are shut out, and we are shut in with God. We should meet with God's children and pray together.

III. The Model Prayer (Matt. 6:9-13).

1. A right relationship (v. 9) "Our Father."

Only those who have become children of God by faith in Jesus Christ can pray aright (Gal. 3:26). One must be a child of God before he can have communion with God.

2. A right attitude (vv. 9, 10) "Hallowed be Thy name."

When one realizes that he has been delivered from the power of darkness and translated into the kingdom of His dear Son (Col. 1:13), he cannot help pouring out his soul in gratitude and praise, intensely longing for the righteous rule of Christ on earth.

3. A right spirit (vv. 11-13).

(1) That of faith, which looks to God for the supply of daily bread. We are dependent upon Him for our daily food.

(2) That of love, which results in forgiveness of others. God will not listen to the prayers of one who has an unforgiving spirit.

(3) That of holiness which moves one to pray not to be led into temptation, and longs to be delivered from the evil one.

IV. The Proper Attitude of Soul in Prayer (Luke 18:9-14).

This is illustrated in the prayer of the Pharisee in contrast with the prayer of the publican. Observe

1. The prayer of the proud Pharisee (vv. 9-12).

He took a striking attitude (v. 11). He was self-righteous and trusted in himself. He congratulated himself upon his morality. He thanked God that he was not as other men. He congratulated himself for his religious merits (v. 12). He fasted twice a week and gave tithes of all he possessed. He thus informed God that he did more than what was required, implying that God was under obligation to him.

2. The prayer of the humble publican (v. 13).

In striking contrast with the Pharisee, the publican was too ashamed of his sins to even lift his eyes to heaven. He beat upon his breast as a sign of soul anguish and cried out to God to be merciful to him, a sinner. Christ declared that the publican went away justified, rather than the Pharisee.

V. Confidence in Prayer (I John 5:14, 15).

1. Its basis (v. 13).

Only those who have knowledge of the reality of salvation can pray with confidence. If one has assurance that he is God's child and possesses eternal life, he will come into the presence of his Father with boldness.

2. The scope of his prayer (v. 14).

"Anything according to His will." The believer has a right to bring to God in prayer anything within the scope of the divine will.

3. The blessed issue of the believer's prayer (v. 15).

"We know that we have the petition that we desired of Him." God's children coming to Him for that which is included in His will can be assured of receiving the things needed.

False Security of the Wicked

And your covenant with death shall be disannulled, and your agreement with hell shall not stand: when the overflowing scourge shall pass through then ye shall be trodden down by it.—Isa. 28:18.

Faith

Out of suffering comes the serious mind; out of salvation, the grateful heart; out of endurance, fortitude; out of deliverance, faith.—Modern Painters (Ruskin).

MISS MARY BURNETT BECOMES BRIDE OF MR. CONN MOODY IN BEAUTIFUL HOME WEDDING HERE THURSDAY EVENING

The marriage of Miss Mary Burnett and Mr. Conn Moody was solemnized last Thursday evening at seven thirty o'clock at the home of the bride's mother, Mrs. Elizabeth Burnett, on East Thirteenth Street, with Rev. H. G. Kenney, the celebrant, using the ring ceremony.

The vows were said before an improvised altar, which was arranged under a colonaded archway between the living room and dining room. Ferns and palms were used as a background, and these were banked with wicker baskets filled with pink carnations and ferns and with pots of cypresses. Carnations were also used to advantage in wall brackets.

The wedding party entered heralded by Mrs. Thad Epperson who sang "At Dawning," accompanied by Miss Grace Eplen at the piano. When the music changed to Lohengrin's "Wedding March," Rev. Kenney took his place at the altar. He was followed by the bride and groom who entered together. During the service, Miss Eplen played "Simple Confession" very softly and at the end as the music swelled, the contracting parties left through the front door to go immediately on a wedding trip to Waco and Dallas.

The bride was becomingly gowned in navy blue ensemble with accessories of buff. She carried an arm bouquet of pink roses and baby's breath which she gave to her mother as she left. The groom wore a dark business suit.

Only immediate relatives and a few close friends of the contracting parties witnessed the ceremony. Out of town guests were a brother of the bride, Dr. S. H. Burnett and his wife and son of Corsicana and a sister-in-law, Mrs. B. T. Burnett, who lives near Cameron.

Mrs. Moody is a graduate of Yoe High school, and she also finished a business course at Tyler Commercial College. She was employed by the First National Bank for nine years prior to her marriage.

Mr. Moody also entered Tyler Commercial College after finishing high school, but was called home when war was declared and entered training at A. & M. College. He was also an employee of the First National Bank for ten years and it was here that the romance began. Mr. Moody is now in the automobile and oil business at Needville, where he and his bride will make their home.

Builders Class Holds Business Meeting In Monthly Session

The Builders Class of the Christian church had their regular monthly business meeting and social hour Tuesday evening with Miss Annie Wooley as hostess.

A short devotional was held first, and this was followed by the business session presided over by Mr. Raymond Beard, the president. The meeting was then turned over to Miss Wooley for the social.

Decorations were in keeping with the Valentine season as were also the games which the guests enjoyed.

The hostess served a salad plate. Guests for the evening were Mr. and Mrs. Inman and Mrs. Jefferies of Austin.

BUSINESS WOMEN TO MEET

The B. P. & W. Club will hold their regular monthly meeting Tuesday evening, February 12th at the home of Mrs. Bessie Hefley, at 7:30 o'clock.

Roll call will be answered by giving "My Favorite Hero in American History."

An interesting program has been worked out by the Year Book committee and a general good time is expected. Let all those who are in arrears in dues, come prepared to pay up. Those not having a way to attend phone Mrs. Cora Cammer for arrangements.

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by

means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to: Tyler, Texas, or to

Florence Atkinson In Celebration of Her Birthday Saturday

To celebrate her birthday, Miss Florence Atkinson entertained nine of her girl friends last Saturday evening at dinner, which was followed by a party to which boys were invited, when cards and dancing were diversions.

The dining table was centered with a birthday cake iced in white and bearing pink candles in pink rosebud holders. This was surrounded by large pink tapers in crystal holders, and the rosebud theme was further carried out in shades for the tapers. The cake was cut late in the evening after the boys had arrived, and was served with marshmallow pudding which was tinted in pink. Nut cups for the dinner were also in rose design.

Those enjoying the dual hospitality were Misses Lois and Ruby Robbins, Geraldine Slaughter, Eulene Slaughter, Sue Ella Tyson, Dora Emily Moore, Inez Evans, Gladys Davis and Helen Blaylock; Messrs. Kenneth Rogers, Herbert Freeman, Dean Allen, Gilbert McCollum, Oliver Newton, Robert Love, Matt Hitchcock and Thomas Graves.

YOUNG MATRON'S BRIDGE CLUB

Mrs. Stanton Dossett was hostess to three tables of players of the Young Matron's Bridge Club last Friday afternoon, using a valentine motif in decorations and appointments.

Mrs. Eber Flinn won high score award and received a brass fruit bowl and Mrs. Dan Collins, who made low score, was given a candy jar.

The hostess served a dainty dessert course. Table favors were heart shaped boxes filled with candies.

CHRISTIAN AID SOCIETY

The Missionary Society of the Christian church met with Mrs. Jim Adams Monday afternoon for a missionary lesson. Mrs. Eugene Wade was leader and she was assisted by Mrs. W. M. Ryan, Mrs. Martin Kilian, Mrs. Berry Caldwell and Mrs. J. C. Brashers.

After the lesson Mrs. Adams served a salad course and hot tea. There were three visitors, Mrs. Jefferies of Austin, Mrs. Fowler of Kansas and Mrs. Archie.

The ladies will meet next Monday afternoon at the church.

Improved Uniform International Sunday School Lesson

(By REV. F. R. FITZWATER, D.D., Dean Moody Bible Institute of Chicago.)
(S. 1524 Western Newspaper Union.)

Lesson for February 10

REPENTANCE AND FAITH

LESSON TEXT—Acts 2:32-33; Luke 15:11-24.

GOLDEN TEXT—Repent ye, and believe in the gospel.

PRIMARY TOPIC—A Boy Who Was Sorry.

JUNIOR TOPIC—A Boy Who Was Sorry.

INTERMEDIATE AND SENIOR TOPIC—Turning From Sin to God.

YOUNG PEOPLE AND ADULT TOPIC—The Way to Forgiveness.

I. Jesus is Lord and Christ (Acts 2:32-33).

In order to induce repentance and faith, Jesus must be presented as both Lord and Christ. The presentation of Jesus as even the unusual son of Joseph and Mary will not convict of sin. One reason for the vanishing sense of sin is the failure of ministers and Sunday School teachers to declare the Lordship and Messiahship of Jesus of Nazareth. Peter proved Jesus to be Lord and Christ by

1. The miracles which He wrought (Acts 2:22).

He performed before the very eyes of the people such mighty deeds as to demonstrate His Lordship.

2. His resurrection from the dead (Acts 2:24-32).

By His resurrection He was declared to be the Son of God with power (Rom. 1:4). His resurrection was attested to by many witnesses.

3. The outpouring of the Spirit (Acts 2:15-21).

Peter declared that the coming of the Spirit on Pentecost was the fulfillment of Joel's prophecy.

II. Repent and Believe the Gospel (Acts 2:37-39).

Peter's gospel message convicted the Jews of their sins. When they cried out, he commanded them to repent and be baptized. The evidence of their faith in Christ was manifested in their conviction of sin, and their penitence was shown in their confession of Christ in baptism.

III. The Forgiving God (Luke 15:11-24).

The center of things in this parable is not the prodigal son, nor his brother, but the "certain man who had two sons." This narrative is a most picturesque and dramatic portrayal of the history of man from his fall to his reconciliation with God.

1. The son's insubordination (v. 12).

He became tired of the restraints of home. His desire for freedom moved him wilfully to choose to leave home—to throw off the constraint of his father's rule. Sin is the desire to indulge selfish purposes, free from the restraint of rightful authority.

At the request of the son, the father "divided unto them his living." Man is a free being. God has committed unto man his own destiny.

2. The son's departure (v. 13).

Having made the fateful decision, he immediately sought the fulfillment of his cherished purpose. The son could not now endure the presence of his father, so he gathered all together and hastened away. When the sinner casts off allegiance to God, he takes all that he has with him.

3. The son's degeneration (vv. 13, 14).

He had a good time while his money lasted, but the end came quickly. From plenty in his father's house to destitution in a far country was a short journey.

4. The son's degradation (vv. 15, 16).

His money exhausted, he was driven to hire himself to a citizen to feed swine. It is ever so. Those who will not serve God are made slaves to the devil to do his bidding (Rom. 6:16). In his shame and disgrace he could not get necessary food.

5. The son's restoration (vv. 17-24).

(1) He came to himself (v. 17). Reflection made him conscious that though he had wronged his father and ruined himself, he was still his father's son.

(2) His resolution (v. 18).

Memory's picture of his home, where even the hired servants had a superabundance, moved him to make a decision to leave the far country and go home.

(3) His confession (vv. 18, 19).

He acknowledged that his sin was against heaven and his father, that he had forfeited his right to be called a son, and begged to be given a place as a hired servant.

(4) His action (v. 20).

Resolution does not avail unless accompanied with action. When the confession is genuine, action will follow.

(5) His reception by his father (vv. 20-24).

So anxious was he for him that he ran to meet him and fell upon his neck and kissed him.

Why Judge Thy Brother?

Why dost thou judge thy brother? or why dost thou set at naught thy brother? for we shall all stand before the judgment seat of Christ. For it is written, As I live, saith the Lord, every knee shall bow to me, and every tongue shall confess to God.—Rom. 14:10, 11.

Pledge of God's Pardon

Sunrise, says the philosopher, is a splendid pledge to me that God pardons.—The American Magazine.

Last Roman Republic Delphian Study For Thursday Session

Members of the Delphian chapter in a special session last Thursday studied the later Roman Republic, with Mrs. John A. Smith leading the lesson and Mrs. R. L. Batte presiding over the meeting. The general theme was "They Who Live by the Sword Shall Perish by the Sword." The resume of the last lesson was given by Miss Winnie Henderson and the preparatory discussion for the subject in hand, "Social Conditions at the End of the Roman Republic," by Mrs. Smith.

The following topics were reported on:

The Rival Nations, Mrs. E. A. Flinn
The Struggle for Sicily, Mrs. Batte
Hannibal, Greatest Strategist of Antiquity, Mrs. T. A. Fisher.

The Eclipse of Greek and Phoenician Power, Miss Winnie Henderson.

Civil Wars, Mrs. Clarence Freeman.

Pompey, Miss Rischard.

The First Triumvirate, Mrs. Frank Lesovsky.

Caesar's Career, Mrs. A. C. Freeman.

The End of the Republic, Mrs. Batte.

The Delphians met in regular session Tuesday afternoon with Mrs. Arthur Baskin leader. The program will appear in next week's issue of The Herald.

PRESBYTERIAN AUXILIARY

The ladies of the Presbyterian church had an all day meeting at the church Monday in order to have a review of the book, "The Desire of all Nations," which they have been studying. The meeting lasted from ten o'clock in the morning until 3:00 in the afternoon. Mrs. Judd Davis led the review and she was assisted by Mrs. Graham Gillis and Mrs. Ben Atkinson.

At noon, lunch was served by the circles. In the afternoon an interesting foreign mission program was heard. Special music was furnished by Mrs. Sutton and Mrs. Hurdle, who sang a duet, accompanied by Mrs. H. Sapp.

TRIPLE FOUR BRIDGE CLUB

Amid a setting of cupids and pink hearts, inspired by the season, Mrs. George Childress Jr., entertained members of the Triple Four Bridge Club in regular meeting Tuesday afternoon. Table covers were of pink tulle on which were pasted pink

heart-shaped valentines. A novel idea was carried out in distributing score cards, when Katherine McIntosh entered dressed as a postman and carrying a mail pouch from which she took mail for the guests, calling out their names. The mail proved to be a Valentine to be used for a tally card.

After the games, the tables were spread with dainty luncheon cloths and centered with crystal baskets filled with sweet peas, and the hostess served a salad course with hot tea.

Mrs. Claude Triggs was declared winner of high score award, which was a flower picture and Mrs. C. F. Green of the low award, an engagement book. Mrs. Childress named one chair as the "lucky chair" for the games. Mrs. Claude Bradbury was occupying this chair at the conclusion of the games and she was presented a pot plant.

Guests other than club members were Mrs. Ben Baskin and Mrs. S. Kestenbaum.

A district zone meeting of the Methodist church will be held at Rosebud next Tuesday. Pastors in the zone will meet during the morning and the ladies of the missionary societies will have an afternoon session. All visitors will be guests of the Rosebud church for lunch.

The Store You Hear So Much About

Bill Der Says

It's better to be hard-boiled than half-baked

You Should Be "Hard-Boiled"

When you come to select your building material and specify: "As good as Jeter's." Of course, you can save any worry to start with by getting your materials from Jeter in the first place, then you know you've got Uniformly Good Building Material.

"Can you afford to wait?"

Jeter Lumber Co.

Authorized Distributor of Genuine Montevallo Coal Cameron, Texas

RIGHT AIR PRESSURE ADDS LIFE TO TIRE

FIRESTONE DEALER GIVES GOOD ADVICE EVERY MOTORIST SHOULD KNOW

"If motorists would only realize the importance of keeping tires inflated to the correct pressure, they would get much greater mileage and have less trouble with their tires," according to August Horstmann of the Tire Stores, Firestone dealers in Cameron. "This is especially true of balloon tires, for when used with even four or five pounds less air than they should carry, the loss of tire life amounts to hundreds of miles. Every motorist should know the correct air pressure for his tires and can get this information from his dealer.

"We recommend having the air checked at least once a week. It is an easy matter to stop at our place and have one of the men check the air pressure and inflate the tires if air is needed. This service is free to everyone in Cameron.

"It will help in maintaining proper air pressure if the valve is always screwed down tight, the cap turned as far as it will go and a dust cap used to keep the valve in good condition."

BUCKHOLTS

Mr. and Mrs. Clyde Chapman and daughters, Nellie and Tommie Dell of Dallas visited relatives here last week.

The Buckholts Garage owners, who are Chevrolet dealers here, have received their first carload of the new Chevrolet Sixes. The proprietors are Messrs. Alfred Walschak and Louis and Joe Raska.

BLOATED

Black-Draught Gave Relief and Helped Otherwise.

"I am certainly a strong believer in Black-Draught, as I have used it off and on now for about twenty-five years," says Mr. G. W. Blagg, of Cleveland, Tex.

"I take it for indigestion, sour stomach, a tight bloated feeling after meals, and it has always been a help to me and gives me relief. I take it when I feel bad—when I need a laxative.

"It is easy to take, acts quickly and regulates the bowels."
Purely vegetable.
Costs only 1 cent a dose.

Theford's
BLACK-DRAUGHT
For Constipation, Indigestion,
Biliousness

ers visited in the home of her mother, Mrs. Johnston, Sunday.

has returned to her home in Houston.

Mrs. Austin Taylor of Uvalde is visiting her mother, Mrs. Oala Gause.

Miss Florence Hillard spent the week end in Rosebud.

M. L. Russell left Sunday night for Lovelady.

The Augustus Saint-Gaudens statue in Lincoln Park, Chicago, considered one of the finest sculptures of Lincoln in creation.

His Greatness Was A Triumph Over Failures

LINCOLN'S life was one of failures—failures that he made stepping stones to the White House. And it was reserve force that enabled him to do the stepping. Whether called upon to endure the hardships of frontier life or to wrestle with the problems of a government in the throes of war, Lincoln always had at his command a reserve force, built up during the years of his boyhood struggles, that lifted him over seemingly unsurmountable barriers.

What about your resources? Have you a reserve force, a substantial balance, to help you meet emergencies or to grasp opportunities? If not, open an account here and keep it growing by regular deposits.

LINCOLN, THE LACONIC

There is a premium on brevity, possibly because it is rare, either in speech or in writing. Loquacity is a besetting sin; volubility afflicts a multitude; garrulity is a scourge. Consequently terseness of speech is the move favored. Then too, it is art to be able to speak or write in terse strong sentences.

Abraham Lincoln was not especially given to the epigram, but he was often laconic. He seldom wrote long letters or made long speeches. His famous letter to Mrs. Bixby contains 135 words. His Gettysburg speech is composed of ten sentences and 273 words. Both of his inaugural addresses were brief. His longest speech, the one delivered at Cooper Union, New York City, was not much over an hour, and this was exceptional.

Lincoln's letters for the most part were exceedingly short, sometimes to the point of brusqueness. Many of them consisted of only two or three sentences. To a long drawn out letter inviting him to participate in a certain lawsuit—a letter that was unnecessarily long and ortuous—Lincoln replied by indorsing the voluminous document with these words, "Count me in. A. Lincoln."

IT IS A PRETTY CUSTOM

Good old St. Valentine, who died a martyr in Rome many centuries ago, must stand as a guardian over the celebration of his day to keep it from modern defilements. Little or no attempt has been made to modernize this quaint old anniversary sacred to lovers.

For weeks stores have displayed the pretty little tokens of the type which have served as lover's gifts for generations. Even the delicate lace creations so dear to the hearts of swains and maidens of a century ago, still persist little changed in form.

Instead of being "jazzed up" to meet the spirit of our age, St. Valentine's Day has become even more refined. The ugly, sometimes malicious conceptions known as "comic valentines" have almost disappeared. Those who still recognize the day seem to cherish only the tender emotions.

Of course for those who would make more lavish gifts the florists and the confectioners have a variety of suggestions, but the little greeting cards still carry the message of love and perpetuate a pretty custom.

You can tell a sport model at a glance. It has nine colors instead of seven.

People do not believe all they read. Sometimes the headlines are not large enough to be convincing.

Woman inferior? Well, which sex clings to garments that must be buttoned on in 17 places every morning?

Boy Scout Week

(continued from page 1)

to of "Be Prepared" has made them on the alert for.

In our own Heart O' Texas Council, of which the Scouts of this city are a part, anniversary week is being observed in Courts of Honor, Rallies, Hikes and the observance of the 12th Scout Law, "A Scout Is Reverent."

Get together meeting of all troops on Friday night, February 8th.

All day hike under supervision of district committeeman, Chas. Pollard, Saturday, February 9th. Starting at 9:00 o'clock A. M.

A mass meeting of all interested in Scouting on Sunday, February 10, at 3:30 P. M. at the auditorium of the high school presided over by Rev. J. P. Love at which time there will be an address made by Mr. Roy Baskin and the several troops will give practical demonstration of scouting and renew their Scout Oath, which reads: "On my honor I will do my best to do my duty to God and my country and to help other people at all times. To keep myself physically strong, mentally awake and morally straight."

You are most cordially invited to attend the exercises on Sunday afternoon.

Tempest - Sunshine

(continued from page 1)

popularity remains as keen as when this delightful story was first published, years ago.

The author of this acting version has prepared a play that has met with great success on the professional stage. For this reason, this edition is issued for both professional and amateur stage in response to a constant demand for this particular play, for the benefit of those who have seen it performed and wish to re-produce a clean, moral drama of established merit. While the best professional talent has appeared in the various roles, the play is equally well adapted to the talent of amateur clubs who will find no difficulty in meeting the natural requirements of the dramatic scenes and the abundance of spontaneous comedy.

Sunshine is a beautiful character, amiable, dutiful, and all that her name implies. Tempest, the very opposite, self-willed and fiery, drawing upon herself a bitter punishment. The lesson of self-restraint may well be learned from this true-to-nature character. The lovable father, old Joshua Middleton, gruff and unpolished, but great hearted Kentuckian, filled to the brim with humorous instinct. Richard Wilmot is an excellent type of clean cut young American manhood, a fine role for a youthful leading man. It would be difficult to imagine two better characters than the superstitious dorkies, Mammy Sue and the mischievous Boboway; the comedy scenes of these two provoke constant laughter. Hugh Stanton is a picture of a man, overindulged in riches, self love and jealousy, which bring upon him, well deserved defeat. In Joseph Dunn we have the vivid character of a human derelict, drawn from life; he merits our pity, as, drifting on a weak will, with the taint of hereditary intoxication in his veins, he falls an easy prey to temptation. But it would seem that the prayers of his dying mother, and the goodness of Sunshine worked remorse in his heart, and in a splendid dramatic scene in the final act, he makes full confession, thereby redeeming himself, and bringing great happiness to the Middleton family.

Oil Committee Is Named By Chamber

An oil committee to be a permanent part of the commercial club organization, was authorized by the directors in session Monday night.

The matter of naming this committee to be a part of the club organization was placed before the club by J. B. White, editor of the Cameron Herald, who stressed the importance of development now under way in this county.

The duties of this committee will be to offer the services of the committee and the club in assisting oil men in their business in this county. The committee will feel obligated to inquire into secrets of the oil men but to show to them the interest the club and the city has in their stay here and to make their sojourn in the city one of interest and pleasure.

Milam county is getting the biggest play in recent years on oil development at this time.

The club received a number of committee reports, including that of F. E. Jackson on the visit to Lott in connection with the Cameron milk plant. Also Mr. Jackson reported progress for the committee on finance for the farmers to purchase cows.

Trade Briefs

Attention is called to a display ad in this issue for John Deere Implements being sold by the Milam county hardware company. The company here is making big plans for the farm equipment week beginning next week. The people are asked to look for advertising matter covering this display. The Milam County Hardware Company will have an interesting display and fine interest is being shown in the wonderful new implements to make farming better.

W. B. Levy returned Wednesday from the Dallas market where he purchased goods for the store spring business. Mr. Levy reports having purchased a good stock and the people will be advised of the interesting display within a few days.

chased goods for the store spring business. Mr. Levy reports having purchased a good stock and the people will be advised of the interesting display within a few days.

Earnest Collins and J. D. Dobbins will leave Cameron next week for the markets to purchase spring goods for the Dobbins dry goods store in Cameron. They expect to buy a big stock and the people will hear further about the new spring goods display at this big store.

Two car loads of new Essex Chalmers have been unloaded here for the Tire Store of Horstmann Brothers. The shipment includes all models and some of the most attractive closed jobs ever seen in Cameron. Included in the shipment is one Hudson coach. Practically all these cars have been sold, according to Mr. Horstmann. The New Essex with its reduced price and increased quality is one of the great sensations of the age in automobiles.

Onion sets at 5c per bunch and two heads of fine lettuce for 11c features the ad of the Piggly Wiggly store in this issue of The Herald. W. T. Whitley, owner of the store purchased seventy-two thousand sets for his trade and is making a special offer of 5c per bunch as was advertised last week. The Piggly Wiggly store is proving a popular place to trade. Housewives will be interested in the offerings at this store this week.

Valentine candy at the Palace of Sweets is the offering of Walter F. Sharpe, proprietor. Mr. Sharpe has some attractive packages for the occasion.

The Cameron Furniture Company is making an interesting announcement this week in connection with the R. C. A. radio. This popular store is making some exceptional offers on this very popular radio set. The radiola has many friends in Cameron, the great programs of the country being brought to a large number of Cameron homes on this popular set. The Cameron Furniture Company not only sells but gives service on these wonderful sets.

New Cameron Drug Company is featuring some exceptionally fine Valentine candy in Norris brand, heart shaped and packed appropriately for the occasion. These boxes are on display at the store and manager Joe Denson says they will go fast as they are popularly priced.

L. F. Gohmert of the Gohmert Variety Store has returned from the markets and has a fine stock of goods on hand for the season's trade. In this issue of The Herald will be found an interesting advertisement.

Elmo Vaughn is doing a splendid business. The big Clearance Sale got under way last Saturday and the opening day, despite weather conditions was one of the most successful days in the history of the store. The big ad in The Herald last week and the circulars brought a large patronage to Mr. Vaughn and each day has been featured by brisk buying at his store. In this issue Mr. Vaughn has a follow up ad and this is an interesting statement of facts concerning the sale. Mr. Vaughn is a truth advertiser.

Farm equipment week is being featured by the Cone Implement Company display of McCormick-Deering implements. The company here is handling the International truck and the Farmall tractor and the implements now on display are the McCormick-Deering line. Cecil Cone, owner of the implement business has had wide experience in sale of implements. The display of implements in the building is one of the most attractive ever seen here. "Good equipment makes a good farmer better," is the slogan of this company. Mr. Cone has placed a number of Farmalls and International trucks.

Those Dixie Pig Sandwiches at Wayside Inn are presented in an attractive display ad in this issue of The Herald. Mr. Cammer has an exclusive product, a copyrighted ad and this sandwich is a popular seller with the trade. Wayside Inn is a popular playground for Cameron and visitors to the city.

Texas Water Utilities Company is a big factor in greater Cameron. In this issue is a large display ad congratulating the American Milk Products Company, a bit of good will advertising that is appreciated by the milk company as well as the people of the community. The water company is for every forward movement and water from its mains will be a big factor in the operation of the new plant. Cameron appreciates the water now being served the people and the policy adopted by the water company makes it a large and appreciated factor in the life of the city.

The Lyon Dry Goods Company, the store you have heard so much about, has an announcement of much interest in this issue of The Herald. A sale on Allen-A Hosiery and on shoes. The big store has an unusually big line of shoes and the prices quoted are very attractive. Mr. Lyon is a

live wire merchant and is in San Antonio this week on business. The ads of this store always speak volumes to the people and bargains are offered each week.

The people of Cameron are learning much about better milk these days. The city is receiving its first Pasteurized supply and deliveries are made each day. The American Milk Products Company has begun business under most favorable circumstances and the management of the plant is well pleased with the showing. Willard Reese, manager, C. W. Lawrence, president and R. H. McIntosh, vice-president, are all enthusiastic over the reception given the milk production program for this community. The people should know more of Pasteurized milk.

C. N. Green continues to sell Majestic radios. He has the new models in stock. Speaking of the new Majestic he said:

"The mechanical improvements on both models, the 71 and the 72, are the same. A great increase of selectivity has been provided. Improvements on the speaker permit it to handle a much larger undistorted volume, with a greatly increased range of tone. The new models cover a 75 per cent greater range of sound frequencies than those of last year.

"The exterior appearance of both sets is radically different from that of the old models, embodying the most graceful lines in radio furniture. The over-all appearance of the cabinet of the 72 is one of greater compactness, the receiver being about four inches lower than last year's model, about the same in width but not as deep. The cabinet of walnut and burl walnut, has a very high-polish finish. The doors are of diamond-matched panel-type walnut, inlaid with imported marquetry.

"The cabinet of the new 71 is of the low-body type. It is without doors and has a center panel of burl walnut on which are arranged the control and speaker.

"The interior arrangement is also entirely different from that of previous models. The speaker has been lowered from its previous position above the set to one below the set, thus making its outlines harmonious with the general lines of the new cabinets and insuring quieter operation. The tuning controls, dial, and speaker are mounted on a centered diamond-grained bordered on either side by burl walnut panels."

J. I. Case and Standard Implements for the farms of this section. That is the service that A. J. Matocha and Company is rendering. This big hardware firm has a large shipment of new implements in these lines and the farmers will be interested in the display. Mr. Matocha has been selling and giving service for these implements for a number of years. This big hardware store is one of the busy centers of Cameron these days as farmers are getting ready for the season's work.

A most interesting announcement is the big display ad of the Hubert Hefley Motor Company concerning the New Ford. For the first time in many months car buyers are able to get immediate delivery on new Ford cars. The Hubert Hefley Motor Company is one of the largest and most complete plants in central Texas and when the new building is occupied will be one of the most interesting commercial centers in the state. When the new Ford was first announced it took several months for the company to make deliveries in quantities sufficient to supply the demand. Now the assembly plants are working full blast and the new product is available on short notice. The Hubert Hefley Motor Company has a large number of cars of practically every model available for immediate delivery and according to salesmen the season is opening up big.

Texas Power and Light Company, established 16 years ago in Texas is one of the industrial romantic developments of the age. It has come to fill a place of service in the affairs of the people that no other has done because it supplies light, power and fuel for a multitude of purposes. Interested in development it has played a big part in the life of every community where its service extends. The purpose of the Texas Power and Light Company, is set out in a most interesting manner in a large display ad in this issue of The Herald by John C. Young, manager of the local branch. It has made the operation of private and municipal plants unnecessary because in line with the age it has brought greater power and greater service from central plants of generation and brought the great utility of electricity within reach of every home and industry in the great state of Texas. "Providing for the Texas of today and planning for the Texas of tomorrow" is the slogan of this mighty company. The statement of its purposes will be read with great interest by the people of this and other communities reached by The Herald.

NEW PONTIAC EXPECTED HERE BY SATURDAY

Schiller Motor Company is expecting a car load of the new Pontiac automobiles here by Saturday. The car has been in transit for about ten days but has no doubt been held up by snow storms in the north.

Considerable interest is being shown in the new Pontiac and Mr. Schiller is very anxious to receive the shipment.

JAKE ABRAMS RETURNS TO THE FAMOUS STORE HERE

Jake Abrams who has been in Mart with one of his stores for the past two years, has returned to Cameron to be with the Famous of which he is part owner.

Mr. Abrams arrived Monday. He has many warm friends here who will welcome him to the city again.

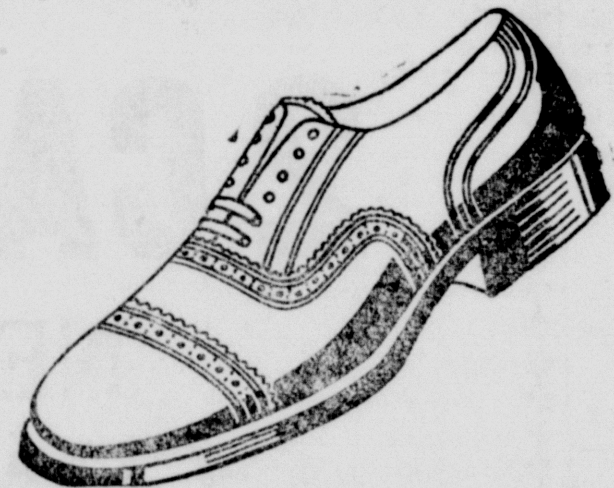

There's no mistake that she's first in your heart when you send Candy. Here is where you get fine, fresh Candies, beautifully boxed for the occasion.

Frank Mohler of A. & M. College spent last week end in Cameron with his parents, Mr. and Mrs. Joe Mohler.

Mrs. John A. Green, who has been a patient in the Cameron Hospital for several days, is reported much improved.

Miss Helen Green, who is doing work towards a Master's Degree at State University, spent several days at home last week with her parents, Mr. and Mrs. C. N. Green.

Miss Lula Hutcherson, teacher in the Rockdale schools, visited her brother, Rev. E. S. Hutcherson, Sunday.

Dr. John Denson spoke to the congregation at the Baptist church Sunday morning, making an appeal for financial aid to rebuild Luther Hall, Baylor College, which was recently destroyed by fire. Dr. Denson is a member of the Board of Trustees at Baylor College and he attended a meeting of the board last week, at which time a program was outlined for a new building.

Don Slocumb, student at A. & M. College visited his parents last week end.

Miss Elmer Evers of Mexia spent last week end in Cameron, the guests of Mrs. Charlie Nabours.

Mr. and Mrs. J. H. DuBois went to Temple Monday morning to be at the bedside of Mr. DuBois' nephew, who underwent an operation for appendicitis at Scott and White Hospital.

R. H. Davis returned from Brenham Sunday where he has been developing an oil lease.

Miss Beatrice Reynolds left Thursday for Brownsville, where she will enter a business college.

Mrs. B. E. McMillan received a message Friday stating that her sister Mrs. Harry C. May, was seriously ill in a hospital in Memphis, Tennessee. Mrs. McMillan and Mrs. S. M. Burns, Sr., left Saturday for Memphis. Mrs. May, before her marriage, was Miss Irene Kemp. She lived in Cameron and was employed by the Klawansky Dry Goods Store. Her friends here will regret to hear of her illness.

Mrs. George McGehee went to Waco Monday to be with her sister, Mrs. Willie Kemp, who is ill.

Miss Natalie Kemp returned to her home in Waco Monday after having been the guest for several days of her sister, Mrs. B. E. McMillan.

Billy Newton, student of the College of Medicine, University of Texas, spent the between-term holidays in Cameron last week with his parents, Dr. and Mrs. W. R. Newton.

Mrs. W. A. Copus left Monday for Dallas where she will purchase new stock for her gift shop.

Dr. R. A. Scranton of Waco filled the pulpit at the Baptist church last Sunday evening. Dr. Scranton is at present devoting his time to the Baptist Sanitarium at Waco.

Miss Mamie Clyde Weaver of Dallas is the guest of her aunt, Mrs. D. H. Slaughter.

Miss Gwendolyn Neas, who has been the pleasant guest of her cousin, Mrs. D. H. Slaughter, returned to her home in Italy, Texas, Sunday.

Members of the choir of the First Baptist church enjoyed a social Wednesday evening after their regular practice, given in honor of Mr. L. C. Gayle, recently elected choir director. Several indoor games, under the supervision of the social committee, furnished diversion and refreshments of hot chocolate and sandwiches were served.

NEW WALL PAPER AND PAINT ROOM FOR NEW CAMERON DRUG COMPANY

An improvement of interest in Cameron this week is the new wall paper and paint room of the New Cameron Drug Company being completed by J. A. Walston. This room will be spacious and well fitted for the display of wall paper and paints.

When completed Joe Denson, manager of the store, will have on display the largest and most varied line of wall paper and paints ever shown by the store. The room is so arranged as to afford the greatest possible advantage in displays. The store plans to carry a larger stock of wall paper and paint.

GEORGE BRISBANE, JR.

George Brisbane Jr., age 2 months, died at seven-thirty o'clock in the evening last Saturday, February 2. Funeral services were held Sunday afternoon at three o'clock with interment in Little River Cemetery.

He is survived by his parents, Mr. and Mrs. George Brisbane Sr., and one brother.

Country Club Scene Of Bridge Party

Bridge and Forty-Two were diversions at the Country Club last Friday evening when Mesdames James Watson, John Mangum, S. A. Cottle and Fritz Fabrendorf were hostesses for a Valentine party. Although the night was bitter outside, the club house was comfortable with a bright fire burning in the huge fireplace.

Decorations were in the shape of Valentines which were used in abundance about the rooms. Score cards also followed this motif. Candies were served throughout the games, and at the conclusion the hostesses passed home made cookies and ice cream.

In the bridge games J. M. Ralston won high score and Oxsheer Smith,

low for the men and Mrs. Doss of Dallas was high for the ladies and Mrs. Wm. Cobb low. Among the Forty-two players Mrs. Ben Atkinson won high for the ladies and Mrs. Wiley Mangum low, while for the men Wiley Mangum was high and Dan Tyson low.

FATHER APEL ATTENDS HEINZLEMAN FUNERAL IN WESTPHALIA FRIDAY

Rev. Geo. Apel, pastor of St. Monica's church in Cameron, was in Westphalia last Friday to attend the funeral of Father Heinzlemann who died on Thursday in Waco. Father Apel with the other priests of the Diocese assisted Bishop Byrne of Galveston in conducting the funeral service.

Father Heinzlemann was one of the great leaders of the church in this diocese and was widely known over the state and nation as a scholar and leader. He died in Waco while in the Catholic hospital there for treatment.

The Westphalia church is one of the largest and most prosperous churches in the diocese. Considerable interest will be shown in the selection of a leader to fill the place left by the death of Father Heinzlemann.

Our Wide Open Policy and What it Means To You — And All of U.S.

Our Policy of Co-operation

THE splendid progress of the Missouri Pacific Lines in the last five years has been achieved very largely as a result of: First, the aggressive loyalty and endless, tireless effort on the part of our army of employees; Second, the co-operation and support of the public generally and the shipping and traveling public especially; and Third, (made possible because of the former two things) the investment of many millions of dollars of new capital.

The new capital was obtained because of the increasing volume of traffic which justified it. And the increasing traffic is directly traceable to the work of our employees, adequate service and the confidence of the public. Both of these are, in large measure, a result of the "Wide Open Policy" that has been zealously maintained.

There can be nothing secret about the management or operation of railroads because of the regulation and supervision to which they are subjected by numerous governmental and official bodies such as the Interstate Commerce Commission, State Railroad Commissions and similar institutions. But we have not been content to merely say "the information is there and is available if the public wants it."

Careless effort has been made to inform both our thousands of employees and the public. Every phase of the railroad business has been analyzed and broadcast. Our own forces are constantly combing our property for general, specific and miscellaneous information that will or might interest our own family members or our patrons and friends. Such information is carefully collected, intelligently analyzed and prepared in easily understandable form, and distributed voluntarily in every possible way.

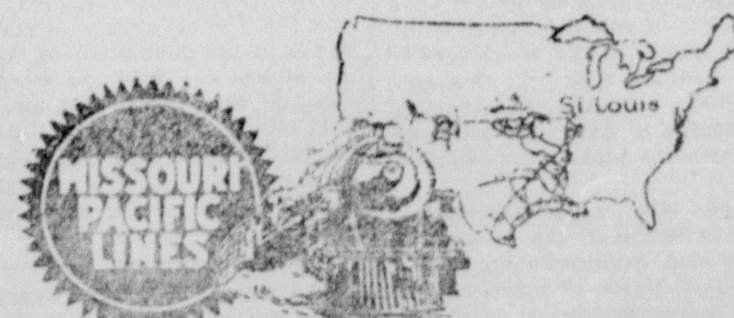

As a result of this policy our own employees are as well informed as any in the world and the public generally knows more about the Missouri Pacific Lines than is known of most such similar institutions. Confidence, co-operation and support have resulted—and those three reactions on the part of our patrons and our own family members have made possible the development of the Missouri Pacific Lines into one of the outstanding railroads of the world.

The Missouri Pacific has welcomed and encouraged the public to come to some of us with any and all questions relating to transportation. If the individual Missouri Pacific man or woman approached doesn't know the answer to your question he will get in touch with or put you in touch with someone in our organization that does know it.

We are most happy in the knowledge of the achievements already accomplished and it is a real pleasure to bestow the credit for the advancement where that credit belongs. We have by no means reached the limit of our development. We expect to continue leading the Parade of Progress.

I solicit your co-operation and support.

M. B. Brewster
President

"A Service Institution"

Local and Personal

New costume sets, new chokers direct from New York importers.
R. H. Johnson Jewelry Store.

Mrs. T. A. Howell and Tom Howell Jr., visited Jay and Hilton Howell in Waco last week.

Mrs. Elizabeth Weaver of Dallas was a recent guest of Mrs. D. H. Slaughter.

Mr. and Mrs. J. L. Slaughter had the following guests for a turkey dinner Sunday: Mrs. T. W. Boykin and L. A. Boykin of Ben Arnold; Mr. and Mrs. G. W. Reaves and family of Ben Arnold. Mr. and Mrs. Dewey McElrath an dfamily of Temple and Mr. and Mrs. G. A. Plentl and family of Cameron.

Miss Mable Jeter visited Baylor College, Belton, the first of this week.

Among those from the Cameron Baptist church attending the County Workers' Conference at Rockdale Monday were Mr. Preston Graves, Mrs. Dann Gunn, Mrs. G. C. Black, Mr. and Mrs. L. C. Gayle, Rev. and Mrs. E. S. Hutcherson, Mrs. Harve Dobbins, Mrs. John Hause and Mrs. C. Collier.

Miss Kathryn Robbins of State University spent last week end at her home in Cameron.

Mrs. Giles Avriett and son, Jack and Frances McDermott spent Tuesday in Waco.

Cyrus Miller, Frederick and Preston Graves, and Don and Guy Slocumb formed a party going to Temple Saturday night.

Mrs. W. J. Croker of Modesto, California, will arrive Saturday to be the guest for two or three weeks of her niece, Mrs. A. C. Freeman. During her stay here she will also visit friends and relatives in Maysfield. From Cameron Mrs. Croker will go to Cocoa, Florida, for a visit. Mrs. Croker will be quite an addition to musical circles of Cameron as she is intensely interested in music, having taught piano for a number of years. Next year she plans to be associated with a junior college in Modesto.

Just arrived new chokers, new costume sets.
R. H. Johnson Jewelry Store.

Miss Louise Thach left Sunday morning for Fort Worth. After spending the day there she will motor to Dallas, where she will hold a position.

Miss Dorothy Blaylock, student at the Rebecca Schofield School of Expression, Austin, will give her junior recital some time this month. Among those who will assist Miss Blaylock is Miss Geraldine Slaughter of Cameron, who will play a piano solo.

Mr. and Mrs. Bill Howell of Minerva spent Tuesday with Mr. and Mrs. T. A. Howell.

Bennie Lee Herndon, who had an operation last week as a result of an injury received in a basket ball practice, is reported as recovering rapidly. For several days he was in a very serious condition.

Misses Hilda and Goldye Burke entertained last week with a farewell party for Miss Beatrice Reynolds, who has gone to Brownsville to enter a business college. Bridge and forty-two were diversions.

Mrs. Ella Hooks moved into her new home on North Fannin Street this week.

ANKERS IN NATIONAL MOVE FOR UNIFORM FINANCIAL PRACTICES

Would Promote Greater Consistency Among All the State
Laws in Respect to Banking Conditions—Uniform-
ity of Practice and Understanding Will Make
for Greater Convenience, Efficiency
and Safety for All Business.

By S. J. HIGH

President State Bank Division, American Bankers Association

RAPID interchange of business and the quick transportation of goods in the United States, coupled with almost instantaneous means of inter-communication by telegraph, telephone and wireless, have welded the country into an economic unit. The nation is not, in a business sense, conducting its affairs in water-tight compartments, as in a measure it did in the days of slow travel and remote places, but styles, methods, commodities and business practices flow freely today in all directions. Therefore it is desirable that finance, trade and industry throughout the country operate along generally uniform or at least consistent lines, so that a contract or an agreement or obligation in connection with business transactions shall mean virtually the same thing in all parts of the country. Particularly necessary in this connection is the establishment of uniform financial and banking practices so as to facilitate the flow of trade along accepted and understood lines.

Banking in the United States is recognized as a semi-public type of business and is therefore subject to laws to define the scope and character of its activities. These laws at present set up a great diversity of conditions

under which banking is conducted in various parts of the country since they come from both state and federal authorities. The national banks are all chartered by the federal government and therefore operate on the same lines in every state of the Union, but there is no such regularity in respect to the conditions under which the state banks chartered by the respective forty-eight states must conduct their business. All state banking codes, while they have similarities, also have many great dissimilarities in respect both to the national bank laws and the banking laws covering state bank operations in other jurisdictions.

Bankers Move for Uniform Laws

The State Bank Division of the American Bankers Association, which latter includes in its membership banks of all descriptions throughout the country subject to all the variations of state and federal banking laws, is committed to the effort to bring about greater consistency and uniformity among the statutes of all these various jurisdictions. This body is conducting a vigorous nation-wide campaign urging that active steps be taken to secure greater co-ordination in banking legislation, more equitable conditions and more uniformly efficient public supervision of banks in the several states.

The organization is particularly concerned with fostering this movement to bring about more uniformly desirable conditions throughout the United States in respect to the public supervision of banking institutions by the state banking departments. It is on record as favoring the policy that the important office of state bank commissioner should be kept as free from entangling partisan politics as the judiciary itself and should be completely detached from all other functions of state government.

It is also on record as favoring the policy that the tenure of office of state bank commissioners should be made more secure and lasting than is now the case in many state jurisdictions and that this important public officer be granted sufficient compensation and discretionary power so that the office shall attract and retain the services of men of outstanding executive ability and successful banking experience.

It is also a part of this policy that the bank commissioner's ability to serve well should be strengthened by providing him with adequate forces of bank examiners, selected on the basis of merit from men having the requisite qualifications of honesty, ability, training and banking knowledge to carry out the duties of their offices on the highest plane of usefulness to the public as well as to banking.

The Trend of State Laws

The Association's State Bank Division has recently concluded a nationwide survey of state banking legislation and conditions and in general has discovered a definite trend along the following lines:

There is a distinct tendency among the states to raise the minimum capital required for banking institutions to \$25,000 and also to give the bank commissioners or the banking boards sole power as to the granting of charters for new banks, thus enabling them to use discretion as to the need or desirability of added banking facilities or the fitness of the organizers to enter the banking field. In this connection many states are creating banking boards to act in an advisory capacity with the state bank commissioners.

There has also been observed a tendency to increase the compensation of the bank commissioners and to strengthen their terms of office and to give them power to appoint necessary deputies and examiners so as to build up an adequate force to carry out their responsibilities and duties. An important augmentation of the powers of

bank commissioners in some states is found in laws giving them complete charge of insolvent banks and their liquidation as distinguished from more costly liquidation through the courts.

In the Public Interest

Distinctly in the public interest are laws prohibiting or limiting an officer or director of a bank from borrowing from his own bank unless his collateral security is approved by a majority of the board of directors of the bank. Also there is recent legislation noted providing for closer supervision and regulation of building and loan associations, credit unions, finance companies and private banks.

In some states measures have been enacted broadening the field for investment of funds of savings banks and trust companies, which have materially enhanced the service that these institutions can render, particularly in the way of co-operation with their customers in personal financial management. Another type of legislation, important especially to banking in view of the frequent efforts to defraud banks, is that which makes the issuance of worthless checks a misdemeanor with specific penalties. The State Bank Division of the American Bankers Association endorses in the fullest degree in principle the development of banking laws along the foregoing lines and is actively engaged in fostering the spread of such legislation wherever its services are considered useful both to banking and to the public. Uniformly sound banking institutions and practices, together with common methods and understanding, will materially add to the convenience, efficiency and safety of business in serving the well-being of the public in all parts of the nation, especially in those transactions involving dealings between different localities.

AMERICA LEADS THE WORLD IN SAVINGS

The past year saw the greatest gains in savings in a single twelve-month ever recorded in the United States, bringing the total savings deposits in banks to over \$28,400,000,000 on June 30, 1928, held in more than 53,000,000 individual accounts. It is reported by the American Bankers Association. These are the biggest figures in this field shown by any country in the world.

These figures are indicative of prosperity more general than any time since the business depression of 1920, the report declares. Only three states failed to show a gain and the 1928 volume of savings constituted an increase of more than \$2,327,000,000 above the 1927 figure. The gain per inhabitant for 1928 over 1927 was \$17 and the gain in number of savings depositors was 2,496,079, an increase of 5.2% as against a growth in the population of the country of 1.3%.

The gain in savings per inhabitant in New England and the Middle Atlantic states over the previous year was \$36. These groups of states, with 29.9% of the population of the United States and 52.8% of the total savings deposits, have the largest savings rate, \$41 per inhabitant, of any area in the world. The per capita savings for the United States as a whole this year stands at \$237 as compared with \$220 last year.

"An acre of alfalfa for every cow in Howard County, Iowa," is the slogan adopted by the county bankers association there after watching several hundred thousand dollars go out of their county last winter for feed.

William Earl Moseley Celebrates Birthday

William Earl Moseley, five year old son of Mr. and Mrs. Earl Moseley invited a number of his friends to help him celebrate his birthday last Wednesday afternoon. A number of out-of-doors games were enjoyed, after which the little guests matched partners to fish at a fishing pond. Different kinds of animals cut out of colored construction paper were passed, and the boys and girls matched animals to find their partners. On these animals was written the name of the host, the occasion and the date. At the fishing pond, each girl drew a doll dressed in fluffy crepe paper streamers and the boys drew marbles in tarlatan bags to match the dresses of the dolls.

After the games the children were invited into the dining room, where a white cake with pink candles rested on the center of the table. Ice cream cones were served with the cake which was cut by the guests, the emblems being distributed as follows: Hazel Ruth Edwards, the heart and the horse; John C. Young Jr., the wish bone; Winona Moseley, the ring; Billie Gaston, the thimble; Billie Weems, the anchor; Joe Casey Jr., the dime; and Joe Bill White, the button. Mrs. Moseley was assisted by Mrs. Lindie, Mrs. J. B. White and Miss Beatrice Reynolds.

Pictures were taken of the group while they were playing their games out-of-doors. William Earl received many nice gifts from his friends.

E. S. HUTCHERSON SPEAKS IN FRANKLIN FOR THE BUDGET PLAN THERE

E. S. Hutcherson, pastor of the Cameron Baptist church spoke at the convention of Robertson county Baptist at Franklin Tuesday under request from the state board. He spoke on the budget plan for financing churches. The plan is to get the churches to adopt and follow the budget plan of church financing.

Mr. Hutcherson has made a success of the budget plan in the Cameron church. He is to make a number of addresses for the state board. His services have been sought for months of January and February. He spoke in Calvert last Thursday night and will go to Navasota next Tuesday for an address to the Baptist there.

Mr. Hutcherson is recognized as one of the most successful financiers in church management in the state and his services have been sought in many parts of Texas.

MAYSFIELD

Rev. J. L. Red preached at the Maysfield Methodist church Sunday morning and evening.

Mrs. Yates and little daughter, Rose Mary, of Branchville, attended services at the Methodist church in Maysfield Sunday morning.

Mrs. Hubert Atkinson made a business trip to Calvert Monday.

Mrs. R. L. Nicholson and daughter, Ruby, after attending the morning services enjoyed dinner and a very pleasant afternoon in the home of Mr. and Mrs. H. L. Yeager, Sunday.

Mrs. Laura Butler, who is one of the Presbyterian Sunday School's most faithful teachers, failed to be in her place Sunday morning. Her many friends, as well as class of little ones are sorry to hear she is confined to her bed and hope she will soon be back in their midst.

Mrs. W. M. Waits and daughters, Velma and Evelyn and Miss Mary Emma Thweatt visited relatives in Calvert Sunday.

Mrs. R. B. Brady and daughter, Gladys of Cameron, visited Mrs. J. Thweatt Sunday.

Mr. and Mrs. Webb Todd of Glencoe, Ill., are visiting her father, C. L. Butts of Maysfield.

Little Misses Artie Mae and Alma Red are up after an attack of the flu.

Mr. and Mrs. Clarence Freeman visited in the home of his brother, Mr. and Mrs. Wm. Freeman Sunday afternoon.

Hubert Atkinson and Rev. R. L. Nicholson made a business trip to Cameron Tuesday morning.

MISSIONARY SOCIETY

Members of the Missionary Society of the Methodist church met at the church Monday afternoon for a business session with Mrs. R. H. Davis, the president, in the chair.

The following officers were installed: President, Mrs. R. H. Davis, re-elected; vice-president, Mrs. Howard Baskin, corresponding secretary, Mrs. Julian Baskin; recording secretary, Mrs. W. P. McCall; treasurer, Mrs. J. S. Bragg; superintendent of publicity, Miss Mollie Moore; superintendent of social service, Mrs. R. L. Batte; missionary voice agent, Mrs. R. B. Rylander.

The following committees were named: Membership, Mrs. R. L. Batte,

chairman, Mrs. John Olson and Mrs. W. O. Triggs; Hospital, Mrs. C. N. Green, chairman, Mrs. R. B. Rylander and Mrs. Fred Cable; Committee for Visiting Sick, Mrs. Leland Green chairman, Mrs. Frank Monroe and Miss Mollie Moore; Parsonage, Mrs. Jeff Kemp, chairman, Mrs. Tom Denison, Mrs. W. A. Bonds, and Mrs. Arthur Baskin, Sr.; Shut-ins, Mrs. Sam McDermott, chairman, Mrs. W. I. Clark and Mrs. R. B. Rylander; Finance, Mrs. Leland Green, chairman, Mrs. Julian Baskin, Mrs. August Horstmann, Mrs. S. W. Cheeves and Mrs. Howard Baskin.

The Federation of Missionary Societies will meet at the Methodist church on February 15 to observe the World's Day of Prayer. All members are urged to be present.

METHODIST CHURCH

Whether we have fair weather or foul next Sunday, we want every body at Sunday school and church. The Sunday school will meet at 9:45 and the hours for church are 11:00 and 7:00.

At the morning hour the pastor will do the preaching.

At seven in the evening our new Presiding Elder, Rev. L. H. Mathison will preach. He will hold the Quarterly Conference at the close of the sermon.

The Presiding Elder has been bragging on our fine congregational singing and our choir. We cannot afford to disappoint him this time.

All of the Leagues showed an increase last Sunday. We are getting back to normal again. Let's grow beyond normal.

The juniors come at 2:30 and the Hi's and the Senior League at 6:00.

BAPTIST W. M. S.

Members of the W. M. S. of the Baptist church voted to send a linen shower to the Baylor College girls who lost their things in the recent fire at the institution when Luther Hall burned, at their regular meeting at the church Monday afternoon. Miss Clara Thomas, the president, was in charge of the meeting. After a short devotional meeting, reports were heard from the standing committees. The president announced that a week of prayer would be observed beginning March 4.

There were six present from circle 1, 11 from circle 2 and 6 from circle 3. The W. M. S. will meet in circles next Monday for Bible study. Circle one will meet with Mrs. Wilson Gunn;

Circle two with Mrs. W. A. Beal and Circle three with Mrs. Wm. Fanning.

T. N. T. CLUB

After a short business session, members of the T. N. T. Club enjoyed a program at their regular meeting Monday evening at the high school. Misses Dora Emily Moore, Helen Blaylock and Inez Evans sang several popular songs with Miss Geraldine Slaughter accompanying. Joe Rowland and Scarborough Mayfield entertained with piano and saxophone duets and

Clarence Posey and Charles Schaege gave vocal selections.

T. A. Fisher and J. A. Sevier, guests of the club, made short, interesting talks.

From Poetry to Prose

"I notice you always end your novels with the marriage," remarked a friend.

"Yes," returned the novelist, "there is nothing romantic about the subsequent hunt for a flat, a cook and a job lot of furniture."

NATIONAL
FARM EQUIPMENT WEEK
FEBRUARY, 18, 19, 20, 21, 22, & 23
Visit Our Special Farm
Equipment Exhibit.
"Good equipment makes a good farmer better"

Come Be Our Guest

We're going to hold open house at our place during the week of February 18 to 23 in celebration of National Farm Equipment Week. We will have our newest models on display, and will stand ready to explain their points of superiority, so you can see for yourself the many improvements that have been made.

It is our sincere wish that you come in any day, or every day, and

enjoy the entertaining party which we have arranged. You'll meet your friends, hear helpful suggestions, see the newest, most efficient equipment and have a mighty good time.

If you drive in, stop and pick up a few of your neighbors—the more the merrier—and help us to have a store full. We know they'll thank you when they see what a whale of a party we're putting on.

P. S.—Why not look over the old tools before you leave home and decide which ones should be replaced with the dandy 1929 model McCormick-Deering machines we have on display?

OPTOMETRIST LEADER BACKS CHIROPRACTORS IN FIGHT IN ASSEMBLY FOR THEIR RIGHTS

Chiropractors should have a state board of their own appointed by the governor, in the opinion of Dr. W. W. Chamberlain, a prominent optometrist of Houston and a man who took a leading part in the passage of the Texas Optometry measure.

Dr. Chamberlain who is sojourning in San Antonio for a few days has written the following letter to the Evening News:

"I noticed an article in the Evening News last Friday that interests me very much as a citizen of Texas and one who thinks well of his state and its welfare. This article has reference to a bill known as the Basic Science Bill which will probably be introduced at the present session of the Texas legislature. I have known for some time that this measure would probably be introduced and I have been watching and waiting for some publicity on the subject. I had also surmised that the usual chiropractic bill would also be introduced. I have the very highest regard for the medical profession or at least that portion of the medical profession whose lives are truly devoted to the rendering of aid and assistance to suffering humanity. Many of them I number among my best friends and anything I may say in this article does not apply to them. In my experience in legislative matters extending over a period of many years I have usually found that this class of the profession are busily engaged in the practice of their profession and have neither the time nor the inclination to foster or take any interest in the average medical bill that is placed before legislatures.

It is a well known fact that the American Medical Association has been frequently spoken of as one of the greatest trusts in American and it is also equally as well known to many of us that should their desires continue unhampered without something being done to curb them it will not be many years before you will have to go to them and get a prescription before you drink your glass of water in the morning. They fought first the dentists to prevent them from having a bill that would protect the public. They have fought the homeopathic and every other form of medicine except allopathy. They fought the osteopaths they fought optometry to a finish in every state in the Union including the District of Columbia.

At the present time, I am thankful to say that all of the above different professions have finally succeeded in securing bills thoroughly protecting the public.

The Chiropractic and the Christian Scientist, every time they practice the healing art, are violating the present medical practice act.

It is my opinion that this so-called science bill is being introduced to tighten the lines cutting out any loop holes that may now be open whereby those offending the medical practice act may be duly handcuffed, tied and bound in such a way that they will not be able to offend the wonderful medical practice act in so far as it applies to the Chiropractic and to the large clientele in the state of Texas who have learned to know by practical experience what relief they offer.

Now, as to the chiropractic bill. After having given it a study for a great many years, I have come to the conclusion that without doubt the chiropractic is here to stay, and such being the case, if he is going to be allowed to practice on humanity, relieving pain and ministering to distress, he should be regulated by legislative enactment.

The chiropractic should have a board of their own, and said board should be appointed by the governor, the same as the other professional boards are appointed at the present time. We have a great many chiropractors in the State of Texas who are performing a great service for the public in general, and are assisting suffering humanity in a great many instances where medicine, surgery and medical science are unable and have not been able to do for those patients that which should be done in order to secure relief. There are many instances of cases pronounced absolutely incurable and without any future hope of being free from pain and sickness that have been restored to health and strength as the result of chiropractic practice, and there are many people in this great commonwealth who are strong, hale and hearty who would now be in their graves were it not for this healing art. An absolute safe and sane chiropractic bill should be passed at this term of the legislature.

My entire interest in this matter is without any selfish motive. I have never in any way been paid one single cent by any chiropractic, by any member of the association, nor by anyone who has represented them in any way.

To the best of my knowledge, I have not discussed the chiropractic measure in any of its phases with any chiropractic in the State of Texas, nor with any optometrist, and this statement of facts is coming from me as an individual.

I am not interested at this session of the legislature, do not expect to go to Austin, do not expect to say a single word to any member of the legislature influencing their vote on either one of the above measures, and I am only interested as a public-spirited citizen desiring to do in my own way

that which I may be able to do that may be a real benefit to my friends, my neighbors and the entire citizenry of this great state which I have learned to love. I have been interested and have assisted in optometric legislation for a great many years, that being my chosen profession, and as long as I was handling legislation in behalf of the optometrists of Texas I have religiously and faithfully kept my hands off of the fight between the medical association and the chiropractic. I have voluntarily resigned my position, which was without pay, of legislative chairman of the Texas State Optometric Association, and therefore, I am now a free lance with an unbridled tongue to say and do anything that I may desire, as long as it is for the betterment of the people of Texas, whom I have learned to revere, honor and respect, and I can add that I am a Texan by adoption and I am proud of it.

Many parent-teacher associations, federated club women who are interested in public welfare and children's welfare and maternity have been hoodwinked many times into fostering, aiding and abetting the Texas State Medical Association in their exploitation of the people and the children in the schools in the State of Texas, and I hope that many of these good women may study carefully before they approve of many measures that are being brought before them after having been cooked up and well prepared as a morsel of bait by the attorneys in Washington, hired and paid by the American Medical Association.

I am still practicing optometry in Houston, where I have been for many years, and where I expect to continue for many years to come, in spite of the fact that 99 per cent of the physicians at home, be they competent or incompetent, do not recommend their patients to me, but often-times prefer to send them to an ophthalmologist who has never taken a course in refraction but who may be ever so competent in the handling of diseases of the eye, and practicing surgery on the eye.

DISTRICT COURT NEWS

Mrs. J. C. Arnold vs. Will Clayton et al., debt and foreclosure, dismissed without prejudice to the rights of any party to the suit.

Estate of Mary Stegall, deceased, on appeal from the probate court of Milam county, dismissed at the cost of contestants.

Nathan S. Potter vs. J. Tom Robertson et al., trespass to try title and damages. Dismissed without prejudice as to defendant, Pierce, and judgment for intervenor E. A. Camp for the land in controversy as to all other parties.

Two cases against John Stork, one for alleged unlawful manufacturing and one for possession for the purpose of sale of intoxicating liquor, were continued Wednesday by the defendant on his second application, because of sickness of defendant and also of a very material witness for the de-

fendant, as set for in written application.

Rev. and Mrs. P. T. Ramsey had as their guests last week end, their children, Mr. and Mrs. John Sealey Caldwell of Bryan, Newell Ramsey, student at A. & M. College and Miss Catherine Ramsey, student at Southern Methodist University.

STATE OF TEXAS

To the Sheriff or any Constable of Milam County.—Greeting.

You are hereby commanded to summon Jim Terry by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam county, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March, 1929 then and there to answer the First Amended Original petition filed in said court on the 30th day of January 1929, in a suit, numbered on the docket of said court No. 10,133, wherein A. H. Baskin, A. J. Lewis, and W. A. Morrison are plaintiffs and Ford Terry, Charlie Terry, Marshall Terry, John Terry, L. L. Terry, Homer Terry, Cage Terry, Claude Gray, Joe Gray, Essie Gray, Daisie Gray, Sam Bailey, Jessie Bailey, and Jim Terry and First National Bank of Cameron are defendants.

Said petition alleging: That this suit is for partition and that plaintiffs are the joint owners with the defendants in certain 3 tracts of land containing 200 acres in the aggregate, situated in Milam county, Texas, about 7 miles East of Cameron, at Belmena School House, out of the J. K. Tyler League as said 3 tracts of land are fully described in the judgment of the District Court of Milam county, Texas, in cause No. 7202, dated May 26, 1916, and of record in the Civil Minutes of said Court in Vol. H, page 410 et seq., and also described in defendants' answer herein and to which descriptions reference is here made.

Plaintiffs charge that W. A. Morrison owns 40.9 acres plaintiff A. J. Lewis 13.63 acres and the plaintiff A. H. Baskin 18.18 acres and that the defendants John Terry, Cage Terry, Lu-

ther Terry, Charlie Terry, and Marshall Terry each own 9.09 acres and defendants Claude Gray and his three children, Essie Gray, Daisie Gray and Joe Gray, own jointly 9.09 acres, and that the defendants Ford Terry, Homer Terry, Jessie Terry Bailey and Jim Terry each own 18.18 acres and that said parties, plaintiffs and defendants own all of said 200 acres of land in the amounts and proportions stated above, and that said land is incapable of partition and should be sold for partition, and that the defendants have

converted all of the rents to their own use, and that plaintiffs pray for a lien on said defendants' interest to secure plaintiffs' portions of said rents, and that defendant First National Bank of Cameron claims a lien on the portion of said land belonging to defendant Jim Terry, and that it be required to set up such interest in this suit or be declared to have none.

Plaintiffs pray for a partition of said land, for rents, for an accounting and for the appointment of a receiver, for the sale of said land for partition

and for general relief.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this 30th day of January A. D. 1929.

Essex Motor Has 24 per cent More Power

ESSEX PRECISION STANDARDS SURPASS EUROPEAN BEST

"There used to be a time," says S. G. Bates, chief engineer of the Hudson Motor Car Company, "when folks ascribed a certain mechanical superiority to high-priced cars of European manufacture and justified the opinion by referring to old-world precision standards that were more exacting than the standards in use in American automobile plants."

"The fact is that we, of Hudson, observe rather unusual precision standards, which are perhaps best exemplified by citing the standards which we observe in building the Essex. The paper on which the average newspaper is printed is about 5-1000 inch thick. Thinnest tissue paper, such as the finest cigarette paper, measures about 1-1000 inch in thickness. Now with the Essex we have 139 operations in which the absolutely insisted upon accuracy is just half of 1-1000 inch. And there are quite a number of operations, such, for instance, as per-

tain to the crankshaft, where the accuracy must be as great as a quarter of 1-1000 inch. Another 500 operations call for a tolerance of 1-1000 inch, 610 demand no more than 2-1000 inch, and so on, the coarsest tolerance, limited to only 195 operations, being 5-1000 inch.

"To many persons such close standards, equaling and in not a few instances surpassing best high-price car standards in vogue in Europe, may seem unusual when applied to the lower-priced Essex. But it is also true that our quantity production is the one thing that makes adherence to so rigid an accuracy code possible.

ST. RITA'S CIRCLE

St. Rita's circle sponsored a charity game party given at the K. C. Hall Tuesday evening. Strings of colored lights and cedar festoons gave a gala atmosphere to the occasion, tables being placed for both bridge and forty-two.

Entrance prizes were given to those

holding the lucky numbers, which were given when the fee for playing was paid. These prizes were cakes and they were won by Judge John Watson, Mrs. B. P. Matocha and Mrs. Herman Steel. Table favors were also cut for.

Refreshments of hot coffee and chocolate and cake were served.

HOYTE CLUB

The club ladies met with Mrs. H. B. Pressley on Jan. 17th. Our home agent gave us a demonstration on tough meats and tender meats. The meeting was opened with the club prayer read by Mrs. Pressley and then we had our club song. Our visitors were Mrs. Gertrude Brown and Mr. Adolf Hanle and Mr. Robert Conner. Our next meeting will be on the 14th. It will be at Mrs. rank Winkler.

TUESDAY BRIDGE CLUB

The Tuesday Bridge Club met with Miss Mary Lake Henderson this week with every member present and one guest, Mrs. Meadow. Spring flowers of everykind furnished adornment for the beautiful colonial home of the Henderson's.

The four tables of players enjoyed three games, at the conclusion of which it was announced that Mr. Arthur Kruse had made high score and Mrs. Dan Tyson, low.

The party plate consisted of fruit salad served on red cabbage leaf, crackers, crystalized ginger and hot tea. This was followed by a dessert course of ice-box pudding topped with whipped cream. The hostess was assisted by Miss Winnie Henderson.

Mrs. Harry Mayes Dies
Memphis, Tennessee

Mrs. Harry Mayes, formerly Miss Irene Kemp, died early Tuesday morning in a hospital in Memphis, Tennessee. Her sister, Mrs. B. E. McMillan of Cameron was notified last week of her serious illness and she, with Mrs. S. M. Burns Sr., left Saturday for Memphis.

Mrs. Marshall Kemp of Waco, mother of Mrs. Mayes, left Tuesday for Carruthersville, Mo., where burial was made Wednesday. Mrs. Mayes is survived by her husband and one small son.

Other relatives in Cameron besides Mrs. McMillan are the S. M. Burns and the George McGehee families.

WORLD DAY PRAYER

The Federation of Missionary Societies is sponsoring the World Day Prayer hour at the Methodist church at 3:00 o'clock P. M., on February 15. The purpose of this meeting is to secure a unity and spirit of oneness among the peoples of the Christian churches.

Mrs. W. G. Gillis will lead the meeting and will present the subject: "That They All May Be One."

There will be an Executive Board meeting immediately following this program.

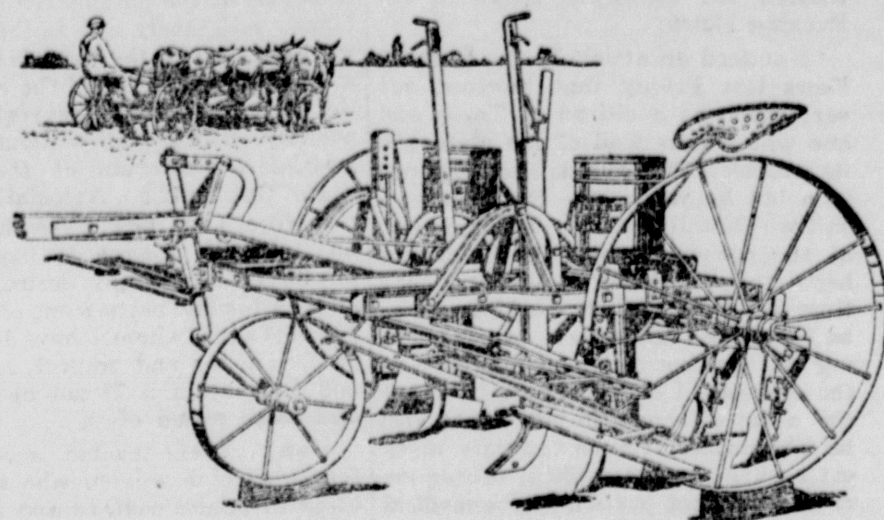

GLENN FLINN VISITS
CAMERON TUESDAY

Glenn Flinn, student at the University of Texas, was in Cameron Tuesday for a short time to visit his mother, Mrs. E. A. Flinn and family. Mr. Flinn has many friends here who are

always glad to welcome him to Cameron.

He will return to Cameron after the school term is over in June. While

here he was a visitor in The Herald office. Mr. Flinn was advertising manager for The Herald before going to the University.

Saving One Man's Wages
on Texas FarmsJohn Deere No. 210
Two-Row Cotton and Corn Planter

Here's the cotton and corn planter that was designed especially to reduce planting costs for Texas farmers. It plants two rows every trip across the field, saving one man's wages at planting time. It has every new feature in planter design. It does a better job of planting under all conditions.

The famous John Deere Saw-Tooth Type Steel Picker Wheel plants even the lintiest seed just as you want it planted—one seed at a time (or more, if desired), in any quantity per acre.

Although designed espe-

cially for bedded land, the No. 210 is adaptable for any method.

It handles wet cotton seed without clogging.

Equipped with the famous John Deere No. 999 Natural-Drop Seed Plate, the No. 210 plants a variety of seed, including peanuts, as accurately as the human hand.

Another feature that's mighty important is the John Deere tongue truck, with tilting lever, which relieves horses of neck weight. The wheel runs steady and casters freely when turning.

40 Years Insuring Property, Agent Can Tell Much History

Forty years in insurance business in Cameron, S. P. Cross can tell some interesting stories in connection with the development of the city as well as the insurance business in this locality. A representative of this newspaper found the veteran the other day deeply engrossed in work but he took a few moments to tell of some of his experiences.

A remarkable fact is that some insurance policies placed on the books of the agency 40 years ago are still on his books. In those days the agencies did not have the standard insurance maps now issued by the insurance department at Austin. In fact there was no fire insurance commission in those days and the agent had to make his own maps. Mr. Cross has made risk maps of a number of Cameron buildings insured by the agency. He has been extraordinarily attentive to the duties of the agency and shows a personal interest in every risk on his books.

Mr. Cross was one of the early station agents for railroads and has had other valuable experiences. He has used the same style of bill head for many years in his business. His advertisement in the telephone directory is so written and arranged that it represents seven crosses. The walls of his office are pasted and hung with many slogans, sayings and interesting clippings and photographs.

GOLDEN WEDDING FOR PIONEER COUPLE IS CELEBRATED IN CAMERON SUNDAY

The Golden Wedding Anniversary of Mr. and Mrs. Wm. Blumenthal was the occasion for a happy gathering of friends and relatives Sunday in the home of their daughter, Mrs. R. A. Tag.

A half century of inseparable companionship, mellowed by the love-light of home and friends found the aged couple, now walking into the sunset together, happy and surrounded by friends who gathered to make the occasion one of commanding esteem.

Mr. and Mrs. Blumenthal have recently moved to Cameron from Bellville, built a home and will live their lives out near their daughter, Mrs. R. A. Tag. On the occasion of the celebration of the wedding anniversary they add many friends to their increasing list of acquaintances in Cameron and these friendships will sweeten life in their declining years.

Congratulations have been showered upon them. Fifty years of happy wedded life. They have been full years, busy with cares, but much time to be happy. From the store house of memories they will draw heavily and the occasion last Sunday will be a favored impression as they begin their residence among the good people of Cameron.

The living room and dining room of the home were decorated in yellow, symbolic of the golden anniversary. Yellow daisies were used in profusion in the living room. The centerpiece for the dining table was a two-tiered white cake embossed in orange. At each end of the table there was an orange taper in an orange holder and further embellishment for the table was in the shape of vines twined around the edge.

The ceremony began with the entrance of the honor guests and their attendants, Mr. and Mrs. R. A. Tag, Mrs. H. N. Tate, Lee R. Tag and Rev. P. T. Ramsey. Mr. and Mrs. Blumenthal occupied a seat of honor about which the attendants were grouped. Mrs. Blumenthal was attractively gowned in maroon satin with lace trim and Mr. Blumenthal wore a dark business suit. Mrs. H. N. Tate in very pleasing manner read the following toast to the bride and groom of fifty years:

"My friends, we are assembled here today,

And some have come from far away, To celebrate a happy event Which fifty years have honor lent. This is the golden wedding day Of friends who have come to Cameron to stay,

And have built them a cozy little home And say they never more will roam. In Bellville, Texas, Feb. 4, 1879, Mr. William Blumenthal, Miss Malinda Vierick were wed, And since then most useful lives have led.

So then let's toast the bridegroom, The best old friend we know, And the bride he won fifty years ago, May this semi-centennial of earthly love

Be the type of perfect centennial above.

Here's to one who many years has been a bride,

True and faithful by his side, And we know that Heaven has blessed you Since the day he first addressed you.

And both your cup of joy to fill Have wrought for good and not for ill. Now may you both be true to God As you travel sweetly down life's road.

Here's to love and the wedding ring that bind you;

May poverty always be a day's march behind you.

And here's to marriage, that happy estate,

Which we today so fittingly celebrate. Here's to bride and bridegroom,

We'll ask their success in our prayers, And thru life's shadows and sunshine May happiness ever be theirs.

May the blessings of God wait upon thee,

And the golden sun of glory shine around thy head.

May the gates of plenty, honor and happiness

Be ever open to thee and thine."

Following this appropriate toast, Rev. Ramsey made a short talk on God's plan for marriage and the manner in which the venerable honor guests had carried it out. Then Lee Tag, grandson of Mr. and Mrs. Blumenthal, presented them with a huge spray of yellow calendulas. The service was closed with a prayer by Rev. Ramsey.

The guests were served a salad plate consisting of Candel salad, heart shaped sandwiches, cheese balls, crackers, coffee and a slice of the white and orange cake. Plate favors were bouquets of violets tied with yellow ribbon. Assisting Mrs. Tag were Mrs. Lee R. Tag, Mrs. H. N. Tate and Miss Margaret McCown.

Mr. and Mrs. Blumenthal only recently moved to Cameron from Bellville, and they live in a little cottage in the rear of the home of their daughter, Mrs. Tag. When they came here, they moved from the house in which they had lived all of their married life, almost fifty years, and it was within two miles of the house in which Mrs. Blumenthal was born and reared. Mr. Blumenthal came from Germany when he was six years old and settled at Bellville. They have two children, Mrs. Tag, and a son living in Houston, who was unable to be here Sunday.

Guests invited for the celebration were Mr. and Mrs. J. D. Eplen, Mr. and Mrs. Leland Green, Mr. and Mrs. Harden, Mr. and Mrs. Sam Graham, Mrs. Henry Davis, Mrs. J. B. White, Mrs. Meta McCown, Mr. and Mrs. H. N. Tate, Rev. P. T. Ramsey, Mr. Jeff Kemp, Miss Willie Hefley, Miss Margaret McCown. Members of the family, other than the honor guests were Mr. and Mrs. R. A. Tag, Mr. and Mrs. Lee R. Tag and Harry Tag.

On Monday afternoon Mr. and Mrs. Blumenthal were hosts to Mr. and Mrs. Denker of Cameron who came to wish them the continued happiness of their past years. This visit added much to the joy of the occasion to Mr. and Mrs. Blumenthal and it will long be cherished in their memories.

The Herald extends congratulations to Mr. and Mrs. Blumenthal on their long and happy married life and wishes them many more years together.

JOE PORUBSKY

Joe Porubsky, age 27 years, died Wednesday morning, February 6, at the home of his parents. He was apparently perfectly well the evening before and died quite suddenly.

Funeral services were held Thursday morning at ten o'clock. Interment was in Oak Hill cemetery, with Coleman and Eplen in charge.

To the Sheriff or any Constable of Milam County,—Greeting—

You are hereby commanded to summon S. M. Clark by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March 1929 then and there to answer a petition filed in said court on the 30th day of January 1929, in a suit, numbered on the docket of said court No. 10,166 wherein Mrs. Eliza Clark is plaintiff and S. M. Clark is defendant said petition alleging:

Plaintiff alleges that she and the defendant were married on the 20th day of July 1927, and the defendant

was an adventurer, and that he was guilty of cruel conduct toward her and cursed and abused her and refused to provide for her and his conduct was so outrageous toward her that it rendered her living together with him insupportable, and she now declares that she never again will live with him or cohabit with him as his wife, and she sues him for a divorce on account of such cruel treatment, of which he was guilty in Milam county, Texas, and for costs of suit, for the restoration of her former name, and for general and special relief.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of January, A. D. 1929.

IN DESPAIR

Run-down and Nervous Woman Picked Up, Got Strong.

"I can heartily recommend Cardui, because I have found it so helpful," declares Mrs. Norton Smith, of Warrenton, Georgia.

"I was very much run-down, and was hardly able to get about.

"I could not sleep at night, and was in a highly nervous condition. Nothing seemed to help me, and I was almost in despair. I decided to try Cardui and set for a bottle.

"I soon began to improve. I got so I could eat. My appetite was good. My nerves got stronger, and I was able to sleep well at night. I picked up in weight and my color was much better."

Cardui is sold by all druggists. Try it.

THE CAMERON HERALD THURSDAY, FEBRUARY 7, 1929

RIG IS MOVED ON LOCATION FOR DEEP TEST NEAR MILANO

Milam County Is Attracting Investors In Oil Properties

Greatest Activity In History County Is Shown; Real Search On for Earth's Hidden Wealth

Passing the stage of proven production in shallow oil fields Milam county is now attracting the earnest attention of the larger companies and the most intensive survey in the history of the county is now in progress for big pay sands.

The hidden treasures of the earth have since recorded time held out a strong appeal to the venturesome spirits of men and oil is magic with its romantic appeal of wealth and adventure.

An earnest effort is now being made for deep oil. The larger companies have been attracted by the showings in Milam county and the various structures and geological data gathered by scouts and research work have given encouragement to producers and all indications are that within the next few months belief that deep oil exists in Milam county will be proven in reality.

While operations in the county at present are confined to research work, not since the discovery of oil in paying quantities at shallow depths, has activity been so pronounced. At least two major companies, the Gulf and the Texas are now in the field with their crews of research men. Geologists and men in private practice of research work in connection with surface and sub-surface formations are now in the field, and all of them men of proven ability and experience.

Definite information regarding opinions held by these men and their companies cannot yet be obtained for publication but developments indicate that their faith in the ultimate development of deep pay sands in this county will lead them to the most thorough survey and search ever made in this section of Texas. Logs of deep test wells, formations, topography and structures are being brought under close scrutiny and reports are being furnished of findings.

At this time the center of interest is at the locality of the Johnson well near Thorndale where after 2000 feet of drill stem has been sunk, oil flows from the earth and promise of deep production is in prospect.

Despite the disappointing indications from the Louis test in the Thorndale wildcat four miles northeast of that city Wednesday, there is a feeling of great interest in the well and acreage continues to bring good prices. It is known that two of the major companies have made investments and local men as well as oil men from other portions of the Southwest have bought freely and a commanding figure is noted in all acreage transactions as well as royalty contracts.

In the test Wednesday the fluid rose in the drill stem 14 doubles or 560 feet in 30 minutes with a topping of oil of two doubles or 80 feet of oil. Press reports say that oil men from Luling and Fort Worth and Corpus Christi believe the well is a small producer but the showing of this well assures that section of an intensive drilling campaign. Until a core taken Wednesday is reported on the exact status of this well will not be known.

Blocking of acreage in another section of the county has been completed and public announcement of location and all details of the test will be available within a few days.

In the meantime oil men continue to come into the county and with a continued good weekly production schedule in the Rockdale and Minerva fields the atmosphere of oil development is pronounced.

Abstracting firms in Cameron are kept busy almost day and night in connection with investments in acreage and royalty and Cameron extends a warm welcome to the fraternity of oil men.

Oil Drop Is Posted On Minerva Crude

A reduction of 20c per barrel in the price of Rockdale-Minerva crude oil now brings the price down to \$1.21 per barrel for 39-gravity.

This further reduction of the price of crude is very unwelcome news to producers in Rockdale, Cameron and Minerva and will not be useful in stimulating further development of the field. The continued low price of crude has had the effect of holding up development. Despite this drop however, the field continues to pay the producers.

Minerva Refinery Sale Recalls Bit of Local History In Field

Sale of the Kent-Middleton oil interests, including the refinery at Minerva and all the holdings of the field to the Central Texas Refining Company with assets totaling \$1,600,000 recalls a bit of interesting history in connection with the property and development of the field.

The late John S. Owens who died in 1928 in Brownwood built this refinery in 1922 at Minerva. The site for this refinery was purchased by the Cameron Commercial Club and given as a bonus to the builder. Officers of the Owens Refining Company were maintained in Cameron and this city knew greater prosperity as a result of the operation of this plant by Mr. Owens.

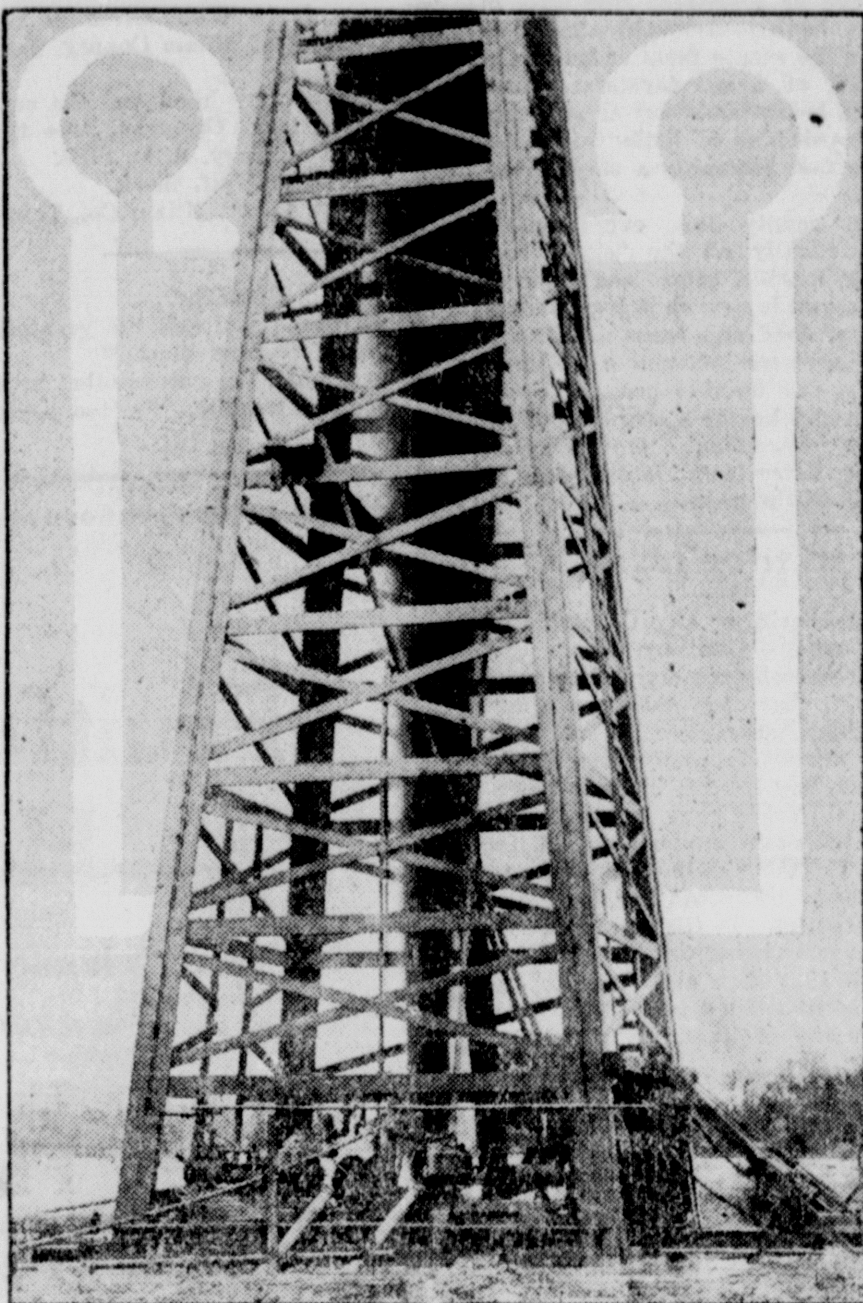

The refinery was constructed when the field first began to show signs of paying production and after its completion the field was rapidly developed, extending to the very limits of the city of Rockdale. The field is said to be one of the best shallow production areas in the Southwest with an especially good grade of oil with a high gasoline content.

R. J. LONG TAKES OVER HUMBLE AGENCY HERE

R. J. Long who has been agent here for the Pennant Oil Company has been made local agent for the Humble Oil and Refining Company to succeed W. B. Skelton, who is now with the Texas Company.

Mr. Long has been quite active here in oil circles having begun business here with the Owens Refining Company. A large number of pumps have been installed at the Humble stations here.

THIS WELL ONCE GAVE CAMERON BIG THRILL; OIL AND GAS SHOOT OVER BIG DERRICK OF POSEY WELL NO. 1

THE POSEY WELL

This photograph of the Posey No. 1 east of Cameron in the sand country was made on the occasion of a barbecue sponsored by the Chamber of Commerce in co-operation with I. C. Bell and associates who drilled the well. This well was never a producing well but showed a strong pressure of gas and when caught by the camera was sending water, oil and mud over the 100 foot derrick. The well was abandoned but the discovery of gas in what is believed until this day to exist there in paying quantities, led a few venturesome spirits to consider it. (Continued on last page, this section)

Cedar Creek Property And Booher Tract To Get Test As Big Rotary Installed

Lease Money Pouring Into Pockets of The Land Owners Here

Lease money in great volume is pouring into the pockets of Milam county land owners.

The office of the county clerk is a busy place these days recording oil leases. Prices ranging from \$1.00 per acre to five hundred dollars per acre and more are being paid for leases.

A surprise development of the week is the leasing of the Branchville community again. Indications are that this section will soon get development and one tract of land was leased there for \$1400 this week.

The highest prices being paid are in the vicinity of the Johnson well at Thorndale where production seems assured.

Leases filed are in such numbers that the Herald could not get all of them for lack of time.

One of the big developments of the week in Milam county oil development was the location of a well on the Booher tract near Milano on Cedar Creek.

A big rotary rig was moved on location Monday of this week by Chas. McDermott for the drillers to begin work.

The deep test is expected to be spudded in sometime within the next few days.

While little detail could be gathered for this story covering the operations in this sector of the county, it is understood that the drillers are experienced men and have considerable backing to give the Cedar Creek property a thorough test.

A big block of acreage was leased there some months ago. Those interested in oil development have watched this leasing with interest.

The well is strictly a wild cat well and in some well informed circles will (continued on last page, this section)

J. T. Leach, Veteran Operator, Has Faith In Milam To Yield

J. T. Leach, veteran oil man, has faith in Milam county to yield the big pay when proper development is undertaken.

Mr. Leach made the discovery well in the Mexia gas field and has been in Cameron since 1918 and has great faith in the structure in this section of the county.

He has made an intensive study of geology and there is no prospective structure in the county with which he is not thoroughly familiar.

He holds to definite convictions about development and believes that wells drilled in certain sections will yield big pay.

MINERVA REFINERY IS MERGED IN BIG DEAL

CENTRAL TEXAS REFINING CO. ACQUIRES KENT-MIDDLETON HOLDINGS IN COUNTY

(Rockdale Reporter)
The Kent-Middleton oil interests in Milam county, including the refinery at Minerva, passes to the ownership of a corporation with holdings valued at \$1,600,000, according to a news story in the Brownwood Daily Bulletin of January 26. The news story as printed by the Brownwood paper follows:

Reorganization Effected
The Central Texas Refining Company completed a reorganization at a (continued on last page, this section)

Texas and Texans

By Will H. Mayes

Texas Industries Needed

Most of the Texas chambers of commerce are placing special emphasis on securing more industries during 1929. Most of them, however, fail to state just what industries they expect to secure and how they expect to go about securing them. Organizations, like individuals, often start off the New Year with bombastic resolutions to do things that are soon forgotten. Most of them mean well enough, but do not stick closely enough, to one effort until it succeeds, or else they strive for something impossible of attainment instead of trying to do the things that can be done in their own communities.

Texas needs industries just now more than it needs more farming, more merchandising or more banking. Farming especially is suffering because there are not enough industrial workers to buy farm products at prices to pay the farmers for their labor. Bank vaults are full of money that can't be loaned to advantage, but that should find an outlet in factory investments and loans.

Small Factories Overlooked

The trouble with most chambers of commerce is that they overlook the opportunities for small industries and do not give enough encouragement to them after they are secured. For instance, there are a large number of small mattress factories in Texas making good mattresses, but it is hard to find a Texas-made mattress in a Texas store, and Texans do not insist on having the home-made article that is much better than the one made "up North" and sold at the same price.

Texas-made work clothes are being shipped to Northern markets, given a Northern brand or trademark and shipped back here and sold because Texas people seem to prefer to buy what they believe to be Northern products.

The most successful nationally-known industries are those that have been started in a small way and built up from local to national reputations.

There is hardly a Texas town that does not have an opening for some small industry that could be established with local capital if only it could be assured the support of the members of the home chamber of commerce.

We need to develop in Texas a greater pride in our Texas-made products, after which it will be easier to get more and bigger industries established.

Texas-Made Silk Hosiery

I have just seen that there is a factory in Dallas that is making silk hosiery as nice looking and as good as made anywhere. The factory is importing its silk and making it up, and is hoping to find near-by markets. It employs 35 people at present and can make 360 pairs of hosiery a day.

I am wondering how many Texas merchants—members of chambers of commerce, if you please—are trying to get their customers to buy Texas-made hosiery in preference to that made elsewhere. I do not remember ever to have seen an advertisement of Texas-made hosiery and certainly have never had a merchant offer to sell me the Texas article.

There is a Texas factory making a specialty of sheets and pillow slips, but I doubt if a store in Texas made a window display of these Texas products during the January white goods sales.

Texas cheese factories are making a reputation for themselves, but if I have eaten any Texas-made cheese I have not known it and my grocer has

not tried to sell it to me as a Texas product.

So, all along the line we are woefully neglected in our patronage of Texas industries and chambers of commerce should hammer this shameful fact into the heads of the people.

School Book Matters

There appears to be merit in a bill introduced in the Texas Senate to apportion the school book funds of the State to the school districts and let them buy their own books. No good reason, except that the economy, can be given for using the same text books in every school in the State, and at the prices at which Texas has been buying books there seems to have been no economy in buying in large quantities.

Why not have the text book board approve lists and prices of several books in each study, and leave the counties or school districts free to make their respective apportionments? This would at least scatter the text book scandals and might stop them altogether.

Enlarging Scope of Schools

An effort will be made to have the name of the State Teachers' College at Kingsville changed by the present legislature to the South Texas Technological College and to enlarge the scope of its teaching. The Texas Technological College at Lubbock has rapidly taken up the work of a university and will soon be in reality, if not in name, a North Texas University. The western part of the State is hoping to have the School of Mines at El Paso become a University for that part of the State and it already is doing the work of a State-supported junior college. The University of Texas is devoting more and more attention to research and to "bureaus" of one kind and another, carrying its "extension" work to all parts of the State. The A. & M. College is constantly broadening its extension activities. In some particulars there is an apparent overlapping of the educational activities of the numerous schools and of the State Department of Education.

All of which goes to show that Texas has reached the point where its educational system needs the close supervision and management of a certain board of education if there would

be economy in school administration.

Railroad Encroachments

Having secured control of certain bus lines in South Texas, the Missouri Pacific line is seeking a permit to extend its lines to include Houston and Galveston, and the Southern Pacific is now asking for permission to operate a bus line from the western line of the State into El Paso.

It begins to look like, unless there is some legislative action to prevent it, the railroads and their subsidiary companies will soon have exclusive control of passenger and freight traffic on the State highways, and the people will be footing the bills for road building and maintenance.

Diversification Pays

Wherever you find an unusually prosperous community you will find that there is diversification of products. The dairy and poultry interests of the State, since they have been recognized as profitable side lines in farming, have contributed almost as much as the staple farm crops to the prosperity of Texas farmers. Much money is being made out of products once regarded as of little value. Pecans are fast becoming a staple Texas crop.

Burnet county has experimented with practically all the "side-lines," including marble, stone and mineral products, and is now shipping peanuts by the car load and these are bringing the growers "around a dollar a bushel." The humble peanut should not be overlooked as a money producer. The Carolinas' unprecedented prosperity dates from the discovery of the value of the peanut.

STATE OF TEXAS

To the Sheriff or any Constable of Milam County,—Greeting.

You are hereby commanded to summon S. M. Clark by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March 1929 then and there to answer a petition filed in said court on the 30th day of January 1929, in a

suit, numbered on the docket of said court No. 10,166 wherein Mrs. Eliza Clark is plaintiff and S. M. Clark is defendant said petition alleging:

Plaintiff alleges that she and the defendant were married on the 20th day of July 1927, and the defendant was an adventurer, and that he was guilty of cruel conduct toward her and cursed and abused her and refused to provide for her and his conduct was so outrageous toward her that it rendered her living together with him insupportable, and she now declares that she never again will live with him or cohabit with him as his wife, and she sues him for a divorce on account of such cruel treatment, of which he was guilty in Milam county, Texas, and for costs of suit, for the restoration of her former name, and for general and special relief.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of January, A. D. 1929.

Penn Wolf, Clerk,
41-4tc Dist. Court, Milam Co., Texas

PAPER 128 YEARS OLD TAKES READER BACK TO EARLY HISTORY OF COUNTRY

A copy of the Ulster county Gazette, published at Kingston, New York, on Saturday, January 4, 1800, the paper being more than 128 years old, is in possession of C. G. Stokes of 508 13th avenue. The paper, remarkably preserved, contains many interesting accounts dealing with events of the time.

A report of the meeting of the American congress, Tuesday, December 10, 1799, signed by John Adams, appears in the first column, first page followed by report of the meeting of the senate. A speech made to the president shows that problems were being encountered. A section of the speech follows:

Prompt Action Praised

"While we devoutly join you in offering our thanks to Almighty God for the return of health to our cities and for the general prosperity of our country, we cannot refrain from lamenting that the arts and callings and designing men, have excited open rebellion a second time in Pennsylvania, and thereby compelled the employment of the military forces to aid the civil authority in the execution of the laws.

"We rejoice that your vigilance, energy and well timed exertions, have crushed so daring opposition, and preventing and spreading of such treasonable combinations. The promptitude and zeal displayed by the troops called to suppress this insurrection deserves our highest commendation and praise, and affords a pleasing proof of the spirit and alacrity with which our fellow citizens are ready to maintain the authority of our excellent government.

Protection Is Stressed

"Knowing as we do, that the United States are fiercely anxious for a fair and liberal execution of the treaty of amity, commerce and navigation entered into with Great Britain: we learn with regret, that the progress of adjustment has been interrupted by a difference of opinion among the commissioners. We hope, however, that the justice, the moderation and the obvious interest of both parties will lead to satisfactory explanations and that the business will then go forward to an amicable close of all the differences and demands between the two countries.

"When we reflect upon the late uncertainty of the result of the late mission to France; and upon the uncommon nature, extent and aspect of the war now raging in Europe, which affects materially our relations with the powers at war and which has changed the condition of those colonies our neighborhood; we are of opinion with you, that it should be neither wise nor safe to relax our measures of defense or to lessen any of our preparations to repel aggression."

Advertising in Rhyme

Advertising had its fine points in those days, just as it does now. Here's a fine sample:
"Luther Andres and Co. have this day Been opening goods fresh and gay He has received near every kind That you in any store can find And as I purchased by the bale I am determined to retail For READY PAY a little lower Than ever have been had before I with my brethren mean to live But as for credit shall not give. I would not live to rouse your passions or credit here is out of fashion. My friends and buyers, one and all It will pay you well to give me a call You may always find me by my sign A few rods from the house divine. The following articles will be received in payment: Wheat, Rye, Buckwheat, Oats, Corn, Butter, Flax, Ashes and Raw Hides. These articles will be taken in at the Esopus prices. CASH will not be refused. Warfink, Dec. 24, 1799.

Negro Wench on Block
Another ad reads: "For sale, the one half of a saw mill with a convenient place for building lying in the town of Rochester. By the mill is an inexhaustible quantity of pine wood and also,

A STOUT, HEALTHY, ACTIVE NEGRO WENCH
Any person inclined to purchase may know the particulars by applying to John Schoonmaker, jun., at Rochester, December 23, 1779."

Four Pages to Paper
An unusual amount of news was moulded into the four pages of the paper. Most of the type is small. The total size of the paper is 15 by 12 inches. Four columns appear on each page. The letter "f" is used in the readin matter, frequently in place of "s" appears in such words as lordships, battalions, but doesn't in circumstance reading circumstance.

It seems that there was a need for ashes, at least to the extent that they were taken in at the stores. Men were selling property in those days, just as they are now, while husbands were at odds with their wives, as the following notice will attest:

"Second notice of my wife, Hannah, is hereby given, forbidding all persons whatever from harboring or keeping her, and for intrusting her on my account, as I am determined to pay no debts of her contraction. Matys Van Steenberg, Saugertiesl (Kingston precinct) Nov. 18, 1779."—Meridan Star.

Good steel water tank tower for sale cheap. J. L. Barmore.

UNIQUE TORSION NEUTRALIZER USED IN NEW HUDSON MODELS

Although Hudson engineers have for years paid special attention to smoothing out the flow of power as it issues from the engine and is passed, through flywheel, clutch, drive shaft, universal joints, etc., to the rear drive, they have this year contrived to crown their efforts with a device that removes the last remaining tendency to unevenness that might develop in long continued driving.

The new contrivance is incorporated in the cork-studded clutch plate and is, rather aptly, called a "torsion neutralizer." The neutralizer gives the clutch plate a two-unit construction, the two units being made inter-acting thru the medium of small spiral spring which not only absorb the shocks of starting and sudden stopping, but in addition smooth out such torsional or power impulses, ordinarily communicated to the transmission and final drive.

DOROTHY DENSON MAKES EXCELLENT RECORD AT SOUTHWESTERN SCHOOL

Miss Dorothy Denson, daughter of Dr. and Mrs. T. J. Denson of Cameron student at Southwestern University at Georgetown, has been complimented by the faculty for her excellent grades. She is among the students on the honor roll, having made a grade of 90 and more during the fall term.

FLORELLE COATS HEADS T. P. C. FRESHMEN

Miss Florelle Coats of Milford has been elected president of the Freshman class of T. P. C. She is also a member of the French Club and a member of the basket ball team.

The other officers of the class are: Rebecca Delinger, vice president; Jean Trull, secretary and treasurer. and Kathleen Varner, reporter.

BUILDERS CLASS

Members of the Builders Class of the Christian church Sunday school met with Mrs. G. C. Walters Tuesday evening for the purpose of electing officers. Mr. Raymond Beard was elected president; Mr. Ed Lovick, vice-president; Miss Annie Woolley, secretary and treasurer; Mrs. H. Starling, teacher. and Mrs. Martin Killian, assistant teacher.

Following the business session, those present enjoyed games and tunts. Mrs. Walters served a sweet salad and coffee.

BRIDGE CLUB

Mrs. R. P. Jeter was hostess to members of the Bridge Club last Friday afternoon. Spring flowers such as violets, narcissi and fire-on-the-mountain, were used in the rooms where the tables were placed.

Mrs. Oxsheer Smith made high score and was awarded a china basket for flowers. Mrs. Jim Coleman, who won low score award, was presented with a doll pin cushion.

The hostess, assisted by Mrs. Geo. Graves, served a salad plate, hot tea and a dessert course.

LONE AMERICAN BLOCKS MOVE TO BOOST RUBBER

HARVEY S. FIRESTONE STOPS JUMP IN TIRE PRICES BY BREAKING MONOPOLY

The average motorist, who today is paying less for his tires than at any time in history, does not realize that but for the courageous stand taken by the well-known tire manufacturer, Harvey S. Firestone, tire prices would probably be at exorbitant levels.

Several years ago, British rubber growing interests agitated for government control of production in order to place the industry on a more lucrative basis. The planters succeeded in winning over their government and in November 1922, the well-known Stevenson Restriction Act went into effect.

Under this scheme, British rubber growers were to restrict their output to about 60 per cent of normal until the price of crude rubber reached a certain level. Shortly thereafter, the market jumped to over \$1.00 per pound and but for Mr. Firestone's intervention, it is likely the market would have soared much higher.

Realizing what such conditions would soon mean to the motor vehicle owner, Mr. Firestone called a meeting of rubber and automotive heads in Washington, D. C., and there steps were taken which first found expression in a decision by the United States Government to appropriate \$500,000 to be used by the Federal Departments of Commerce and Agriculture to investigate and report on new sources of supply.

This investigation was augmented by a survey made by Mr. Firestone who late in 1925 completed negotiations with the Republic of Liberia whereby that government leased to the Firestone Plantations Company for 99 years, 1,000,000 acres of excellent rubber growing lands.

That crude rubber prices should today be back to normal and that tire prices are lower than ever before in history, may be credited to the courage and foresight of Harvey S. Firestone, who practically singled handed, opposed foreign interests controlling a larger part of the rubber plantations of the world.

Would You Attend a Business College

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people thru our loan fund.

If you are in good standing in your

community and can furnish the best of references, we shall be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced on account of financial reasons to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it to: Tyler, Texas, or to

Voices in the Night

A little girl was put up in an upper berth of a Pullman sleeping car for the first time. She kept crying, till her mother told her not to be afraid because God would watch over her.

"Mother, you there?" she cried.

"Yes."

"Father, you there?"

"Yes."

A fellow passenger lost all patience at this point and shouted: "Wer'e all here. Your father and mother and brothers and sisters and aunts and uncles and cousins. All here; now go to sleep."

There was a pause; then very softly, "Mama."

"Well."

"Was that God?"

Mrs. A. L. Peterson and daughter, Connie of Waco were guests last week end of Mr. and Mrs. C. H. Ruby.

NEW ELECTRIC INVENTION IN USE IN RESEARCH WORK BY CREW OF THE GULF REFINING COMPANY

An electrical invention by a noted Swedish scientist is being used for the first time in connection with research work in Milam county, it became known here this week with the arrival here of a crew of operatives for the Gulf Refining Company.

This instrument working on the principle of the radio has attracted the attention of the oil fraternity and keen interest is being shown in its use here in connection with research work. Structures, salt domes and other discoveries of a geological nature are recorded with the use of this invention.

It is said that Milam county has been the mecca for as intensive research work as has been noted in any county in Texas with an equivalent of prospects.

Residents here recall the work done here last year by a crew operating the Seismos for one of the large companies. The Seismos records facts concerning earth formations when used in connection with explosives, a photo-

graphic process being a part of the invention. By the use of this and other scientific methods stratas are discovered where oil is trapped and exists in paying quantities.

So far as known no proven method of scientific discovery of oil or minerals has been advanced. The discoveries are always taken into consideration and developed with plain geology and from the reports the geologist gives an opinion as to prospects for oil. Without these scientific methods and the work of geologists the search for oil would be confined altogether to wildcat ventures and would entail greater expenditures on the part of the companies continuously searching for new supplies of oil.

While the wildcat still remains a commanding figure in the world of production and discovery his world of romance is being rapidly circumscribed by the spread of science and the enlightening developments of higher geology.

has so much activity been noted and the abstract office feels the pulse beats of the development.

Tailoring Head Visits Cameron On Way West

Louis Pall and wife of Cincinnati, Ohio, were in Cameron last week on their way to California for a vacation trip. Mr. Pall is head of the Pall Tailoring Company of Cincinnati, one of the largest firms in that city.

W. M. Huff is the local representative of the tailoring firm. He is in Brenham this week on business. This is the first time in the history of the city the head of an outstanding tailoring firm has visited his territory of representatives and his visit is a compliment to Mr. Huff.

WESTBROOK IS NAMED WEIGHER FOR CAMERON PRECINCT NUMBER 1

Ed. Westbrook former public weigher at Ben Arnold, has been appointed public weigher for Precinct No. 1 at Cameron, according to dispatch from Austin following action of the Senate Saturday.

Mr. Westbrook has been a resident here for several months. He will have charge of the weighers yard this fall, weighing cotton. In idle months Mr. Westbrook is a farmer.

Trade Briefs

Mrs. B. F. Bonds will leave this week for market to buy goods for her residence shop here. She expects to be back in the city after next week and to arrange for an opening display on Tuesday, February 12.

Henry Lippman's popular store is making a hit with the big line of popular and late style shoes for women. Hy Rosenthal is in charge of the department and is an experienced shoe man.

Cecil Cone of the Cone Implement Company is finding business good these days. International Harvester Company Implements and Trucks and Farmall Tractors are proving attractive investments for farmers in improving their farm equipment. Mr. Cone expects a big business this year. Already a large number of trucks and tractors have been placed.

"Our implement business has been good," said Judd G. Davis of the Milam County Hardware Company on his return here last week from the convention of hardware dealers held in Dallas. The hardware store has a large stock of implements and expects a big business this year. The store is featuring a new iceless refrigerator that operates on kerosene for 2c per day, just the thing for farmers.

Mr. Lemm, manager of the Maytag Shop says the reception given him here has been very encouraging. He declares he is booked for two weeks ahead on demonstrations. The shop is located at the Keith Electric Company and several models of machines are on display. The Maytag is the largest output of washing machines in the world.

Frank Stewart, manager of the Nuway Grocery, reports a good business. The store has not missed an issue of Cameron papers since opening here with advertising matter. Prices are quoted and Mr. Stewart says his business is increasing.

J. T. Parma, pioneer in cash grocery business in Cameron has another list of red hot specials for Saturday. He is now in his 21st year of business in Cameron and his store has lost none of its popularity among the people. He is an advertiser of force and power and attributes his success in a large measure to advertising.

"Just whistling along," is the way

J. D. Dobbins puts it. An attractive display advertisement in this issue tells of great grocery bargains at the cash store. Mr. Dobbins finds it hard to wait on the people, especially on Saturday. He believes in advertising.

The McLane grocery, in the legends of advertising is known as the "Ham House" reports good business. The big store is always a place for grocery bargains. The McLane Brothers are good merchants and know how to run a grocery store. "Our business is good" said "Little" Bob in discussing the outlook.

Hubert Hefley Motor Company has received a number of shipments of new Ford cars and can make immediate delivery. Business in new Ford cars is brisk these days with the big agency here. The new building will soon be completed and when the new unit is added the store will be one of the largest in this section of Texas.

"I wish I had ten car loads of Chevrolet cars," said Chas. Coleman of the Coleman Chevrolet Company. The company has a large number of orders that are to be filled when the new cars reach here in sufficient quantities. The new Chevrolet Six is proving a popular seller.

W. B. Levy will go to Dallas next week to purchase goods for his store here for spring and summer trade. He expects to buy a heavy stock and be well prepared for the trade when the season opens. Merchants generally are not yet displaying new spring goods but within a few days the stores will have their stocks on display.

Mrs. Copus at the Specialty Shop will leave for Dallas to purchase goods some times within the next few days. She expects to purchase a good line of merchandise and will have the goods on display in a short time.

C. W. Bradbury of the Pierce and Bradbury dry goods store in Cameron will leave for the markets within the next two weeks. Mrs. Bradbury will in all probability accompany Mr. Bradbury. A full line of spring and summer goods will be purchased for the trade of this store. Mr. Bradbury is a very successful merchant and a good buyer and hopes to bring back many new style creations for the customers of the store.

At the Cheeves Brothers store new goods are being unpacked for the spring and summer trade. The buyer,

Mr. Cheeves, expects to receive a large shipment of spring goods soon, having gone each year to the markets for this big store. Mr. Cheeves has been elected president of the First National Bank and has been quite busy this week. Sam Cheeves, following his college days has been in the store for the past two years and is one of the most successful of the young merchants of the city. Mr. McIntosh has been ill but is back at his post of duty at the store.

Cameron Seed Company Serves Planters Here

One of the interesting displays in the city at this time is at the Square drug store, headquarters for the Cameron Seed Company. W. L. Turner, druggist and world war veteran, has a most attractive display of seed both garden, fruit and field seed.

The Cameron Seed Company is owned by Mr. Turner and Dr. Sutton and was established here several years ago and has served a definite purpose for planters.

"You would be surprised to know the amount of seed we sell," said Mr. Turner. "We have added field seed to the line this year. One of our biggest sellers is water melon seed. If we would work out some plan of handling melon shipments this community would find the watermelon one of the best investments among all the crops of the farm."

Attention is called to the large display advertisement in this issue of The Herald on the seed shown at the store. All of the seed sold is tested and selected seed, says Mr. Turner. Many varieties of melon seed are shown and large quantities of other seeds are on display.

There are many reasons for the ease of steering the new Ford

The new Ford is exceptionally easy to steer because of the well proportioned weight of the car, the steel-spoke wheels, the co-ordinated design of springs and shock absorbers, the size and design of the steering wheel, and the simple mechanical construction of the steering gear.

The Ford steering gear is of the worm and sector type used on high-priced cars and is three-quarter irreversible.

In simple, non-technical language, this means that the car responds easily and quickly to the steering wheel yet there is no danger of the wheel being jerked from the hands of the driver by ruts or bumps in the road. A light touch guides the car, yet you always have that necessary feel-of-the-road so essential to good driving.

Strength of materials and careful workmanship give unusual stability to the Ford steering gear and housing.

The steering worm, for instance, is splined to the steering worm shaft and is stronger, of course, than if a single key were used to hold the shaft and worm together. The steering worm sector is forged and machined in the same piece with its shaft.

The housing of the steering gear mechanism is made of three steel forgings, electrically welded together. This housing is then electrically welded to the steering column. Such a one-piece steel unit is naturally much sturdier than if several parts were used and bolted or riveted together.

Throughout, the steering mechanism of the new Ford is so simple in design and so carefully made that it requires practically no attention.

The only thing for you to do is to have the front steering spindles, spindle connecting rods, and drag link lubricated every 500 miles and the steering gear lubricated every 2000 miles. This is easy to do because of the high pressure grease gun lubricator fittings provided for these parts.

For this work, you will find it best to consult us. We are specially trained and equipped to help you get the greatest possible use from your car over the longest period of time at the least trouble and expense.

Senators From Texas

IN THE UNITED STATES
CONGRESS 1845-1930

RICHARD COKE
(1877-1895)

Richard Coke was born in Williamsburg, Virginia, March 13, 1829. He was a son of John and Eliza Coke. His early education was obtained in the common schools of his county, and at the age of sixteen he entered William and Mary College, where he was graduated in 1849. Immediately after his admission to the bar in 1850, he removed to Waco, Texas and began the practice of law. He was married in 1852 to Mary E., daughter of James L. Howe of Waco.

He enlisted in the Confederate service in 1861, and at the close of the war he had attained the rank of captain. Resuming the law practice in 1865, he was immediately appointed judge of the district court at Waco, and in the following year was elected associate justice of the supreme court of the State. General Sheridan removed him from the latter position in 1867 on the ground that he was an "impediment to reconstruction," but that act of injustice greatly increased his popularity and endeared him to all classes. He was thereafter known as a leader in Democratic politics, and by his ability and eloquence helped to gather the scattered forces into an efficient organization.

At the general election in 1873, Judge Coke was elected governor on the Democratic ticket by a majority of 50,000, together with the delegation to Congress and the greater part of the State legislature. This was an almost complete sweep for the Democrats, and incited their political opponents to extraordinary measures to, if possible, undo the verdict of the people. One Jose Rodriguez, a Mexican, was incited to apply for a writ of habeas corpus in the supreme court, alleging that he had been unlawfully restrained in his liberty for an alleged election offense. The case was styled "Ex parte Rodriguez," and although the district attorney refused to appear on the ground that it was a fictitious and fraudulent cause, it was tried and resulted in a verdict declaring the late election illegal and void.

A proclamation was, therefore, issued by Governor E. J. Davis, prohibiting the newly elected legislature

from assembling; and when that body, ignoring his orders, proceeded to the discharge of its duties, Governor Davis declined to receive any communications from it. As a last resort, in his party's extremity, Governor Davis appealed to President Grant, who, refusing to interfere, left him no course but to resign. Judge Coke was, therefore, peacefully inducted into office, being inaugurated on January 15, 1874. One of his first acts, on the basis of a legislative amendment to the constitution reorganizing the supreme court of the State, was to remove the three judges of "Ex parte Rodriguez" fame.

The administration of Governor Coke marks the return of order and prosperity and the abolition of party machine government in Texas. The constitution forced upon the State by military authorities was supplanted by the one framed in 1875, which forms the present organic law of the State. This constitution having effected a change in the term of official tenure, Governor Coke was reinaugurated in April, 1876.

In 1876, Governor Coke was elected to the United States Senate, to succeed Senator Morgan C. Hamilton, but, continuing to perform his official functions until December, he took his seat in the Senate on March 4, 1877.

He was re-elected in 1883, and again in 1889, his last term of office expiring March 3, 1895, thus completing a full eighteen years in the United States Senate. No public official ever more jealously guarded the interests of his constituents. Possessed of the utmost determination and the strongest of convictions concerning right and justice, he was ever a champion of popular causes against the oppression of corporations and legislative corruption.

As a member of the Committee on Commerce, he secured large appropriations for the improvement of the rivers and harbors of Texas, and on the Judiciary Committee his fine talents and high legal attainments made him the author of many important and valuable measures. He earned the reputation of a powerful orator—a giant in debate. He was preeminently a man of the people.

Senator Coke died in Waco, on May 14, 1897.

MILAM COUNTY ABSTRACT COMPANY BUSY PLACE

**JOHN B. HENDERSON REAL AID
TO MEN WITH COMPLETE
ABSTRACT PLANT**

The Milam County Abstract Company with its complete abstracting plant is a busy place these days.

Renewed oil activity in Milam county has brought a great rush of business to the office, declares John B. Henderson who is proving a real aid

to oil men who visit here in connection with lease and royalty investments.

"Business is better than it has been since 1924," said Mr. Henderson. With his force he is kept busy almost day and night turning out abstract work for oil firms.

According to records the Johnson well showing at Thorndale has produced more activity than any development in recent years in this county.

Geologists, scouts and investors continue to come in. The abstract office is indispensable to their investments and Mr. Henderson with his complete plant and records and maps is doing a real service to the investors.

COUNTY AND STATE ARE REPRESENTED AT FARM DEMONSTRATION CELEBRATION

Begun in the south 25 years ago to check the boll weevil, cooperative farm demonstration work will be honored in a silver anniversary celebration at Houston, Texas, February 5 to 7.

Lauderdale and Newton counties, together with Mississippi A. & M. college will be represented at Houston, Texas, from February 5 to 7, when the south will celebrate the 25th anniversary of the founding of cooperative farm demonstration work. Miss Katherine Staley, home demonstration agent for Lauderdale county and Miss Myrtle Kinds, home agent for Newton county, will attend from this section, having been granted official leave of absence by Director R. S. Wilson of the extension department, A. & M. College.

Dr. Wilson plans to attend the event as does Miss Mary B. Giesen, state supervisor of home demonstration work. It was at Houston that the first special agents fared forth in 1904 on a mission that now has expanded to more than a million farm families. They went out to conduct a long demonstration of better farming as a protection against the cotton boll weevil, but they laid the foundation for a practice which, with state and federal aid, encompasses every phase of farm and home life and is carried forward today by more than 2300 county agricultural agents and more than 900 county home-demonstration agents.

Boll Weevil Scare

The story unfolds logically and rapidly. Sweeping up from the Mexican border in 1901 and 1902, the boll weevil devastated cotton in Texas and threw the entire state into a panic. Citizens of Terral, Texas, invited Dr. Seaman A. Knapp, one of the country's foremost agriculturalists to address them. They had heard of his theory that most farm ills could be corrected by proper methods of farming. They asked for a demonstration.

A guaranty of \$1500 to protect the farmer-demonstrator against possible loss was subscribed, and Walter C. Porter volunteered his land for the venture. One hundred acres were devoted to a demonstration of diversified farming—cotton, corn and cowpeas. Good preparation, cultivation and the use of good seed resulted in Porter making \$700 more from his land than the community average.

Evans One of First

The demonstration made such an impression that in February, 1904, Dr. Knapp sent 38 "special agents" from his Houston headquarters to work in East Texas and Louisiana. Among

them were J. A. Evans, now assistant chief of the federal office of cooperative extension, and W. D. Bentley, assistant director of Oklahoma agricultural and mechanical college extension service. They drove hundreds of miles by horse and buggy to demonstrate the efficacy of "book farming."

Soon the idea of making boys the demonstrators of better farming was launched and captivated the whole country. In 1908 boy corn clubs were formed and the youngsters became so eager to join the work that they hitched up calves, colts and any animal they could get in harness to pull their plows and planters.

600,000 Club Members

Cotton clubs were created in 1909 and pig clubs in 1911. Today more than 600,000 farm boys and girls continue the practice through their 4-H club projects, ranging from poultry and dairying to gardening and canning. Miss Marie Cromer, instigator of home demonstration work, organized the first "tomato club" for girls in 1910 in Aikon county, South Carolina.

A decade after Dr. Knapp began the popularization congress passed the Smith-Lever act, which provided financial assistance to all states supplying funds equal to federal appropriations for "disseminating agricultural and home-making information." Broome county, New York, already had originated the county agent system.

Easy Riding Feature of the New Ford

One of the things for which the new Ford car has already become famous as its exceptionally easy riding qualities over rough roads. Many factors contribute to this, especially the low ratio of unsprung weight to sprung weight, the flexible transverse springs, Houdaille hydraulic shock absorbers, etc., but perhaps none more than the so-called torque tube drive. This principle of taking the thrust from the rear axle was first introduced into automotive practice by the Ford Motor Company on the Model T car and has later been adopted on many of the finest European and American cars including the Lincoln.

The torque tube is a metal housing surrounding the driving shaft. It takes the driving thrust from the rear axle and carries it to the universal housing, a point well forward on the chassis so that the car is really pulled rather than pushed over the road.

This construction also relieves the rear spring of any function except that of supporting the load. This permits the leaves of the spring to be made flexible and shackled at both ends, resulting in free and normal action and an easy absorption of road shocks.

Radius rods join the torque tube at the forged steel housing of the universal joint adding strength and rigidity, keeping the rear wheels in perfect alignment and further resulting in improved riding qualities.

JONES PRAIRIE

By MRS. R. K. FONTAINE

(Left over from last week)
Connie Mae Hickman spent Saturday and Sunday at home.

Mrs. Birt Thrasher and children spent Tuesday with her mother, Mrs. John Bailey.

Rev. Dobson preached at Little River Sunday.

The Senior B. Y. P. U. had a social at the Jones Prairie school house Saturday night. Many games and contests were enjoyed with Rev. Dobson as leader. At a late hour hot chocolate and cake were served to those present.

Mrs. Annie Jennings now of St. Louis, who has not been in the community for over 22 years visited with Mrs. W. J. Fontaine Friday afternoon. Mrs. Jennings' husband taught at the Tarver Grove school over 25 years ago. Mrs. Jennings was called to the bedside of her son who is quite ill at Baylor.

Miss Bill Fontaine and friend attended the show in Waco Saturday night.

Mr. and Mrs. Carl Black and son, were visitors in Milano Sunday.

Dr. W. J. Fontaine, wife and daughter were Sunday dinner guests at the Rodney Fontaine home Sunday.

Rev. Red preached at Sneed's Chapel Sunday.

Selma Jamison and Lois Brown visited at the Hickman home Sunday.

Wats Weise and Miss Inez Newman and Joe Hickman and Ruby Smitherman motored Miss Jewell

Smitherman to her school Sunday afternoon.

Mrs. Alma McKinney was able to return to her school Monday after being absent a week on account of illness.

Miss Evelyn Harrell, who is a student at Baylor was one of the unfortunate girls of Baylor College who lost part of her clothing in the fire.

Mrs. Rodney Fontaine and son spent Monday afternoon with Mrs. Carl Black and son.

Former Poor Boy Is Now Executive

A few years ago a poor boy, believing that business held a real future for him, went to a banker friend with a request for a loan to put him thru Tyler Commercial College, Tyler, Texas. The banker, believing both in the lad and in the efficiency of T. C. C. training, advanced him \$210.

Today that former poor boy, as a result of that loan and the course it enabled him to take, is one of the most respected citizens of Austin, Texas, chief executive of a thriving life insurance company, which nets him an income of over \$5000 a year. That young lad was no other than Mr. F. W. Woolsey.

During his course at T. C. C., young Woolsey became interested in banking and it wasn't long after he was graduated until he was occupying a book-keeping position in a Bay City, Texas, bank. After rising to the position of Assistant Cashier, he accepted a position with the State Banking Department. While in that position he became interested in the insurance business and bought an interest in the Austin Mutual Life Insurance Com-

S. P. CROSS

Insurance, Farm Loans
& Security Bonds
Cameron, Texas

pany. Later, giving up all other interests, he devoted his entire time to this business and has built it up from a small business to a prosperous one with a splendid future.

"T. C. C. training gave me a start and has helped me at every step of the way," he says.

Mr. Woolsey's story shows you that if you WANT to make your mark in the world, you CAN. If you are interested in attaining abundant success, clip the coupon printed below and mail it today for the large, free book, "Achieving Success in Business." No obligation, of course. Just clip and mail the coupon now.

Walk away from the Crowd
You Can Do It!

It simply means a working knowledge trained in some particular direction.

Knowledge of any sort will elevate a man head and shoulders above those without it.

Couple sound business training with your daily experience, and executives will tell you, you have a training that leads to promotion—nine out of ten times.

Cameron young men can have opportunities like these. Call or see the editor of this newspaper for a scholarship on any big Business College.

THE CAMERON HERALD

CLUB ENDORSES AIR FIELD PLANS HERE

DECLINE TO ACT ON PERMANENT PAID SECRETARY AND COMMITTEE DISCHARGED

The Commercial Club, although somewhat hesitant, endorse the effort now being made here to secure landing facilities for airplanes. The club, very conservative in matters of action sought at first to have the matter referred to a committee for investigation, but later voted to endorse the proposition.

An endorsement was sought to give the plans greater impetus. The matter was presented to the club by J. B. White, editor of Cameron Herald, who believes that air transportation cannot longer be ignored.

Cameron Commercial Club has again declined to take the progressive step necessary to employ an all time secretary and to take the club's business to a more active plane.

J. D. Dobbins, chairman of the committee appointed at the beginning of the present period, said that he did not believe the funds could be raised and an adverse report was made and the committee discharged. The club will continue under the present management indefinitely.

Below will be found a limited mention of activities as handed out by the secretary.

Unfinished business was stressed at the Commercial Club meeting Monday night. A number of committees that had been out for several weeks made report of progress and were continued or discharged, thus clearing up all business that was in arrears.

T. S. Henderson, Jr., for the tick eradication committee asked for further time, which was granted.

J. D. Dobbins for the full time secretary committee made an adverse report and the committee was discharged.

Financing committee for dairy cattle was granted further time.

On motion by J. B. White, the program of the airport promoters was indorsed and the chair was authorized to appoint a committee to co-operate with them.

J. C. Tucker advocated the formation of Pure Bred Bull circles as the best aid to the dairy movement.

Geo. Banzhaf indorsed this statement saying that the Thorndale Commercial Club had already helped to form three such circles.

Mr. Henderson suggested that landlords ought to be encouraged to furnish tenants purebred stock on shares.

Mr. Tucker moved that the president and secretary with Mr. Reese, arrange an itinerary of dairy meetings with other Commercial Clubs, with four or five members attending. The president named a committee.

Those present at the meeting were C. S. Peyton, J. D. Dobbins, J. C. Tucker, W. R. Hoover, F. S. Lesovsky, Geo. T. Graves, W. H. Shipp, J. B. White, Geo. Banzhaf, T. A. Fisher, J. E. Mangum, Rev. E. S. Hutcherson, Moulton Cobb, Dan Collins and W. M. Cobb.

MAYSFIELD

(Left over from last week)

Miss Nell Massengale of the Cameron Hospital, spent Sunday night with her parents, Mr. and Mrs. Alfred Massengale.

Warren and Valter White with their sister, Miss Mary, were entertained in the home of Mr. and Mrs. Cooper Monday evening by Mr. Griffin who gave them some splendid music on the violin.

Mrs. V. L. White, Mr. and Mrs. H. W. Massengale, Herbert Massengale, Messrs. Valter, Ralph and Neville White attended the show "King of Kings," in Calvert Friday night.

The following young people enjoyed

a trip to the skating rink at Hearne last Tuesday night: Misses Mary White, Mildred and Mary Ethel Massengale, Mary Randolph and Mrs. P. Porter; Messrs. Valter White, Robert Massengale, Warren White, Seth and Troy Cooper, LeRoy Massengale and Paul Porter.

Miss Bertha and brother, Elmer Floyd and Miss Ada Lee Massengale motored to Buckholts Sunday, taking Miss Oleta Elliott home, she having spent the week end with Miss Floyd.

Mr. and Mrs. Roy Yates and little daughter, Rosemary, and Mrs. Porter of Branchville enjoyed the picture "King of Kings" at Calvert Friday night.

Mr. and Mrs. Herbert Massengale and family were Sunday dinner guests in the home of Mrs. V. L. White.

Mr. and Mrs. Webb Todd of Chicago, Ill., are visiting her father, Chas. Butts.

Miss Mary Ethel Massengale, a student in high school at Cameron spent the week end with her parents, Mr. and Mrs. Herbert Massengale.

Miss Nell Red failed to attend school Tuesday on account of illness.

Mrs. Robbins, County Superintendent visited the Maysfield school the Mexican school located on Jim Barmore's plantation, taught by Miss Lorene McMillan of Houston, Tuesday.

The Presbyterian ladies of Maysfield met in the home of Mrs. J. L. Yeager Tuesday afternoon with eight members present. Mesdames J. L. Yeager, R. B. Mayes, Roy Newton, E. G. Newton, Hartsfield, Ernest Kelso, Hubert and R. L. Nicholson were present. The society is glad to welcome

Mrs. Hartsfield back into its midst, she having lived here formerly when she was a faithful church worker. The president not being present, the vice-president presided, the meeting opening with sentence prayers and Scripture reading. Officers were elected and plans for the years' work were discussed. The business session closed with the Lord's prayer repeated in concert, after which a pleasant social hour followed, during which the hostess served delicious fruit and candy. The next meeting will be in the home of Mrs. Roy Newton on Wednesday, Feb. 13th, this also being Mrs. Newton's birthday.

Federation Societies Hold Meeting Here

The Cameron Federation of Missionary Societies met in quarterly session at the Christian church Tuesday afternoon at 3:30 o'clock. The president Mrs. J. P. Love, called the meeting to order and asked Mrs. Graham Gillis, superintendent of prayer, to conduct the devotional, which was on the subject of worship. The hymn, "O Worship the King," was sung by the group after which Mrs. Gillis read the 63rd Psalm and this was followed by a prayer.

Miss Lorene Wade sang as a solo "My Task." She was accompanied by Miss Grace Eplen.

Mrs. Charles Pollard acted as secretary in the absence of Mrs. John A. Green. Reports from the various committees were given during the business session, and the matter of the World Day of Prayer, which is to be observed on February 15, was discussed.

The remainder of the time was devoted to a round table discussion concerning the problems of the Federation, with Mrs. W. O. Triggs acting as chairman.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam County, Greeting—

You are hereby commanded to summon Osie Phoenix by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 4th day of March 1929, the same being the 1st Monday in March 1929, then and there to answer a petition filed in said court on the 13th day of November 1928, in a suit, numbered on the docket of said court No. 10104, wherein Leon Phoenix is plaintiff and Osie Phoenix, is defendant said petition alleging:

Statutory ground three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

At First National Bank

Minerva Refinery

(continued from first page, this sec.) meeting held in Fort Worth yesterday in which the capital stock of the company was increased to \$1,250,000 and several of the best known oil men and business men of Texas were added to the already strong personnel of the ownership and management. The capital stock heretofore has been \$100,000.

C. A. Middleton of Corsicana, of the Kenz-Middleton Refinery interests, who with John S. Owens and E. T. Green organized the Central Texas, will continue as president and general manager of the company. General headquarters will be in Corsicana and western division headquarters will be maintained in Brownwood.

New Properties

In addition to its Brownwood and Brown county holdings, which are being extended, the company by the reorganization and expansion has acquired 160 producing wells in the Corsicana and Minerva fields, 150 additional miles of pipe line, a 5000 barrel refinery at Angus, six miles south of Corsicana, a 3000 barrel refinery at Minerva, numerous trucks, several filling stations and other properties.

An appraisal of the properties made by the engineers of the L. E. Cahill company of Tulsa places the value of the holdings of the concern now at \$1,600,000.

The Personnel

The following directors are added to the company: E. L. Smith, of Mexia, head of the E. L. Smith Oil Company; John Calhoun of Corsicana; Frank Lemon, Corsicana; R. L. Wheelock, I. N. Cerf and W. C. Strouble, Corsicana; Harry Reynolds of Cisco, secretary and treasurer and general manager of the Cranfill & Reynolds Company, Lawrence Treadwell, Corsicana, and Mrs. John S. Owens of Brownwood. All the formed directors remain on the board. They are: C. A. Middleton, Corsicana; E. T. Green, Sherwood B. Owens, J. H. Edwards and George P. Mann, Brownwood.

The officers of the company are: C. A. Middleton, president and general manager; Sherwood B. Owens, of Brownwood, vice president and assistant general manager; E. T. Green, vice president in charge of production of the western division; John Calhoun vice president and director of sales; Frank Lemon, secretary; I. N. Cerf, president of the State National Bank of Corsicana, treasurer.

The new organization will become effective February 1.

Cedar Creek Well

(continued from first page, this sec.)

create wide interest because seemingly off the pre-conceived lines of pay as determined by geological research.

However, the wildcatter has been the one big producer in the history of the oil business. To them goes the credit for some of the greatest discoveries in history notwithstanding the fact they flew in the face of geology.

The Cedar Creek well is about 12 miles southeast of the old Posey well that had a strong showing of both gas and oil. It is some miles away from the deep test drilled on the H. F. Smith tract some months ago. It is well within the defined territory of possibilities and will be watched with interest.

It is certain that men of the experience noted in connection with this development, have high hopes of discovery or their undertaking would not be so well planned and elaborate. This well marks the opening of another active drilling area in Milam county.

The Herald will present in the next issue a detailed description of this property together with as much information as can be gathered from the operators.

Posey Well

(continued from first page, this sec.) or a natural gas franchise for Cameron.

This photo is republished in connection with interest that is now being shown in the blocking of acreage for a test in the Milano section. Other wells have been drilled in this section of the county with the uniform result. Renewed activity in this and other sections of the county gives rise to a wide interest in the structures of this section.

The Posey No. 1 was a freak and has never been quite satisfactorily explained even to oil men. The showing in this well led the oil fraternity to expect much from this tract of acreage. Hope has not yet been fully abandoned for production and natural gas in paying quantities is assured here. The well blew in heavily as the people were about the barbecue tables, a roar and a column of oil and gas and water shot above the big

derrick. This photo has no especial bearing in the development work now under way in this county but is published because of the keen interest manifested at the time.

Cameron Boy Now With Standard Oil In South America

Stuart Epperson, son of Dr. and Mrs. A. S. Epperson of Cameron is now in Venezuela with the Standard Oil Company. He is making rapid progress in the science of the Seismos and other inventions used in higher geology and is now operating one of the instruments for the company.

His first contact with the Seismos was at Taylor some years ago when Dr. Menthrop, inventor and other German men of science first tested this instrument on structure there. From this experience he developed interest for the work and now has a place of responsibility with the Standard.

STATE OF TEXAS

To the Sheriff or any Constable of Milam County,—Greeting.

You are hereby commanded to summon Jim Terry by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper

published in your county, to appear at the next regular term of the District Court of Milam county, to be held at the court house thereof in Cameron, on the 4th day of March 1929, the same being the first Monday in March, 1929 then and there to answer the First Amended Original petition filed in said court on the 30th day of January 1929, in a suit, numbered on the docket of said court No. 10,133, wherein A. H. Baskin, A. J. Lewis, and W. A. Morrison are plaintiffs and Ford Terry, Charlie Terry, Marshall Terry, John Terry, L. L. Terry, Homer Terry, Cage Terry, Claude Gray, Joe Gray, Essie Gray, Daisie Gray, Sam Bailey, Jessie Bailey, and Jim Terry and First National Bank of Cameron are defendants.

Said petition alleging:

That this suit is for partition and that plaintiffs are the joint owners with the defendants in certain 3 tracts of land containing 200 acres in the aggregate, situated in Milam county, Texas, about 7 miles East of Cameron, at Belmena School House, out of the J. K. Tyler League as said 3 tracts of land are fully described in the judgment of the District Court of Milam county, Texas, in cause No. 7202, dated May 26, 1916, and of record in the Civil Minutes of said Court in Vol. H, page 410 et seq., and also described in defendants' answer herein and to

which descriptions reference is here made.

Plaintiffs charge that W. A. Morrison owns 40.9 acres plaintiff A. J. Lewis 13.63 acres and the plaintiff A. H. Baskin 18.18 acres and that the defendants John Terry, Cage Terry, Luther Terry, Charlie Terry, and Marshall Terry each own 9.09 acres and defendants Claude Gray and his three children, Essie Gray, Daisie Gray and Joe Gray, own jointly 9.09 acres, and that the defendants Ford Terry, Homer Terry, Jessie Terry Bailey and Jim Terry each own 18.18 acres and that said parties, plaintiffs and defendants own all of said 200 acres of land in the amounts and proportions stated above, and that said land is incapable of partition and should be sold for partition, and that the defendants have converted all of the rents to their own use, and that plaintiffs pray for a lien on said defendants' interest to secure plaintiffs' portions of said rents, and that defendant First National Bank of Cameron claims a lien on the portion of said land belonging to defendant Jim Terry, and that it be required to set up such interest in this suit or be declared to have none.

Plaintiffs pray for a partition of said land, for rents, for an accounting and for the appointment of a receiver, for the sale of said land for partition and for general relief.

Herein fail not, but have before said

court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of January A. D. 1929.

Yesterday

the small isolated power plant was fairly capable of serving the simple needs for electric service. The uses of electricity were few. It had not then assumed the importance in daily life which it now holds.

To day

the isolated power plant is not capable of meeting the modern demand for electric service. Great generating stations produce electric power which is transmitted over high tension power lines for many miles, thus making possible metropolitan electric service in the smallest towns. The Texas Power & Light Company pioneered this type of electric power in Texas and is now its leading producer.

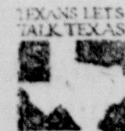

the PURPOSE of the Texas Power & Light Company as a Texas Institution

Tuesday
February 12

While Texas produces almost 50% of the Pecans grown in the United States, you may find Pecans from many other sections on sale in Texas stores which do not feature Texas pecans. It is possible to produce much new wealth in Texas by proper marketing of Pecans.

The Texas Power & Light Company was established sixteen years ago for the purpose of rendering electric service to Texas cities and towns.

It was evident, even sixteen years ago, that isolated power plants would not be able to supply the rapidly multiplying needs of Texas people for electric service.

After long study and experiment the engineers of the Texas Power & Light Company, together with other leading electrical engineers throughout the world, found that electric energy could be transmitted over high tension power lines for great distances from large generating stations, thus making possible a metropolitan type of electric service for smaller communities.

From that day until this it has been the purpose of this Company to render an electric service adequate to the needs of Texas people, in order that any user in any community served could at any time of the day or night, press an electric

button and receive instant, dependable electric service at a reasonable cost.

Revolutionary changes have been made in the methods of generating and distributing electric power. Changes are rapid, so rapid, even now, that equipment which is the last word today will be obsolete tomorrow. The electric service has become so inseparably a part of our daily life that it would be impossible for us to move through a day without its aid. The tremendous burden of responsibility which is thus thrown upon the Texas Power & Light Company is borne with true American efficiency.

Through all the changes within its own industry, through poor years and good, through prosperity and depression, into this present era of stabilized and sound development, the Texas Power & Light Company has held unwaveringly to its great purpose. As a result those Texas cities and towns served by this Company have unrivalled electric service.
